Annual Report

NASDAQ: STGW

Stagwell

is the challenger network built to transform marketing.

Mark Penn

Chairman and CEO

We deliver **scaled creative performance** for the world's most ambitious brands, connecting culture-moving creativity with **leading-edge technology** to harmonize the art and science of marketing. Led by entrepreneurs, our **10,000+** specialists in **34+** countries are unified under a single purpose: **to drive effectiveness and improve business results for their clients.**

This Annual Report and our Annual Report on Form 10-K (the Form 10-K) included herein contain estimates, projections, objectives, expected results and other "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Statements in this document that are not historical facts, including statements about the Company's beliefs and expectations, future financial performance and future prospects, business and economic trends, potential acquisitions, and estimates of future financial results, constitute forward-looking statements. Forward-looking statements are based on current assumptions that are subject to risks and uncertainties that may cause actual results to differ materially from the forward-looking statements, including but not limited to the risks and uncertainties discussed in Item 1A-Risk Factors and the section entitled "Forward-looking Statements" of the Form 10-K included herein. Therefore, you should not place undue reliance on such statements. Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update any of them in light of new information or future events, if any.

STAGWELL
Marketing Cloud

Dear Investors,

Stagwell continues to push the envelope for what a well-managed, digital-first marketing company can do. And we're just getting started.

I am pleased to report that Stagwell closed out FY 2022 with industry-leading double-digit growth, substantial margin expansion, record free cash flow, record earnings per share, and our lowest net-debt ratio to date. When Stagwell Inc. launched in 2021, I promised we would transform marketing with performance-driven digital strategy and technology innovation. Nearly two years later, we're leading our clients through the global transition into the digital economy and innovating for the future with game-changing augmented reality (AR) and artificial intelligence (AI) products.

We continue to grow and transform our business and the industry; looking ahead, we expect more growth, innovation, and an expanded market share.

WHAT'S DRIVING OUR GROWTH: EVERY COMPANY IS A DIGITAL MARKETING COMPANY

Stagwell's founding thesis is that every company today is a digital marketing company – whether it wants to be or not – as consumers and businesses adapt to primarily digital-first lives. Marketers now face several imperatives that didn't exist a decade ago: the complete fragmentation of consumer media habits, the drive for more addressable content, the need for higher-level creativity

in digital experiences, and a post-pandemic landscape that has blurred the distinction between online and offline advertising.

We believe our companies and services are positioned to grow with the global digital economy; we are the only global marketing network with a majority-digital revenue services mix, with 57% of FY22 revenue hailing from our "high-growth digital services." We define those services as digital transformation (up 33% in 2022), performance media and data (up 18% in 2022), and consumer insights and strategy (up 32%).

Stagwell is well positioned in the industry amid a digital revolution in marketing:

Our **Digital Transformation** businesses execute on ever-more-complex projects for global brands in primarily two categories: elevating their marketing operations with true digital-first strategy, as seen in Code and Theory's ongoing work with Amazon Ads, and engineering scalable technology-based solutions that help clients prepare their enterprises for cutting-edge transformation, as with YML's development of Y – Cares, which

“Stagwell is well positioned in the industry amid a digital revolution in marketing”

enables healthcare institutions to create their own personalized digital experiences at scale.

Our **Brand Performance Network-led media business** is situated to benefit from the growing fragmentation of the digital landscape. GALE, our integrated creative, media, and strategy firm, saw its second consecutive year of double-digit revenue growth as clients benefited from its approach to omnichannel storytelling. For example, GALE leveraged its advanced Customer Relationship Management platform to help drive a 10% increase in revenue for H&R Block in 2022, efforts which in part landed GALE as Adweek's Breakthrough Media Agency of the Year and on Ad Age's prestigious "A List" of top 10 agencies.

Transformative Recognition

Ad Age Profile of Mark Penn: The Outsider

Anomaly is Adweek's U.S. Agency of the Year

GALE is #5 on the Ad Age A-List

Doner Partners Network Named Standout A-List Agency for Ad Age

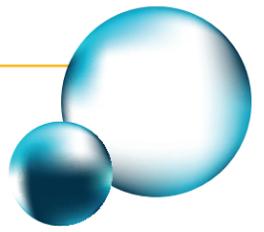

Instrument Named 2022 Fast Company Most Innovative Company in Design

Our **Consumer Insights & Strategy** segment is agile and sophisticated, commanding a premium in the marketplace as companies seek advice to navigate an uncertain world. For example, National Research Group's entertainment insights continue to contribute to the post-pandemic resurgence of the film industry, as seen with the box office success of Top Gun: Maverick.

And, while we estimate that Stagwell represents approximately 2 percent market share among top 25 global marketing services companies, agencies within our **Creativity & Communication Segment** turn out top-rated Super Bowl Commercials and command an outsized presence on top industry award lists. Anomaly, behind this year's famous Ben Affleck-JLo Super Bowl commercial, won Adweek's 2022 Agency of the Year and, altogether, Stagwell was crowned the #7 most creative network in the world by the Cannes Lions International Festival of Creativity, where our work for clients like Abbot Technologies, Chipotle, Corona, and Visit Sweden took home top honors.

WHAT'S DRIVING OUR GROWTH: MATURING INTO A TRULY GLOBAL NETWORK

Technology and scaled partnerships are enabling Stagwell to service accounts globally, without needing an on-the-ground footprint in every city.

In 2022, we implemented a two-pronged strategy for international growth, focusing on strategic acquisitions to scale our operations and partnering with global affiliates to fill regional gaps and provide specific client solutions. This approach yielded impressive results: our FY22 international revenue grew twice as fast as domestic revenue. The recent establishment of our APAC headquarters in Singapore and a satellite office in Malaysia have been particularly fruitful, driving more in-region collaboration between our agencies. We have also expanded into Brazil, where we're seeking to tap into the growth opportunities of the Latin American market.

Our innovative affiliate structure has also been instrumental in creating a network of local entrepreneurs and experts equipped with the market knowledge, client connections, and cultural understanding necessary to execute complex, technology-driven campaigns across different regions. Through this network, we have been able to serve clients and identify new market opportunities, exemplified in our scaled content collaborations with Buentipo in Latin America and

our collaborative research efforts with SBI Media in Nigeria and Coconuts Media in Indonesia.

WHAT'S DRIVING OUR GROWTH: COLLABORATION FOR INTEGRATED SERVICES

2022 saw us further align our core integrated services networks: the Anomaly Alliance, the Brand Performance Network, Constellation, the Code and Theory Network, and the Doner Partners Network.

Each leverages complementary capabilities to win larger pieces of business and service more complex accounts. They also unleash what we informally call the "network effect," giving our teams the ability to pitch together for new business, work together for better service delivery, and access new capabilities or partnerships. For example, we are funneling the Brand Performance Network's media buying and planning expertise across the network via "media studios" at top creative shops, ensuring our iconic creatives can navigate the convergence of brand and performance marketing. And, led by the Code and Theory Network, an enterprise team is working to ensure we grow our technology footprint with strategic partnerships across marketing technology platforms.

Our teams are working together often to deliver global client work. Our work with Wells Enterprises in 2022 is a strong example of a full-network engagement, involving nearly 10

"Our work with Wells Enterprises in 2022 is a strong example of a full-network engagement."

agencies across our pyramid of core capabilities, who collaborated to develop an integrated strategy to drive awareness and commerce to Wells' portfolio of brands. Additionally, we have served as the in-house communications team for Wells Enterprises, delivering over a year of work as the family-owned business prepared to sell to Ferrero. Our team crafted a winning strategy that positioned Wells as an ice cream leader and highlighted the Ferrero acquisition's power to drive business growth.

Our integrated approach has led to significant wins and land-and-expand opportunities throughout our networks. For example, Forsman & Bodenfors and Assembly partnered to win Mandarin Oriental Hotel Group's lead creative and brand duties, with the client praising our "seamless" approach.

Similarly, our Doner-KWT-HarrisX collaboration helped secure the Indiana Economic Development Corporation (IDEC)'s business. Our strategic platform, backed by dynamic creative executions and robust earned media initiatives, helped the Doner Partners Network emerge as the top choice. Ad Age recently recognized the Doner Partners Network as a standout agency on the 2023 A-List — the first time an integrated network at Stagwell has received industry recognition.

GROWING AMBITIOUSLY AND PRUDENTLY

Beyond our client work, we continue to push

the envelope on what a well-managed digital-first company can do. We delivered a 20.3% Adjusted EBITDA margin on net revenue for the full year as we controlled our labor costs, benefited from the even-year advocacy cycle, and reduced our comp-to-net revenue ratio. As a result, we ended the year with \$270M of free cash flow and drove our net debt ratio down significantly below our previous target of 2.5x to 2.17x Adjusted EBITDA.

Looking ahead, we have announced a \$35M drive over the next two years to cut administrative expenses as we close out the final round of deal-related synergies, a move we expect to contribute to expanding margins. Additionally, we doubled the stock buy-back program to \$250M from \$125M and set 2.0x Adjusted EBITDA as our long-term net leverage target, lowering it from 2.5x.

We plan to continue to use our free cash flow for three purposes:

1. Making prudent investments to augment our growth in tech services and expand our global footprint.
2. Paying off existing investments.
3. Buying back our stock or otherwise supporting our shareholders through debt reduction.

WHAT'S NEXT: BUILDING THE NEXT FRONTIERS OF MARKETING

The state of Stagwell remains vibrant despite the headwinds of a too-hot and too-cool economy. Requests for proposals (RFPs) are coming in at high volumes as our story – and results – resonate with the industry.

We are not standing still. A big priority through 2023 will be bolstering scaled digital and technology capabilities across our broader portfolio. We plan to approach this in two ways: introducing scaled partnerships with top global marketing technology vendors and investing in a next-generation development program to

Scan to learn more

incubate creative strategists with deep digital and technology expertise.

We are working to address the future of marketing with our strategic investments in frontiers like AI and AR via the Stagwell Marketing Cloud.

We unveiled our stadium AR experience, ARound, developed in partnership with the Minnesota Twins, and held the largest virtual snowball fight in history with the NFL's Los Angeles Rams. Just last month, ARound launched in the NBA, its third professional sports league, via the Cleveland Cavaliers.

