TRANSFORMING MARKETING

# FORWARD LOOKING STATEMENTS & OTHER INFORMATION

This presentation contains forward-looking statements. Statements in this presentation that are not historical facts, including without limitation the information under the heading "Financial Outlook" and statements about the Company's beliefs and expectations, earnings (loss) guidance, recent business and economic trends, potential acquisitions, and estimates of amounts for redeemable noncontrolling interests and deferred acquisition consideration, constitute forward-looking statements. Words such as "estimates", "expects", "contemplates", "will", "anticipates", "projects", "plans", "intends", "believes", "forecasts", "may", "should", and variations of such words or similar expressions are intended to identify forward-looking statements. These statements are based on current plans, estimates and projections, and are subject to change based on a number of factors, including those outlined in this section. Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update publicly any of them in light of new information or future events, if any. Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statements. Such risk factors include, but are not limited to, the following:

- risks associated with international, national and regional unfavorable economic conditions that could affect the Company or its clients, including as a result of the novel coronavirus pandemic ("COVID-19");
- the effects of the outbreak of COVID-19, including the measures to reduce its spread, and the impact on the economy and demand for our services, which may precipitate or exacerbate other risks and uncertainties;
- an inability to realize expected benefits of the combination of the Company's business with the business of MDC (the "Business Combination" and, together with the related transactions, the "Transactions");
- adverse tax consequences in connection with the Transactions for the Company, its operations and its shareholders, that may differ from the expectations of the Company, including that future changes in tax law, potential increases to corporate tax rates in the United States and disagreements with the tax authorities on the Company's determination of value and computations of its attributes may result in increased tax costs;
- the occurrence of material Canadian federal income tax (including material "emigration tax") as a result of the Transactions;
- the impact of uncertainty associated with the Transactions on the Company's businesses;
- direct or indirect costs associated with the Transactions, which could be greater than expected;
- risks associated with severe effects of international, national and regional economic conditions;
- the Company's ability to attract new clients and retain existing clients;
- reduction in client spending and changes in client advertising, marketing and corporate communications requirements;
- financial failure of the Company's clients;
- the Company's ability to retain and attract key employees;
- the Company's ability to achieve the full amount of its stated cost saving initiatives;
- the Company's implementation of strategic initiatives;
- the Company's ability to remain in compliance with its debt agreements and the Company's ability to finance its contingent payment obligations when due and payable, including but not limited to those relating to redeemable noncontrolling interests and deferred acquisition consideration;
- the successful completion and integration of acquisitions which complement and expand the Company's business capabilities; and
- foreign currency fluctuations.

Investors should carefully consider these risk factors and the additional risk factors outlined in more detail under the caption "Risk Factors" in Exhibit 99.2 to our Current Report on Form 8-K, filed with the Securities and Exchange Commission (the "SEC") on August 10, 2021, and accessible on the SEC's website at [www.sec.gov](http://www.sec.gov), and in the Company's other SEC filings.

# FORWARD LOOKING STATEMENTS & OTHER INFORMATION

## Non-GAAP Financial Measures

In addition to its reported results, Stagwell Inc has included in this presentation certain financial results that the Securities and Exchange Commission (SEC) defines as "non-GAAP Financial Measures." Management believes that such non-GAAP financial measures, when read in conjunction with the Company's reported results, can provide useful supplemental information for investors analyzing period to period comparisons of the Company's results. Such non-GAAP financial measures include the following:

**Pro Forma Results:** Unless otherwise noted, financial results are presented on a Pro Forma basis giving effect to the combination as if it was completed on January 1, 2019. The Pro Forma amounts presented for each period were prepared by combining the historical standalone statements of operations for each of legacy MDC and SMG. The unaudited pro forma results are provided for illustrative purposes only and do not purport to represent what the actual consolidated results of operations or consolidated financial condition would have been had the combination actually occurred on the date indicated, nor do they purport to project the future consolidated results of operations or consolidated financial condition for any future period or as of any future date. The Company has excluded a quantitative reconciliation of adjusted Pro Forma EBITDA to net income under the "unreasonable efforts" exception in Item 10(e)(1)(i)(B) of Regulation S-K.