On the AI front, we are pressing our advantage as early-movers in the AI and communications technology space with PRophet, which launched in 2019 as the first predictive AI tool to help PR professionals write and pitch more effective news releases. V2, nicknamed Taylor, launched as the first generative AI tool and can write a

release, generate social content, tailor pitches to journalists, and more. PRophet recently came out #1 in the Innovation SABRE Awards – a global competition of tech products in the public relations space.

Over time, we expect SMC services across SaaS, DaaS, and Advanced Media Platform services to contribute significantly to our growth.

THE FUTURE IS BRIGHT

The future of Stagwell is bright. As the industry resonates with our story, we're expanding client relationships globally. And we're not standing still, innovating with the Marketing Cloud in a way that I'm confident will position us for long-term success.

Thank you for your continued support,

Mark Penn

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Class A Common Stock, par value \$0.001 per share	STGW	NASDAQ

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated Filer Accelerated Filer
Non-accelerated Filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the shares of all classes of voting and non-voting common stock of the registrant held by non-affiliates as of June 30, 2022, the last business day of the registrant's most recently completed second fiscal quarter, was approximately \$410.1 million, computed upon the basis of the closing sales price \$5.43 of the Class A Common Stock on that date.

The number of shares of common stock outstanding as of February 28, 2023 was 131,605,852 shares of Class A Common Stock, 2,271 shares of Class B Common Stock, and 160,909,058 shares of Class C Common Stock.

EXPLANATORY NOTE

On December 21, 2020, MDC Partners Inc. (“MDC”) and Stagwell Media LP (“Stagwell Media”) announced that they had entered into an agreement, providing for the combination of MDC with the operating businesses and subsidiaries of Stagwell Media (the “Stagwell Subject Entities”) (the “Transaction Agreement”). The Stagwell Subject Entities comprised Stagwell Marketing Group LLC (“Stagwell Marketing” or “SMG”) and its direct and indirect subsidiaries.

On August 2, 2021 (the “Closing Date”), we completed the combination of MDC and the Stagwell Subject Entities and a series of steps and related transactions (such combination and transactions, the “Transactions”). In connection with the Transactions, among other things, (i) MDC completed a series of transactions pursuant to which it emerged as a wholly owned subsidiary of the Company, converted into a Delaware limited liability company and changed its name to Midas OpCo Holdings LLC (“OpCo”); (ii) Stagwell Media contributed the equity interests of Stagwell Marketing and its direct and indirect subsidiaries

to OpCo; and (iii) the Company converted into a Delaware corporation, succeeded MDC as the publicly-traded company and changed its name to Stagwell Inc.

The Transactions were treated as a reverse acquisition for financial reporting purposes, with MDC treated as the legal acquirer and Stagwell Marketing treated as the accounting acquirer. As a result of the Transactions and the change in our business and operations, under applicable accounting principles, the historical financial results of Stagwell Marketing prior to August 2, 2021 are considered our historical financial results. Accordingly, historical information presented in this Annual Report on Form 10-K (this “Form 10-K”) for events occurring or periods ending before August 2, 2021 does not reflect the impact of the Transactions or the financial results of MDC and may not be comparable with historical information for events occurring or periods ending on or after August 2, 2021.

References in this Form 10-K to “Stagwell,” “we,” “us,” “our” and the “Company” refer (i) with respect to events occurring or periods ending before August 2, 2021, to Stagwell Marketing Group LLC and its direct and indirect subsidiaries and (ii) with respect to events occurring or periods ending on or after August 2, 2021, to Stagwell Inc. and its direct and indirect subsidiaries.

All dollar amounts are stated in U.S. dollars unless otherwise stated.

Forward-Looking Statements

This document contains forward-looking statements. within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). The Company’s representatives may also make forward-looking statements orally or in writing from time to time. Statements in this document that are not historical facts, including, statements about the Company’s beliefs and expectations, future financial performance and future prospects, business and economic trends, potential acquisitions, and estimates of amounts for redeemable noncontrolling interests and deferred acquisition consideration, constitute forward-looking statements. Forward-looking statements, which are generally denoted by words such as “anticipate,” “assume,” “believe,” “continue,” “could,” “create,” “estimate,” “expect,” “focus,” “forecast,” “foresee,” “future,” “guidance,” “intend,” “look,” “may,” “opportunity,” “outlook,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “target,” “will,” “would” or the negative of such terms or other variations thereof and terms of similar substance used in connection with any discussion of current plans, estimates and projections are subject to change based on a number of factors, including those outlined in this section.

Forward-looking statements in this document are based on certain key expectations and assumptions made by the Company. Although the management of the Company believes that the expectations and assumptions on which such forward-looking statements are based are reasonable, undue reliance should not be placed on the forward-looking statements because the Company can give no assurance that they will prove to be correct. The material assumptions upon which such forward-looking statements are based include, among others, assumptions with respect to general business, economic and market conditions, the competitive environment, anticipated and unanticipated tax consequences and anticipated and unanticipated costs. These forward-looking statements are based on current plans, estimates and projections, and are subject to change based on a number of factors, including those outlined in this section. These forward-looking statements are subject to various risks and uncertainties, many of which are outside the Company’s control. Therefore, you should not place undue reliance on such statements. Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update publicly any of them in light of new information or future events, if any.

Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statements. Such risk factors include, but are not limited to, the following:

- risks associated with international, national and regional unfavorable economic conditions that could affect the Company or its clients;
- the continued impact of the coronavirus pandemic (“COVID-19”), and evolving strains of COVID-19 on the economy and demand for the Company’s services, which may precipitate or exacerbate other risks and uncertainties;
- inflation and actions taken by central banks to counter inflation;
- the Company’s ability to attract new clients and retain existing clients;

- the impact of a reduction in client spending and changes in client advertising, marketing and corporate communications requirements;
- financial failure of the Company’s clients;
- the Company’s ability to retain and attract key employees;
- the Company’s ability to compete in the markets in which it operates;
- the Company’s ability to achieve its cost saving initiatives;
- the Company’s implementation of strategic initiatives;
- the Company’s ability to remain in compliance with its debt agreements and the Company’s ability to finance its contingent payment obligations when due and payable, including but not limited to those relating to redeemable noncontrolling interests and deferred acquisition consideration;
- the Company’s ability to manage its growth effectively, including the successful completion and integration of acquisitions that complement and expand the Company’s business capabilities;
- the Company’s ability to develop products incorporating new technologies, including augmented reality, artificial intelligence, and virtual reality, and realize benefits from such products;
- an inability to realize expected benefits of the combination of the Company’s business with the business of MDC;
- adverse tax consequences in connection with the Transactions for the Company, its operations and its shareholders, that may differ from the expectations of the Company, including that future changes in tax law, potential increases to corporate tax rates in the United States and disagreements with the tax authorities on the Company’s determination of value and computations of its attributes may result in increased tax costs;
- the occurrence of material Canadian federal income tax (including material “emigration tax”) as a result of the Transactions;
- the Company’s unremediated material weaknesses in internal control over financial reporting and its ability to establish and maintain an effective system of internal control over financial reporting;
- the Company’s ability to protect client data from security incidents or cyberattacks;
- economic disruptions resulting from war and other geopolitical tensions (such as the ongoing military conflict between Russia and Ukraine), terrorist activities and natural disasters;
- stock price volatility; and
- foreign currency fluctuations.

Investors should carefully consider these risk factors, the additional risk factors outlined under the caption “Risk Factors” in this Annual Report on Form 10-K, and in the Company’s other filings with the Securities and Exchange Commission (the “SEC”) which are accessible on the SEC’s website at www.sec.gov.

SUPPLEMENTARY FINANCIAL INFORMATION

The Company reports its financial results in accordance with accounting principles generally accepted in the United States (“GAAP”). However, the Company has included certain non-GAAP financial measures and ratios, which it believes, provide useful information to both management and readers of this report in measuring the financial performance and financial condition of the Company. These measures do not have a standardized meaning prescribed by GAAP and, therefore, may not be comparable to similarly titled measures presented by other publicly traded companies, nor should they be construed as an alternative to other titled measures determined in accordance with GAAP.

PART I

Item 1. Business

About Us

Stagwell Inc. is the challenger network built to transform marketing. Stagwell delivers scaled creative performance for some of the world’s most ambitious brands, connecting creativity with leading-edge technology to harmonize the art and science of marketing. Led by entrepreneurs, as of December 31, 2022 we employed more than 12,000 people in more than 34 countries across the globe who drive effectiveness and improve business results for our more than 4,000 blue-chip customers. In addition, our affiliate network adds coverage in over 30 additional countries.

Stagwell offers the capabilities marketers need in the digital age: Digital Transformation, Performance Media & Data, Consumer Insights & Strategy, and Creativity & Communications. Our global scale allows us to compete for many of the largest marketing contracts available, including multi-regional contracts with annual fees of more than \$10 million. Stagwell operates in a highly competitive and fragmented industry, but we believe have a distinct advantage given our digital composition and its alignment with the broader marketplace. Additionally, the Stagwell Marketing Cloud, our proprietary suite of software-as-a-service (“SaaS”) and data-as-a-service (“DaaS”) technology solutions for in-house marketers, spans research and insights, communications technology, specialty media (including augmented reality), and media studios. Stagwell provides a suite of marketing services that serve marketers’ needs as well as tech-driven solutions for in-house marketers. Through the Stagwell Marketing Cloud, Stagwell is investing in the frontiers of marketing, with technology products that fuel augmented reality (“AR”) experiences for stadium goers and live events, and artificial intelligence (“AI”) for content creation and for communications professionals. This is a key part of the future strategy for the company.

Stagwell has grown through a combination of organic growth and investment. Beginning with a single company in 2015, Stagwell focused on the fastest-growing area of marketing: digital services. Between 2015 and 2021, we acquired companies including digital transformation and digital media groups like Code and Theory and ForwardPMX. In 2019, Stagwell Media made a \$100 million investment into MDC, the parent company of creative powerhouses including 72andSunny, Anomaly, Crispin, Porter & Bogusky, Doner and Forsman & Bodenfors. Recognizing the potential of those companies, Stagwell’s reorganization and careful management of the portfolio turned MDC around. In August 2021, Stagwell Media completed the Transactions with MDC to become Stagwell Inc.

Stagwell’s unified corporate team is the foundation of a powerful value creation platform focused on scaling our portfolio of marketing services firms, which we refer to as Brands, and driving continual network evolution. We plan to invest in our core digital platforms, continue developing our suite of digital products in the Stagwell Marketing Cloud, increase our technology leadership through investment and innovation, and further expand our international footprint both organically and via our Global Affiliate Network to deliver value for our clients, employees, and shareholders.

Our Market

Industry Trends

The digital revolution has changed where and how brands relate to consumers and created an entirely new, highly complex content and commerce ecosystem. Historically, marketing was characterized by television and brand advertising targeted to broad audiences: everyone saw the same advertisement at the same time. Over the last 15 years, digital innovation has created new, personalized ways to reach targeted consumers and spurred a fundamental shift in the marketing services landscape. Growth now comes primarily from digital marketing, helping brands meet customers across the entire online ecosystem. We believe every company today at its core is a digital marketing company.

Five key trends describe the industry today:

First, online advertising now accounts for more than half of global advertising spend with the shift further accelerating as new media channels like connected television and platforms like Snap diversify the digital channels dominating content and commerce. Online now means virtually everywhere: website, mobile, social media, television, out-of-home, and immersive in-person experiences.

Second, advertising is commerce. Digital platforms provide ways for brands to reach consumers directly through e-commerce. Platforms as diverse as TikTok and LinkedIn have created new ways for brands to interact with their customers. Brands can sell their products directly on their sites, via digital platforms such as Amazon or through interactive experiences enabled by social media. Digital platforms also allow advocacy groups and political campaigns to reach constituents to mobilize support or raise funds online. Retail media networks add complexity and opportunity to brands’ consumer engagement approaches.

Third, data is everywhere. Platform and channel growth has created an explosion of addressable data that can be used to better understand consumer desires, habits, and needs in real-time, allowing the delivery of content that consumers want, when they want it, and where they want it. New sources of online data include web, mobile, email, social, and connected TV – in addition to emerging products, apps and wearables that enhance day-to-day experiences. The emergence of vast amounts of data

spans behavioral, transactional, demographic, psychographic and geographic categories. As connectivity grows, the value of raw data declines – but we believe the ability to derive actionable insights from the data, as Stagwell businesses do, increases.

Fourth, frontier technology such as AI and AR are gaining critical foothold among mass consumers, reshaping how businesses connect. Both technologies have evolved past initial niche or enterprise use cases and are now reaching lay consumers, and businesses now are investing in making them widely accessible to consumer audiences, as seen with generative AI tools like ChatGPT and Stagwell Marketing Cloud’s AROUND. Stagwell is at the forefront of this technology, implementing these innovations across our client work, and incubating original and proprietary technology that drives business results and sits on the next frontier of marketing.

Finally, marketing technology is transforming the industry. SaaS and DaaS products are increasing the efficiency of marketing campaigns and in-house marketing operations, utilizing cutting edge technologies such as AI and automated media modeling, scaled consumer insights, campaign and asset management, brand reputation tracking, and more.

Competitive Landscape

Stagwell operates in a highly competitive and fragmented industry. Stagwell’s Brands compete for business and talent with the operating subsidiaries of large global holding companies such as Omnicom Group Inc., Interpublic Group of Companies, Inc., WPP plc, Publicis Groupe SA, Dentsu Inc. and Havas SA, as well as with numerous independent agencies that operate in multiple markets. Our Brands also face competition from consultancies, like Accenture and Deloitte, tech platforms, media companies and other services firms that offer related services. Stagwell’s Brands must compete with these other companies to maintain and grow existing client relationships and to obtain new clients and assignments. Individual products within the Stagwell Marketing Cloud also typically compete with offerings that may be provided within broader service offerings at large global holding companies or provided on a standalone basis by technology startups or other industry participants such as Infosys, Wipro and Cognizant.

During the decades when marketing was dominated by television, the marketing services industry experienced significant consolidation as legacy advertising holding companies built substantial portfolios of often overlapping creative, communications, PR, and media businesses to achieve financial efficiencies by centralizing administrative operations. These holding companies grew significantly in size and market share.

The rapid rise of digital channels, convergence of advertising and commerce, explosion in addressable data and marketing technology created a paradigm shift in the industry. While legacy models still accounted for a significant share of the market in 2021, we believe they are largely underexposed to the digital areas of the market experiencing the highest levels of client demand growth. In recent years, a number of large consulting firms with information technology implementation backgrounds have entered the marketing services market and, collectively, achieved significant market share. However, we believe these firms’ lack of creative and media expertise limits their long-term growth potential as true challengers to the legacy marketing holding companies.

With a combination of talent and technology, we believe that Stagwell is well positioned to take advantage of the continued transformation sweeping the marketing ecosystem and to disrupt the marketing services landscape. Stagwell was born digital and now has a global network of entrepreneurial companies that deliver the right combination of creativity and technology for the modern, digital marketer through a model that emphasizes flexibility and integration.

Our Offering

Principal Capabilities

Stagwell’s Brands provide differentiated, digital-first marketing and related services to a diverse client base across many industries.

Our principal capabilities fall into four categories: 1) Digital Transformation, 2) Performance Media & Data, 3) Consumer Insights & Strategy, and 4) Creativity & Communications. Taken together, these capabilities provide an integrated suite of marketing services for our blue-chip customer base.

Digital Transformation. We design and build digital platforms and experiences that support the delivery of content, commerce, services and sales. We create websites, mobile applications, back-end systems, content and data management systems, and other digital environments enabling clients to engage with consumers across the digital ecosystem. We design and implement technology and data strategies to support digital services needed for our clients. We also implement technology and strategies for utilizing digital channels to mobilize and raise funds from proponents and constituents to support political candidates, non-profit groups and issue organizations in the public arena. Lastly, we develop proprietary, in-house software and related technology products, including AI-based communications technology, cookie-less data platforms for advanced audience targeting and activation, software tools for e-commerce applications, specialty media solutions in the fast-growing augmented reality space, and innovative applications of text messaging for consumer engagement, which we license to clients using subscription-based SaaS and DaaS models.

Performance Media & Data. We develop omnichannel media strategies and provide coordinated execution for the placement of advertisements across the media funnel including digital channels, performance marketing and analog placements globally. Unlike legacy holding companies that own large amounts of television inventory and therefore must sell it, we take a media-agnostic approach leveraging digital technologies and media in addition to analog advertising. Our media services include media solutions such as audience analysis, and media buying and planning, ranging across the platforms a modern marketer needs to engage consumers.

Consumer Insights & Strategy. We perform large-scale online surveys, specialized research, and data analytics across the consumer journey to provide strategic insights and guidance that informs business content, product, communications and media strategies for many of the world’s largest companies, including numerous Fortune 100 clients. We have differentiated specialization in brand and corporate reputation tracking, theatrical and streaming content and strategy, and technology product design and marketing, and we believe our Brands are at the forefront of innovation in the field.

Creativity & Communications. We develop holistic, creativity-based content strategies and campaigns from concept to execution through to optimization. These services include strategy development, advertising creation, live events, immersive digital experiences, cross platform engagement, and social media content. We also provide strategic communications, public relations and public affairs services including media relations, thought leadership, investor and financial relations, social media, executive positioning and visibility.

We group our Brands into these principal capability categories based on the source of most of their revenue. We also classify Digital Transformation, Performance Media & Data, and Consumer Insights & Strategy as “Digital” though Brands categorized as Creativity & Communications generate a significant portion of revenue from creativity and content delivered on digital channels and some, such as 72andSunny and Anomaly, do meaningful amounts of digital work that fluctuates as a percentage of revenue. We believe our concentration of digital capabilities today provides a competitive advantage in the marketplace and positions us to benefit from continued digital disruption in the marketing services industry. We plan to continue to invest in our core digital platforms as well as emerging technologies to effectively support marketing transformation for our clients.

Network Structure & Reportable Segments

Stagwell maintains a 100% ownership position in substantially all of its Brands, and the remainder are majority owned with management of the Brands owning the remaining equity. Stagwell generally has rights to increase ownership of non-wholly owned subsidiaries to 100% over a defined period of time.

The Company organizes its Brands into three reportable segments: “Integrated Agencies Network,” “Brand Performance Network” and the “Communications Network.” In addition, the Company combines and discloses operating segments that do not meet the aggregation criteria as “All Other.” The Company also reports corporate expenses, as further detailed below, as “Corporate.”

The reportable segments are:

- The **Integrated Agencies Network** includes five operating segments: the Anomaly Alliance, Constellation, the Doner Partner Network, Code and Theory, and National Research Group. The operating segments offer an array of complementary services spanning our core capabilities of Digital Transformation, Performance Media & Data, Consumer Insights & Strategy, and Creativity & Communications. The Brands included in the operating segments that comprise the Integrated Agencies Network reportable segment are as follows: Anomaly Alliance (Anomaly, Concentric, Hunter, Mono, YML and Scout (Brands), Constellation (72andSunny, Colle McVoy, Instrument, Redscout, Hello Design, Team Enterprises, and Harris Insights), the Doner Partner Network (Doner, KWT Global, Harris X, Veritas, Doner North, Northstar, which is currently sunsetting, and Yamamoto (Brands)), Code and Theory and National Research Group.

These operating segments share similar characteristics related to (i) the nature of their services; (ii) the type of clients and the methods used to provide services; and (iii) the extent to which they may be impacted by global economic and geopolitical risks. In addition, these operating segments may occasionally compete with each other for new business or have business move between them.