**Net Revenue:** GAAP Revenue adjusted to exclude certain third-party direct costs when the Company acts as principal for the services rendered in the client arrangement

**Organic Net Revenue:** "Organic net revenue growth" and "organic net revenue decline" refer to the positive or negative results, respectively, of subtracting both the foreign exchange and acquisition (disposition) components from total net revenue growth. The acquisition (disposition) component is calculated by aggregating prior period revenue for any acquired businesses, less the prior period revenue of any businesses that were disposed of during the current period. The organic revenue growth (decline) component reflects the constant currency impact of (a) the change in revenue of the partner firms that the Company has held throughout each of the comparable periods presented, and (b) "non-GAAP acquisitions (dispositions), net". Non-GAAP acquisitions (dispositions), net consists of (i) for acquisitions during the current year, the revenue effect from such acquisition as if the acquisition had been owned during the equivalent period in the prior year and (ii) for acquisitions during the previous year, the revenue effect from such acquisitions as if they had been owned during that entire year (or same period as the current reportable period), taking into account their respective pre-acquisition revenues for the applicable periods, and (iii) for dispositions, the revenue effect from such disposition as if they had been disposed of during the equivalent period in the prior year.

**Adjusted EBITDA:** Adjusted EBITDA is defined as Net income excluding non-operating income or expense to achieve operating income, plus depreciation and amortization, stock-based compensation, deferred acquisition consideration adjustments, and other items. Other items include restructuring costs, acquisition-related expenses, and non-recurring items.

**Pro Forma Free Cash Flow:** Pro Forma Free Cash Flow is a non-GAAP measure defined as Adjusted EBITDA less capital expenditures, change in net working capital, cash taxes, interest, and distributions to minority interests, but excludes contingent M&A payments.

**Financial Guidance:** The Company provides guidance on a non-GAAP basis as it cannot predict certain elements which are included in reported GAAP results.

**Net New Business:** Estimate of annualized revenue for new wins less annualized revenue for losses incurred in the period.

# *The Merger* IS WORKING

**\$2,150M-\$2,180M**

Revised PF Total Revenue Growth  
Guidance from \$2,135M-\$2,180M

**\$370M-\$380M**

Revised PF Adjusted EBITDA  
Guidance from \$342M - \$357M

## Pro Forma Financial Highlights 3Q 2021

- **Net Revenue Growth**  
of 25.2% year-over year,, 14.4% vs. 3Q 2019
- **Organic Net Revenue Growth**  
of 22.8% year-over year, 27.9% excluding advocacy businesses
- **Adjusted EBITDA**  
of \$100.3M, up 12.4% year-over-year and 31.2% vs. 3Q 2019
- **Adjusted EBITDA Margin**  
of 20.1% of 3Q 2021 net revenue  
of 17.7% of 3Q 2021 total revenue
- **Digital Revenue Mix**  
48% of net revenue
- **Larger contract wins starting to materialize**  
and inclusion in larger pitch opportunities increasing

Note: Financials and guidance are Pro Forma as if the combination was completed January 1, 2019. The projected financial information constitutes forward-looking statements and should not be relied upon as being necessarily indicative of future results and is for illustrative purposes only.

# The Merger IS WORKING

Beginning to  
drive larger wins

**Cue Health**, which recently went public, provides rapid, lab-quality molecular testing at home for COVID, the flu, and much more. Doner, KWT and MMI won the integrated marketing account across creative, media and public relations.

**WorldStrides**, an educational student travel company, recently awarded a win across creative, digital, PR, and strategy to an integrated team. The work is being led by Vice Chair Ray Day and includes Rhythm, KWT and Sloane.

**Amazon Kids** is looking to bring Amazon Kids+ brand positioning to life and drive consideration among parents of kids 3-12 in the US. An integrated team from Hunter is doing the positioning and creative in concert with MMI handling the full funnel media.

**SuperCuts**, the leading haircut brand, selected an integrated 72andSunny and Assembly team to create, unveil and buy all the media for their new brand platform, "It's not just any haircut, it's Supercuts."