- The **Brand Performance Network** (“BPN”), previously referred to as the “Media Network” reportable segment, is comprised of a single operating segment. BPN includes a unified media and data management structure with omnichannel media placement, creative media consulting, influencer and business-to-business marketing capabilities. Our Brands in this segment aim to provide scaled creative performance through developing and executing sophisticated omnichannel campaign strategies leveraging significant amounts of consumer data. BPN’s Brands provide media solutions such as audience analysis, media planning, and buying across a range of digital and traditional platforms (out-of-home, paid search, social media, lead generation, programmatic, television, broadcast, among others) and includes multichannel Brands Assembly, Brand New Galaxy, Crispin Porter Bogusky, Forsman & Bodenfors, Bruce Mau Design, Goodstuff, MMI Agency, digital creative & transformation consultancy Gale, B2B specialist Multiview, Observatory, Vitro, CX specialists Kenna, and travel media experts Ink.
- The **Communications Network** reportable segment is comprised of a single operating segment, our specialist network that provides advocacy, strategic corporate communications, investor relations, public relations, online fundraising and other services to both corporations and political and advocacy organizations and consists of our Allison & Partners SKDK (including Sloane & Company), and Targeted Victory brands.
- **All Other** consists of the Company’s digital innovation group and Stagwell Marketing Cloud, including Maru and Epicenter, and products such as PRophet, ARound and Reputation Defender (which was sold in September 2021).
- **Corporate** consists of corporate office expenses incurred in connection with the strategic resources provided to the operating segments, as well as certain other centrally managed expenses that are not fully allocated to the operating

segments. These office and general expenses include (i) salaries and related expenses for corporate office employees, including employees dedicated to supporting the operating segments, (ii) occupancy expenses relating to properties occupied by all corporate office employees, (iii) other office and general expenses including professional fees for the financial statement audits and other public company costs, and (iv) certain other professional fees managed by the corporate office. Additional expenses managed by the corporate office that are directly related to the operating segments are allocated to the appropriate reportable segment and the All Other category.

Go-To-Market Strategy

Our global go-to-market strategy is key to our objective of providing our clients with a balanced combination of leading-edge technology and creative talent. We go to market in four main ways: as individual Brands, as networks where collaboration across services is needed, as Stagwell Global when we create multi-region, Stagwell-wide teams, and as the Stagwell Marketing Cloud, which delivers SaaS and DaaS products for in-house marketers.

Unlike legacy holding companies who have focused on achieving cost synergies by consolidating brands within their networks, Stagwell focuses on collaboration. We believe it is important for our Brands to maintain their individual identities to attract the highest quality talent within their capabilities of expertise. Maintaining strong brand identities within our integrated Brands and specialist networks provides a structure supporting both individual and joint go-to-market approaches. Maintaining separate Brands with flexibility to integrate also enables effective management of potential conflicts of interest. Go-to-market collaboration typically occurs on larger engagements requiring services across multiple capabilities or geographies.

To further support collaboration, Stagwell provides financial incentives for Brands to collaborate with one another through referrals and the sharing of both services and expertise. Network and Brand leaders have components of incentive compensation that are based on Stagwell’s overall performance and the overall performance of their integrated or specialist networks to incentivize go-to-market collaboration.

In addition to our owned Brands, we maintain a network of go-to-market alliances with like-minded independent brands, tech companies and marketing services firms in key markets around the world. These partners, which we refer to as Global Affiliates, enable us to increase our local-market reach and qualify for business opportunities that require enhanced capabilities in specific local markets without taking on additional costs. Launched in early 2021, by December 2022 the Global Affiliate Network had achieved its goal of growing to include more than 75 affiliates.

Our distinct Brand structure enables us to work with multiple clients within the same business sector, and many of our largest clients are served by multiple Brands or Brands in our portfolio. The Brands’ work is supported by a centralized marketing and new business team that fosters collaboration, sources new business opportunities and communicates across industries to drive awareness of our offerings. Additionally, a centralized corporate innovation team develops and invests in proprietary digital marketing products that are distributed by Brands across the network, further enhancing the value proposition Stagwell Brands are able to offer clients.

Our Strategy

The key components of the Stagwell strategy are Digital, Integrated, Global, and Strategic (“DIGS”). We believe the DIGS model gives us a sustainable, long-term path to significant growth and supports our primary objectives which are sustaining strong levels of organic growth, increasing our digital revenue mix, increasing international scale, expanding the average client relationship size, and maintaining strong margins and free cash flow. We believe pursuing these objectives will position us to increase value for our shareholders.

Our strategy is focused around six specific initiatives: 1) Investing in Digital Capabilities, 2) Expanding Addressable Markets, 3) Effective Integration at Scale, 4) Strategic Value Creation Platform, 5) Maintaining a Highly Variable Cost Structure, and 6) Efficient Capital Allocation.

Investing in Digital Capabilities

Our digital businesses serve the areas where we expect the fastest growth in the marketing space and position us to lead the wave of transformation in the industry. By investing in our core digital platforms and introducing proprietary SaaS and DaaS

marketing technology (“martech”) products, we aim to increase the digital proportion of our net revenue. We aim to expand our digital capabilities in three main ways:

- First, we intend to continue to invest in our leading digital Brands like Code and Theory, Instrument and YML. This planned investment includes funding new capabilities and supporting cross-selling via our Integrated Agencies Network, which has already created additional opportunities.
- Second, we intend to pursue complementary acquisition opportunities to bolster our existing assets in areas such as digital transformation and digital media buying. We have built a successful track record of “bolt-on” acquisitions such as TrueLogic Software, LLC, Ramenu S.A. and Polar Bear Development S.R.L., a Latin America engineering shop, and Kettle Solutions, LLC (“Kettle”), a content and digital design firm.
- Third, we are investing in the Stagwell Marketing Cloud, a suite of technology products in development or early-stage commercialization spanning influencer marketing, audience segmentation, public relations, immersive experiences and brand insights. These products are licensed to our clients using subscription-based SaaS and DaaS models and distributed by Brands across our network. We believe the Stagwell Marketing Cloud positions us to serve in-house marketing departments and create recurring, high-value revenue streams in the future. We have also made strategic acquisitions for the Stagwell Marketing Cloud, including Epicenter Experience, an enterprise software company that leverages mobile and location data to map and sequence complex consumer behavior patterns, and Maru Group, a leading software experience and insights data platform.

Expanding Addressable Markets

We are focused on expanding our addressable markets through investments that increase our global footprint as well as adding emerging marketing technologies in areas expected to have strong secular growth. We believe increasing our geographic presence and breadth of capabilities will allow us to significantly grow our average client relationship size over time.

- **International Markets:** Our strategy for growing our international operations is focused on expanding our media buying, content creation and digital capabilities in new markets, which will improve our qualifications for large multi-regional contracts with the largest global marketers. For example, in April 2022, we acquired Brand New Galaxy, a scaled provider of end-to-end e-commerce services such as DTC strategy, digital content production, automation, and complex technology implementations. The acquisition bolsters Stagwell’s broad e-commerce capabilities to service more global clients and provides significant scale in Europe.
- We maintain a Global Affiliate network that enables us to deliver creative, performance, media and technology capabilities at the scale required to serve the world’s largest marketers. Our affiliates provide local talent and insights for regional engagements without requiring investment capital. We believe our Global Affiliates will be a valuable source for acquisitions, allowing Stagwell to vet companies before formal investment. Brand New Galaxy was our first affiliate and affiliate acquisition. As of December 31, 2022, we had over 75 Global Affiliate partners in our network.
- **Emerging Marketing Technologies:** In addition to the advertising and marketing services market, we believe our investments in the Stagwell Marketing Cloud will position us to address new, rapidly expanding market opportunities, including marketing data, campaign martech, the metaverse, and AR and VR applications. For example, Stagwell’s shared AR product ARound has launched stadium-level experiences with professional sporting teams in Major League Baseball and the National Football League, namely the Minnesota Twins and the Los Angeles Rams.

Effective Integration at Scale

We expect to derive significant long-term operating efficiencies from the Transactions through initiatives that have been and continue to be rolled out over the 36 months following the completion of the Transactions. We have made progress against our plan and anticipate the initial expected synergies will be realized over a period of 36 months from the time of the Transactions. We expect the synergies will come from implementation of shared services across the Company, elimination of redundancies in the Stagwell Brand Performance Network, scaling operational resources in lower cost markets, and third-party spend recapture, among other cost-saving initiatives.

Within our client-facing integrated and specialist networks we see further opportunity to achieve operating efficiencies by increasing our non-U.S. based engineering footprint. We are focused on scaling our development capabilities in lower cost

markets, specifically Latin America, India, and Southeast Asia. Our engineering talent is primarily focused on building and designing digital platforms, applications, tools, and experiences for our clients and are typically more highly concentrated in our Brands categorized within our Digital Transformation primary capability. We believe we already have a substantial engineering presence globally – more than 1,500 engineers total as of December 31, 2022 – and have developed the necessary skills to support hiring, training and managing large teams outside the United States. We believe these markets offer a significant supply of quality technical talent to meet increasing client demand for high-speed delivery of digital transformation and production services.

Stagwell Value Creation Platform

We believe our engaged, unified corporate team provides a growth platform for value creation through both revenue and cost synergies for our existing Brands and prospective investments. We are led by a management team with deep industry expertise and a track record of growing and managing marketing services businesses. The Stagwell platform provides a foundation to support efficient, accretive scaling of our global network and our high-growth digital transformation and digital media capabilities. Our corporate objective is to accelerate the growth and improve the profitability of our Brands, and we believe Brands see strategic value in being part of the Stagwell network.

Our value creation platform has three layers: Client Services, Growth Investment and Shared Services.

Our **Client Services** layer aims to facilitate revenue growth through go-to-market support. Our Global Solutions team provides a single point of contact for key clients, coordinating our go-to-market strategies for large, multi-regional contracts or business opportunities requiring cross-Brand, cross-capability or cross-market services. Our Global Growth team provides prospecting and new business services to our Brands, working in partnership with our Brand team which supports messaging and communications efforts. At the network level, the Stagwell Brand Performance Network provides a corporate structure to cost-effectively coordinate our global media placement capabilities, while our Global Affiliate Network positions our Brands to pitch for and win opportunities requiring capabilities in specific local markets.

Our **Growth Investment** layer is designed to drive continual network evolution and bolsters competitive advantages in key markets, capabilities, and emerging technologies and consists of two teams: centralized investment and innovation. Our central investment team, which has a strong track record of accretive investments, provides expertise in sourcing, negotiating and structuring investments in close partnership with our Brand leadership, to drive efficient scaling of our networks and accelerate growth. In addition to our investment team, a centralized innovation team provides development capabilities for the Stagwell Marketing Cloud and bespoke client needs.

Our **Shared Services** layer provides unified back-office systems via Stagwell CORE (“CORE”), the Company’s newly formed platform that focuses on transitioning away from disparate teams, processes and systems and establishing a standardized platform. CORE provides centralized services across back office operational functions, including information technology (“IT”), accounts payable and receivable, real estate, enterprise-level contract administration, and accounting services. With a focus on driving shareholder value by optimizing cost structures and facilitating efficient integration of acquired businesses, CORE’s services are highly standardized with an emphasis on scalability to support Stagwell’s growth.

Maintaining a Highly Variable Cost Structure

We are focused on maintaining a business model that has attractive cash flow, revenue growth and margin expansion and plan to maintain a highly variable cost structure that allows us to be nimble. We aim to focus our investments on people-based businesses that operate with a high percentage of variable costs. Our at-will employment structure positions us to respond rapidly to changing market conditions in order to maintain margins. We also strive to diligently deploy low capital investment strategies. For example, we believe our Global Affiliate Network strategy for expanding international capabilities positions us to maintain a high level of flexibility through macroeconomic cycles.

Our management team has successfully demonstrated an ability to efficiently operate, manage and grow a profitable portfolio of diverse advertising businesses through periods of dramatic changes in consumer behavior, technological advancement and economic cycles. The team has a successful track record of investing, acquisition execution and integration as well as recruiting and retaining the key talent that drives our operating businesses.

Efficient Capital Allocation

We are focused on delivering continued strong organic growth and free cash flow to support efficient capital allocation that generates value for our shareholders. Our primary use of capital is expected to be funding diligently structured, highly accretive investment in businesses we believe will support sustainable future growth by increasing the breadth and depth of our capabilities. We also expect more modest capital allocation towards minimizing shareholder dilution, reducing leverage in order to provide increased financial flexibility, and funding development of proprietary technology and products for the Stagwell Marketing Cloud.

Our Clients

As of December 31, 2022 Stagwell served over 4,000 clients across a wide range of sectors, representing some of the world’s most recognized brands including: Google, Amazon, Diageo, Nike, Apple, P&G, Novo Nordisk, United Airlines, Salesforce and more. In many cases, we serve the same clients in various geographic locations, across multiple disciplines, and through multiple Stagwell Brands. Representation of a client rarely means that Stagwell handles marketing communications for all brands or product lines of the client in every geographical location. In 2022, net revenue from our top 100 clients’ increased by over 15% year-over-year as we saw record new business and increasing interest in both specific Brand capabilities as well as cross-Brand, integrated solutions that address multi-discipline client needs.

Stagwell’s Brands have written contracts with many of their clients. As is customary in the industry, these contracts generally provide for termination by either party on relatively short notice. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Executive Overview” for a further discussion of Stagwell’s arrangements with its clients.

Sources of Revenue

Stagwell provides a broad range of services to a large base of clients across a wide spectrum of verticals globally. Stagwell has historically been largely focused in North America where the Company was founded, as well as the United Kingdom, but has expanded its global footprint to support clients globally and has a presence in more than 34 countries, and an additional more than 30 countries through our Global Affiliate Network, in each case as of December 31, 2022. The primary source of revenue is from agency arrangements in the form of fees for services performed, commissions, and from performance incentives or bonuses. Stagwell’s Brands have written contracts with many of their clients. As is customary in the industry, these contracts generally provide for termination by either party on relatively short notice. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Executive Overview” for a further discussion of Stagwell’s arrangements with its clients.

Seasonality

Historically, we have typically generated the highest quarterly revenue during the fourth quarter in each year due to consumer marketing increases from the back-to-school and holiday seasons. In addition, we have typically seen an increase in revenue in the third and fourth quarters during even years because our advocacy business has higher revenue during the biannual U.S. election cycle.

Human Capital

As of December 31, 2022, we employed approximately 11,100 full-time employees and approximately 1,050 contractors. The following table provides a breakdown of the approximate number of full-time employees and contractors across Stagwell’s three reportable segments, the All Other category, and Corporate:

Segment	Total
Integrated Agencies	5,800
Brand Performance Network	4,650
Communications Network	1,100
All Other	300
Corporate	300
Total	12,150

Because of the personal service nature of the marketing and communications business, our talent is of critical importance to our success. Human capital management strategies are developed by senior management, including the management teams of our Brands, and are overseen at the corporate level.

Our human capital management priorities include providing competitive benefits & compensation, attracting and retaining talent, supporting learning & development across the network, promoting Diversity & Inclusion, increasing employee engagement, and ensuring workplace safety. At the corporate level, centralized human capital management processes include development of human resources governance and policy, executive compensation for senior leaders, benefits programs, and succession planning focusing on the performance, development and retention of key senior executives.

Benefits & Compensation

Stagwell provides a full range of competitive benefits including medical, dental, vision, employer-funded HSAs, commuter assistance, 401k, employee stock programs and more. Health benefits are offered to full-time employees and their dependents, inclusive of domestic and/or same-sex partners. We offer flexible paid time off as well as accommodation for civic duties, bereavement, and leaves of absence. Stagwell participates in industry-wide salary surveys and utilizes AI-powered compensation software to obtain real-time compensation survey data and analytics and ensure all compensation decisions are data-driven. In addition, we have various stock ownership programs for eligible Stagwell employees.

Attracting & Retaining Talent

Hiring and retaining transformative talent is key to Stagwell’s mission. We supplement agency-led recruiting with central recruiting support. Leveraging our scale, we have developed a broad database of global talent that further enhances our recruiting activities. In addition to utilizing central resources and technology, Brand-level recruiting activities include partnerships with colleges/universities, internship programs, referral programs and diversity, equity and inclusion specific pipelining programs. Stagwell’s internal transfer policy and career portal on our intranet, The Hive, also enables employees to explore new positions with other Brands at the Company to support retention of talent within the broader network.

We have regular learning and talent events so employees across our network can feel connected to the broader portfolio of Stagwell companies and enhance collaboration.

Learning & Development

At the corporate level, Stagwell invests in both our senior leadership and up-and-coming leaders through a professional development partnership with a globally recognized leadership development organization. The program is designed to align individual growth with organizational strategy to help achieve success across both. Furthermore, Stagwell provides eligible employees with an annual, flexible professional development budget to utilize if they want to explore more opportunities within their field, acquire new skills, and enhance their contributions to their department and the organization. In addition, each Brand maintains its own policies and development programs suitable to its workforce and leadership goals.

Diversity & Inclusion

We believe the cultures of Stagwell’s individual Brands are what sets working at Stagwell apart; however, the connective tissue that unites us is our vision for our Brands and people to work collaboratively across disciplines in an inclusive environment.

Stagwell supports its Brands through access to high-quality education, resources and technology, which they can use to bring inclusion to life based on their organization’s needs. In addition to providing annual harassment prevention and ethics training globally, we actively collect data modeled after equal employment opportunity classifications with the goal of ensuring our employee demographics better reflect the diversity of the communities in which our workforce operates and is hired from and to identify areas for improvement through corporate engagement and initiatives. In addition, Stagwell aims to continue to grow successful partnerships with diverse vendors, suppliers, contractors, and consultants.

We believe doubling down on creating an inclusive environment, from building internal and external partnerships, fostering the collaboration amongst our Brands, to trying out ideas and programs from our teams and Brands, will attract and retain a diverse workforce and that the diversity of thought creates impact for our clients globally.

Employee Engagement

Regular communication is a commitment at Stagwell. We have quarterly global Town Halls to ensure staff are engaged with and organizational goals are shared. And with in-person events returning in earnest, our Brand and Talent teams collaborate to host a variety of experiential, wellness, and professional development/thought leadership programs at our New York City “HUB” locations at the World Trade Center and in other offices around the world. Our global CEO sends out regular emails to all staff

with key updates ranging from new business wins to client work. In addition, the Hive intranet serves as a resource portal for all Stagwell employees. We additionally maintain several global communities organized around discrete disciplines (“Technology,” “Growth,” “Communications,” etc.) to foster collaboration and engagement with the center of the company.

Significant Factors Affecting our Business and Results of Operations

The most significant factors affecting our business and results of operations include national, regional, and local economic conditions, our clients’ profitability, mergers and acquisitions of our clients, changes in top management of our clients and our ability to retain and attract key employees. New business wins and client losses occur due to a variety of factors. We believe the two most significant factors are (i) our clients’ desire to change marketing communication firms and (ii) the digital and data-driven products that our Brands offer. A client may choose to change marketing communication firms for several reasons, such as a change in leadership where new management wants to retain a firm that it may have previously worked with. In addition, if the client is merged or acquired by another company, the marketing communication firm is often changed. Clients also change firms as a result of the firm’s failure to meet marketing performance targets or other expectations in client service delivery.

Regulatory Environment

The marketing and communications services that our Brands provide are subject to laws and regulations in all of the jurisdictions in which we operate. These include laws and regulations that affect the form and content of marketing and communications activities that we produce for our clients and, for our digital services, laws and regulations concerning user privacy, use of personal information, data protection and online tracking technologies. We are also subject to laws and regulations that govern whether and how we can receive, transfer or process data that we use in our operations, including data shared between countries in which we operate. Our international operations are also subject to broad anti-corruption laws. While these laws and regulations could impact our operations, we believe compliance in the normal course of the Company’s business has not significantly impacted the services we provide or had a material effect on our business, results of operations or financial position. Additional information regarding the impact of laws and regulations on our business is included in Item 1A. Risk Factors.

Available Information

Stagwell Inc.’s Internet website address is www.stagwellglobal.com. The Company’s Annual Reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, and any amendments to those reports filed or furnished pursuant to the Exchange Act, will be made available free of charge through the Company’s website as soon as reasonably practical after those reports are electronically filed with, or furnished to, the SEC. The Company announces material information to the public through a variety of means, including filings with the SEC, press releases, public conference calls, and its website. The Company uses these channels, as well as social media, including its Twitter account (@stagwell) and its LinkedIn page (<https://www.linkedin.com/company/stagwell/>), to communicate with investors and the public about the Company, its products and services, and other matters. Therefore, investors, the media, and others interested in the Company are encouraged to review the information the Company makes public in these locations, as such information could be deemed to be material information. The information found on, or otherwise accessible through, the Company’s website is not incorporated into, and does not form a part of, this Form 10-K, and the inclusion of the Company’s website address and social media channels are inactive textual references only.

Item 1A. Risk Factors

You should carefully consider the risk factors set forth below, as well as the other information contained in this Form 10-K, including our consolidated financial statements and related notes. This Form 10-K contains forward-looking statements that involve risks and uncertainties. Any of the following risks could materially and adversely affect our business, results of operations, financial condition, cash flows, projected results and future prospects. Additional risks and uncertainties not currently known to us or those we currently view to be immaterial may also materially and adversely affect our business, results of operations, financial condition, cash flows, projected results and future prospects. These risks are not exclusive and additional risks to which we are subject include the factors listed under “Note About Forward-Looking Statements” and the risks described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this Form 10-K.

Risk Factor Summary

Some of the factors that could materially and adversely affect our business, financial condition, results of operations and cash flows include, but are not limited to, the following:

- as a marketing services company, our revenues are highly susceptible to declines as a result of unfavorable economic conditions and future economic conditions could adversely impact our financial condition and results;
- our business depends on generating and maintaining ongoing, profitable client demand for our services and solutions, and a significant reduction in such demand could materially affect our results of operations;
- our business could be adversely affected if we fail to retain our existing clients;
- we face significant competition, and a failure to compete successfully in the markets we serve could harm our business;
- maintaining and enhancing our and our Brands’ brands and reputation is critical to our business prospects, and harm to our or our Brands’ brands and reputations may limit our ability to acquire new clients, retain existing clients and attract and retain qualified personnel;
- our existing client relationships could impair our ability to generate new business or attract and retain qualified personnel;
- if we are unable to adapt and expand our services and solutions in response to ongoing changes in technology and offerings by new entrants, our results of operations and ability to grow could be impaired;
- if we do not successfully manage and develop our relationships with our Global Affiliate partners or if we fail to anticipate and establish new alliances in new technologies, our results of operations could be adversely affected;
- we are making investments in new product offerings and technologies and may increase such investments in the future. These new ventures are inherently risky, and we may never realize any expected benefits from them;
- as a global business, we are substantially dependent on operations outside the United States, and any failure to manage the risks presented by our international operations could have a material adverse effect on our business, results of operations, financial condition and prospects;
- we are exposed to the risk of client defaults, and in an economic downturn, the risk of a material loss related to such client defaults could significantly increase;
- if we fail to manage our growth effectively, we may be unable to execute our business plan, maintain high levels of customer service, or adequately address competitive challenges;
- natural disasters, terrorist attacks, war, civil disturbances and infrastructure breakdowns could disrupt our business and harm our results of operations;
- we are consolidating our real estate footprint and may incur significant costs in doing so;
- seasonal fluctuations in marketing, research, communications and advertising activity could have a negative impact on our revenue, cash flow and operating results;
- we may not realize the benefits we expect from past acquisitions, including the Transactions;
- we have allocated significant management time and resources to, and expect to incur non-recurring costs for, our ongoing integration efforts in connection with the Transactions;
- in the future, we may acquire other companies in pursuit of growth, which may divert our management’s attention, result in dilution to our shareholders and consume resources that are necessary to sustain our business;
- our business is highly dependent on the services of Mark Penn, our CEO and Chairman;
- if we are unable to keep our supply of skills and resources in balance with client demand around the world and attract and retain professionals with strong leadership skills, our business, the utilization rate of our professionals and our results of operations may be materially adversely affected;
- some of our Brands rely upon signatory service companies to employ union performers in commercials, and any inability to produce advertisements with union performers could impair our ability to serve our advertising clients and compete;
- we face legal, reputational and financial risks from any failure to protect client data from security incidents or cyberattacks;
- we are subject to extensive data privacy laws and regulations;
- litigation or legal proceedings could expose us to significant liabilities and have a negative impact on our reputation or business;
- we are subject to industry regulations and other legal or reputational risks that could restrict our activities or negatively impact our performance or financial condition;

- we are subject to laws and regulations in the United States and other countries in which we operate, including export restrictions, economic sanctions, the FCPA, and similar anti-corruption laws. Compliance with these laws requires significant resources, and non-compliance may result in civil or criminal penalties and other remedial measures;
- our business operations could suffer if we fail to adequately protect and enforce our intellectual property and other proprietary rights;
- if we infringe, misappropriate or otherwise violate the intellectual property rights of third parties or are subject to an intellectual property infringement or misappropriation claim, our ability to grow our business may be severely limited and our business could be adversely affected;
- our products and services use open source software, and any failure to comply with the terms of one or more applicable open source licenses could adversely affect our business, subject us to litigation, and create potential liability;
- our substantial indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or in our industry, expose us to interest rate risk to the extent of our variable rate debt, and prevent us from meeting our obligations under our indebtedness;
- we may be unable to service all our indebtedness;
- we may need additional capital in the future, which may not be available to us. The raising of any additional capital may dilute holders' ownership percentage in our stock;
- if our available liquidity is insufficient, our financial condition could be adversely affected and we may be unable to fund contingent deferred acquisition liabilities, and any put options if exercised;
- our Up-C structure places significant limitations on our cash flow because our principal asset is our interest in OpCo, and, accordingly, we depend on distributions from OpCo to pay our taxes and expenses, including payments under the Tax Receivables Agreement;
- our Tax Receivables Agreement with Stagwell Media requires us to make cash payments to Stagwell Media in respect of certain tax benefits to which we may become entitled, and we expect the payments we are required to make to be substantial, may be required to be made prior to the time that we recognize any associated tax benefits and may make our company a less attractive target to potential acquirers;
- our results of operations are subject to currency fluctuation risks;
- our goodwill, intangible assets and right-of-use assets may become impaired;
- material weaknesses in our internal control over financial reporting were identified as of December 31 2021, and remain unremediated at December 31, 2022. If our remediation of these material weaknesses is not effective, or if we fail to maintain effective internal control over financial reporting in the future, we may not be able to accurately or timely report our financial results, which could adversely affect investor confidence in our company, our results of operation and our stock price;
- our disclosure controls and procedures and internal controls may not prevent or detect all errors or acts of fraud;
- if our judgments or estimates relating to our critical accounting policies are based on assumptions that change or prove to be incorrect, our results of operations could fall below expectations of securities analysts and investors, resulting in a decline in our stock price;
- we may be subject to adverse tax consequences, such as those related to changes in tax laws or tax rates or their interpretations, and the related application of judgment in determining our global provision for income taxes, deferred tax assets or liabilities or other tax;
- we may face material adverse tax consequences resulting from the Transactions in Canada, the United States or other jurisdictions;
- our stock price may be volatile;
- if our operating and financial performance in any given period does not meet any guidance that we provide to the public, the market price for our Class A common stock, par value \$0.001 per share (the "Class A Common Stock"), may decline;
- a significant portion of our Class A Common Stock is restricted from immediate resale but may be sold into the market in the future, which could negatively affect the market price of our Class A Common Stock;
- we are a "controlled company" within the meaning of the applicable rules of Nasdaq and, as a result, qualify for exemptions from certain corporate governance requirements. Our stockholders will not have the same protections afforded to stockholders of companies that are not controlled companies, and the interests of our controlling stockholder may differ from the interests of other stockholders;
- there is no guarantee that an active and liquid public market for our securities will be sustained;

- we do not intend to pay dividends on our common stock and, consequently, your ability to achieve a return on your investment will depend on appreciation in the price of the Class A Common Stock;
- we may issue additional shares of our Class A Common Stock or other equity securities without your approval, which would dilute your ownership interests and may depress the market price of your shares;
- some provisions of Delaware law and our certificate of incorporation and bylaws may deter third parties from acquiring us and diminish the value of our Class A Common Stock;
- our certificate of incorporation designates the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by stockholders and designates the United States federal district courts as the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act, which could limit the ability of our stockholders to obtain a favorable judicial forum for disputes with us or with our directors, officers or employees and may discourage stockholders from bringing such claims; and
- the requirements of being a public company may strain our resources, divert management's attention and affect our ability to attract and retain qualified board members and officers.

Risks Related to Our Business and Industry

As a marketing services company, our revenues are highly susceptible to declines as a result of unfavorable economic conditions and future economic conditions could adversely impact our financial condition and results.

Advertising, marketing and communications expenditures are sensitive to global, national and regional macroeconomic conditions, including inflationary pressures, currency fluctuations, geopolitical uncertainty, increased interest rates, as well as specific budgeting levels and buying patterns. Adverse developments such as inflation or heightened economic uncertainty could reduce the demand for our services and pose a risk that clients may reduce, postpone or cancel spending on advertising, marketing and corporate communications projects. For example, inflation rates, particularly in the United States, have increased recently to levels not seen in years, and increased inflation may result in decreased demand for our products and services, increases in our operating costs (including our labor costs), reduced liquidity and limits on our ability to access credit or otherwise raise capital. In addition, the Federal Reserve has raised, and may again raise, interest rates in response to concerns about inflation, which coupled with reduced government spending and volatility in financial markets may have the effect of further increasing economic uncertainty and heightening these risks. In the past, some clients have responded to weakening economic conditions with reductions to their marketing budgets, which include discretionary components that are easier to reduce in the short term than other operating expenses. This pattern may recur in the future and could have a material adverse effect on our revenue, results of operations, cash flows and financial condition.

Turmoil in the credit markets or a contraction in the availability of credit would make it more difficult for businesses to meet their capital requirements and could lead clients to change their financial relationship with their vendors, including us, which could negatively affect our working capital. In such circumstances, we may need to obtain additional financing to fund our day-to-day working capital requirements, which may not be available on favorable terms or at all, including as a result of Federal Reserve interest rate increases. Even if we take action to respond to adverse economic conditions, reductions in revenue and disruptions in the credit markets by aligning our cost structure and more efficiently managing our working capital, such actions may not be effective.

Our business depends on generating and maintaining ongoing, profitable client demand for our services and solutions, and a significant reduction in such demand could materially affect our results of operations.

Our revenue and profitability depend on the demand for our services and favorable margins, which could be negatively affected by numerous factors, many of which are beyond our control and unrelated to our work product. To increase our revenues and achieve favorable margins, we will need to attract additional clients or generate demand for additional services and products from existing clients, and such demand will depend on factors including clients' and potential clients' requirements, pre-existing vendor relationships, financial condition, strategic plans, internal resources and satisfaction with our work product and services, as well as broader economic conditions, competition and the quality of our Brands' employees, services and reputation and the breadth of our services. As described above, volatile, negative or uncertain global economic and political conditions can adversely affect client demand for our services and solutions. In addition, developments in the markets we serve, which may be rapid, could shift demand to services and solutions where we are less competitive, or might require significant investment by us to upgrade, enhance or expand our services and solutions to meet that demand. Companies in the markets we serve sometimes seek to achieve

economies of scale and other synergies by combining with or acquiring other companies. If one of our current clients merges or consolidates with a company that relies on another provider for its marketing and related services, we may lose work from that client or lose the opportunity to gain additional work if we are not successful in generating new opportunities from the merger or consolidation. To the extent that we are unable generate sufficient and profitable new business from new and existing clients, our ability to grow our business, increase our revenues and achieve favorable margins will be limited, which could have a material adverse effect on our business, results of operations, financial condition and prospects.

Our business could be adversely affected if we fail to retain our existing clients.

Our clients may terminate or reduce the scope of their relationships with us on short notice. As a services business, our ability to attract and retain clients is an important aspect of our competitiveness, and client loss, including due to competitors, as a consequence of client consolidation, insolvency or a reduction in marketing budgets due to recessionary economic conditions, or a shift in client spending could have a material adverse effect on our business, results of operations, financial condition and prospects. Many companies, including companies with which we have long-standing relationships, put their advertising and marketing communications business up for competitive review from time to time, and we have lost client accounts in the past as a result of such reviews. Our clients may choose to terminate their contracts, or reduce their relationships with us, on a relatively short time frame and for any reason, including as a result of such competitive reviews, external factors such as economic conditions or their own financial distress, competition from other marketing services providers or clients' dissatisfaction with our services, reputation or personnel.

A relatively small number of clients contributes a significant portion of our revenue, which magnifies this risk. In the aggregate, our top ten clients based on revenue accounted for approximately 20% of our revenue for the year ended December 31, 2022, and historically, client concentration has increased during election years due to the cyclical nature of our advocacy Brands. A substantial decline in a large client's advertising and marketing spending, or the loss of a significant part of their business, could have a material adverse effect on our business, prospects, and results of operations.

In addition, many of our contracts are less than twelve months in duration, and often contain termination provisions requiring only limited notice. If a client is dissatisfied with our services and we are unable to effectively respond to its needs, the client might terminate existing contracts, or reduce or eliminate spending on the services and solutions we provide. Additionally, a client could choose not to retain our Brands for additional stages of a project, try to renegotiate the terms of its contract or cancel or delay additional planned work. When contracts are terminated or not renewed, we lose the anticipated revenues, and it may take significant time to replace the lost revenues or we may be unsuccessful in our attempt to recover such revenues. Consequently, our results of operations in subsequent periods could be materially lower than expected. The specific business or financial condition of a client, changes in management and changes in a client's strategy are also factors that can result in terminations, cancellations or delays, and in pressure to reduce costs.

A significant reduction in spending on our services by our largest clients, or the loss of several of our largest clients, could have a material and adverse effect on our business, results of operations and financial condition.

We face significant competition, and a failure to compete successfully in the markets we serve could harm our business.

The advertising and marketing services business is highly competitive and constantly changing. We compete on the basis of many factors, including the quality (and clients' perceptions of the quality) of our work, our ability to protect the confidentiality of clients' and their customers' data, our relationships with key client personnel, our expertise in particular niche areas or disciplines and our ability to provide integrated services at the scale clients require. Our Brands compete with a diverse and growing set of marketing services firms and consultancies to maintain existing client relationships and to win new business. Our competitors include not only other large multinational advertising and marketing communications companies, but also smaller entities that operate in local or regional markets as well as new forms of market participants. We are smaller than many of our larger industry competitors, and an agency's ability to serve clients, particularly large international clients, on a broad geographic basis and across a range of services and technologies is an important competitive consideration. Our smaller size could impair our ability to compete for business, particularly with respect to significant business from large, global enterprises that require integrated global marketing solutions across geographies. We also compete with smaller advertising and marketing communications businesses, and because an agency's principal asset is often its people, barriers to entry are minimal, and relatively small brands are, on occasion, able to take all or some portion of a client's business from a larger competitor. We may also face greater competition due to consolidation of companies in our industry, including through strategic mergers or

acquisitions. Consolidation activity may result in new competitors with greater scale, a broader footprint, or offerings that are more attractive than ours. This competition could have a negative effect on our ability to compete for new work and skilled professionals. Competitive challenges also arise from rapidly evolving and new technologies in the marketing and advertising space, which create opportunities for new and existing competitors and a need for continued significant investment in tools, technologies and process improvements. As data-driven marketing solutions become increasingly core to the success of our Brands, any failure to keep up with rapidly changing technologies and standards in this space could harm our competitive position.

In addition, our competitors may compete for client engagements by significantly discounting their services, whether as a short-term effort to win business, in exchange for a client's promise to purchase other goods and services from the competitor, either concurrently or in the future, or as a result of developing and implementing methodologies that result in superior productivity and price reductions without adversely affecting their profit margins. Price competition could force us to choose between lowering our prices (and suffering reduced operating margins) or losing a client's business. Any of these negative effects could significantly impair our results of operations and financial condition.

Our future financial performance is largely dependent upon our ability to compete successfully in the markets we serve. If we are unable to compete successfully, we could lose market share and clients to competitors or be forced to accept engagements with unfavorable economic terms, which could have a material adverse effect on our business, results of operations, financial condition and prospects.

Maintaining and enhancing our and our Brands' brands and reputations is critical to our business prospects, and harm to our Brands' brands and reputations may limit our ability to acquire new clients, retain existing clients and attract and retain qualified personnel.

We believe our and our Brands' brand names and reputations are important corporate assets that help distinguish our services from those of our competitors and also contribute to our efforts to recruit and retain talented employees. However, our Brands' corporate reputations are potentially susceptible to material damage by events such as disputes with clients, information technology security breaches or service outages, or other delivery failures. Similarly, our or our Brands' reputation could be damaged by actions or statements of current or former clients, employees, competitors, vendors, as well as members of the investment community and the media. Such negative attention could adversely affect our business, and damage to our reputations could be difficult and time-consuming to repair, could make potential or existing clients reluctant to select us for new engagements or cause existing clients to terminate their relationships with us, resulting in a loss of business, and could adversely affect our recruitment and employee retention efforts. Damage to our or our Brands' reputations could also reduce the value and effectiveness of the Stagwell brand name (or our Brands' brand names) and could reduce investor confidence in us, which could have a material adverse effect on the trading price of our Class A Common Stock.

Our existing client relationships could impair our ability to generate new business or attract and retain qualified personnel.

As a marketing services company, we are susceptible to risks related to the clients we serve. Our ability to acquire new clients and retain existing clients is limited by clients' perceptions of, or policies concerning, conflicts of interest arising from our other client relationships. For example, some companies maintain conflicts of interest policies that prohibit engaging marketing services firms that work with their competitors, and in some circumstances such policies have caused, and may in the future cause, our Brands to lose opportunities with potential clients or to lose existing clients. In addition, such policies may apply not just to a particular Brand but to an entire marketing services group. If we are unable to maintain multiple Brands to manage multiple client relationships and avoid potential conflicts of interests, our business, results of operations, financial condition and prospects may be adversely affected.

In addition, we are subject to reputational risks relating to the clients we serve. In some cases, our Brands may provide services to clients that are subject to significant controversy and negative press coverage and commentary, including controversy over which we have no control and which may arise at any time. As a service provider to such clients, we may receive negative attention focused on such client relationships, which could damage our or our Brands' reputation. Our association with controversial clients and related reputational harm could also impair our ability to attract new clients or retain existing clients and could also harm our ability to attract and retain qualified personnel. Any of these consequences could have a material adverse effect on our business, results of operations, financial condition and prospects.

If we are unable to adapt and expand our services and solutions in response to ongoing changes in technology and offerings by new entrants, our results of operations and ability to grow could be impaired.

Our success depends in part upon our ability to continue to develop and implement services and solutions that anticipate and respond to rapid and continuing changes in marketing technology, consumer habits and industry developments, as well as offerings by new entrants, to serve the evolving needs of our clients. Current areas of significant change include search engine optimization, bots, search engine marketing, social media and influencer and affiliate marketing, email marketing, AR and VR applications, customer relationship and programmatic advertising, which involve the use of mobility-based software platforms, cloud computing, SaaS, and DaaS solutions, AI and generative AI content creation tools, machine learning and the processing and analyzing of large amounts of data. Technological developments such as these may materially affect the cost and use of technology by our clients and demand for our services, and if we do not sufficiently invest in new technology and industry developments, or if we do not make the right strategic investments to respond to these developments and successfully drive innovation, our services and solutions, our ability to generate demand for our services, attract and retain clients, and our ability to develop and achieve a competitive advantage and continue to grow could be negatively affected.

In addition, we operate in a quickly evolving environment in which there currently are, and we expect will continue to be, numerous new technology entrants. New services or technologies offered by competitors or new entrants may make our offerings, such as the Stagwell Marketing Cloud and other DaaS and SaaS martech products, less differentiated or less competitive, when compared to other alternatives, which may adversely affect our ability to attract and retain clients. Any of these consequences could have a material adverse effect on our business, results of operations, financial condition and prospects.

If we do not successfully manage and develop our relationships with our Global Affiliate partners or if we fail to anticipate and establish new alliances in new technologies, our results of operations could be adversely affected.

Our growth strategy has included partnering with independent marketing services agencies, which we refer to as Global Affiliates, in certain jurisdictions, rather than operating in those markets independently. A portion of our revenue is derived from client engagements that involve services by our Global Affiliates, and we believe our Global Affiliates program is a critical element of our strategy to compete with large incumbent marketing services companies and provide scaled global marketing services to our clients. If we are unable to maintain our relationships with current Global Affiliates partners and identify new and emerging partners to expand our Global Affiliates network of alliance partners, we may not be able to provide the kinds of scaled global services that we believe clients require or compete effectively in the market. Our strategy of leveraging our Global Affiliates partners could fail, and the business that we conduct through such partnerships could decrease or fail to grow, for a variety of reasons, including operational difficulties and cultural differences that impair our ability to leverage such partnerships effectively, lack of control over Global Affiliates' work product and services or clients' unwillingness to entrust their marketing efforts to numerous entities that are not part of the same marketing group.

In addition, our Global Affiliates partnerships involve significant risks that are outside of our control. We are not represented on the management teams, boards of directors or other governing bodies of our Global Affiliates, and therefore do not participate in the day-to-day management of such entities. Because we do not control our Global Affiliates, they may take actions with which we or our clients disagree, which could expose us to reputational damage or impair our ability to attract and retain clients and generate demand for our services and solutions. Moreover, our Global Affiliates may not be subject to or follow the same requirements regarding compliance, internal controls and internal control over financial reporting that we follow. To the extent control issues arise within the Global Affiliate partners' business, it could lead to further reputational and operational damage to our business. Additionally, our Global Affiliates are generally not prohibited from competing with us or forming closer or preferred arrangements with our competitors and may expand their own offerings and geographic presence, which could lead them to compete with us in various markets around the world. Our business, financial condition, results of operations and prospects could be adversely affected by such competition.

If we do not obtain the expected benefits from our Global Affiliates program for any reason, we may be less competitive, and our ability to offer attractive solutions to our clients may be negatively affected, which could have a material adverse effect on our business, results of operations, financial condition and prospects.

We are making investments in new product offerings and technologies and may increase such investments in the future. These new ventures are inherently risky, and we may never realize any expected benefits from them.

We have made investments to develop new marketing services products and technologies, including the Stagwell Marketing Cloud and other marketing data, campaign martech, AR and VR applications, and we intend to continue investing significant resources in developing and/or acquiring new technologies, tools, features, services, products and offerings. If we do not spend our development budget efficiently or effectively on commercially successful and innovative technologies, or if we encounter significant technical or other challenges with respect to the development of our anticipated product offerings, we may not realize the expected benefits of our strategy. Our new initiatives also have a high degree of risk, as each involves development of new software platforms or other product offerings, unproven business strategies and technologies with which we may have limited prior development or operating experience. Because such offerings and technologies are new, they may involve additional claims and liabilities (including, but not limited to, intellectual property claims), expenses, regulatory challenges, and other risks that we do not currently anticipate.

There can be no assurance that client demand for new products, including the Stagwell Marketing Cloud and other marketing data, campaign martech, AR and VR martech applications, will exist or be sustained at the levels that we anticipate, or that any of these initiatives will gain sufficient traction or market acceptance to generate sufficient revenue to offset any new expenses or liabilities associated with these new investments. It is also possible that products and offerings developed by others will render our products and offerings noncompetitive or obsolete. Further, our development efforts with respect to new products, offerings and technologies could distract management from current operations, and will divert capital and other resources from our more established products, offerings and technologies. Even if we are successful in developing new products, offerings or technologies, regulatory authorities may subject us to new rules or restrictions in response to our innovations that could increase our expenses or prevent us from successfully commercializing new products, offerings or technologies. If we do not realize the expected benefits of our investments, our business, financial condition, results of operations and prospects may be harmed.

As a global business, we are substantially dependent on operations outside the United States, and any failure to manage the risks presented by our international operations could have a material adverse effect on our business, results of operations, financial condition and prospects.

We are a global business, with Brands operating in more than 34 countries as of December 31, 2022. Operations outside the United States represent a significant portion of our revenues and represented approximately 17% of our revenues in 2022. The operational and financial performance of our international businesses are affected by global and regional economic conditions, competition for new business and staff, political conditions, differing regulatory environments and other issues associated with extensive international operations. Conducting our business internationally, particularly in developing markets in which we have limited experience, subjects us to risks that we do not face to the same degree in the United States. These risks include, among others:

- operational and compliance challenges caused by distance, language, and cultural differences, including, in some markets, longer billing collection cycles;
- the resources required to adapt our operations to local practices, laws, and regulations and any changes in such practices, laws, and regulations;
- laws and regulations that may be more restrictive than those in the United States, including commercial laws that can be undeveloped, vague, inconsistently enforced, retroactively applied or frequently changed, laws governing competition, pricing, payment methods, Internet activities, real estate tenancy laws, tax and social security laws, employment and labor laws, email messaging, privacy, location services, collection, use, processing, or sharing of personal information, ownership of intellectual property, and other activities important to our business;
- competition with companies or other services that understand local markets better than we do or that have pre-existing relationships with potential clients in those markets;
- differing levels of social acceptance of our brand, products, and offerings;
- differing levels of local demand for our digital marketing services or the prevalence of e-commerce;
- exposure to business cultures in which improper business practices may be prevalent;
- difficulties in managing, growing, and staffing international operations, including in countries in which foreign employees may become part of labor unions, employee representative bodies, or collective bargaining agreements, and challenges relating to work stoppages or slowdowns;

- fluctuations in currency exchange rates;
- inflation and actions taken by central banks to counter inflation;
- adverse tax consequences, including the complexities of foreign value added tax systems, and restrictions on the repatriation of earnings;
- increased financial accounting and reporting burdens, and complexities associated with implementing and maintaining adequate internal controls;
- difficulties in implementing and maintaining the financial systems and processes needed to enable compliance across multiple jurisdictions;
- import and export restrictions, changes in trade regulation and economic sanctions compliance;
- public health concerns or emergencies, such as pandemics or other outbreaks of communicable disease, which have occurred in parts of the world in which we operate;
- war, geopolitical tensions and other political, social, and economic instability abroad, terrorist attacks and security concerns; and
- reduced or varied protection for intellectual property rights in some markets.

These risks could adversely affect our international operations, which could in turn adversely affect our business, financial condition, results of operations and prospects. In addition, in developing countries or regions, we may face further risks, such as slower receipt of payments, nationalization, social and economic instability, currency repatriation restrictions and undeveloped or inconsistently enforced commercial laws. For example, we have exited our operations in Russia. However, despite our efforts taken to ensure compliance with applicable law, it is difficult to anticipate the effect sanctions and other laws and regulations may have on us, and compliance with any sanctions imposed or actions taken by the United States or other countries, as well as the effect of current or further economic sanctions (and any retaliatory responses thereto) may have an adverse effect on our operations. These risks may limit our ability to grow our business and effectively manage our operations in the countries that are affected.

We are exposed to the risk of client defaults, and in an economic downturn, the risk of a material loss related to such client defaults could significantly increase.

Certain of our Brands often enter into contractual commitments with media providers and production companies and incur expenses on behalf of our clients for productions and in order to secure a variety of media time and space, in exchange for which they receive a fee. The difference between the gross production costs and media purchases and the revenue earned by us can be significant, and primarily affects our levels of accounts receivable, expenditures billable to clients, accounts payable and accrued liabilities.

While we take precautions against default on payment for these services (such as credit analysis, advance billing of clients, and in some cases acting as an agent for a disclosed principal), such precautions may fail to mitigate our exposure to clients' credit risk, and we may experience significant uncollectible receivables from our clients. In addition, in periods of severe economic downturn, our methods of managing the risk of payment default may be less available or unavailable and the risk of a material loss could significantly increase. Such a loss could have a material adverse effect on our results of operations, cash flows and financial condition.

Recovery of client financing and timely collection of client balances also depends upon our ability to complete our contractual commitments and bill and collect our contracted revenues. We are generally paid in arrears for our services, and if we are unable to meet our contractual requirements, we may experience delays in collection of and/or be unable to collect our client balances, and if this occurs, our results of operations and cash flows could be adversely affected.

If we are unable to collect our receivables or unbilled services, our business, results of operations, financial condition and cash flows could be materially and adversely affected.

If we fail to manage our growth effectively, we may be unable to execute our business plan, maintain high levels of customer service, or adequately address competitive challenges.

We have experienced significant growth in recent periods, including as a result of the Transactions, and we intend to continue to expand our business in the future. This growth has placed, and any future growth may continue to place, a significant strain on our management, operational and financial infrastructure. Our management will also be required to maintain and expand our relationships with clients, Global Affiliates partners and other third parties and attract new clients, as well as to manage multiple geographic locations.

In addition, our current and planned operations, personnel, systems and procedures might be inadequate to support our future growth and may require us to make additional unanticipated investment in our infrastructure, including additional costs for the expansion of our employee base and our global operations and partnerships as well as marketing and branding costs. Our success and ability to further scale our business will depend, in part, on our ability to manage these changes in a cost-effective and efficient manner. If we cannot manage our growth, we may be unable to take advantage of market opportunities, execute our business strategies or respond to competitive pressures. This could also result in declines in quality or customer satisfaction, increased costs, difficulties in introducing new marketing services or product offerings or other operational difficulties. Any failure to effectively manage growth could adversely affect our business and reputation.

Natural disasters, terrorist attacks, war civil disturbances and infrastructure breakdowns could disrupt our business and harm our results of operations.

Our corporate headquarters is located in New York City, which has experienced terrorist attacks, civil disturbance, natural disasters and extreme weather events including hurricanes, floods and fires, and critical resources shortages and infrastructure disruptions, such as localized extended outages of critical utilities or transportation systems. If any such natural disaster or other disturbance or interruption, such as terrorist attacks or war, were to occur, such event could prevent us from using all or a significant portion of our headquarters or other facilities, damaged critical infrastructure or otherwise disrupt our operations, which could make it difficult or, in certain cases, impossible, for us to continue our business for a substantial period of time and could require us to make capital expenditures even though we may not have sufficient available resources at such time. Additionally, the proceeds available from our insurance policies may be insufficient to cover any such capital expenditures or other related costs, and our insurance coverage and available resources may not be adequate to cover our losses in any particular case. Any of these occurrences could significantly disrupt our and our Brands' ability to deliver solutions and services and operate our and their businesses and could, in consequence, have a material adverse effect on our business, results of operations and financial condition.

In addition, our key technology systems may also be damaged or disrupted as a result of technical disruptions such as electricity or infrastructure breakdowns, including damage to telecommunications cables, computer glitches, power failures and electronic viruses or human-caused events such as protests, riots, labor unrest, terrorist attacks, war and private or state-sponsored cyberattacks. Such events, or any natural or weather-related disaster, could lead to the disruption of information systems and telecommunication services for sustained periods. Any significant failure, damage or destruction of our equipment or systems, or any major disruptions to basic infrastructure such as power and telecommunications systems in the areas in which we operate, could impede our ability to provide solutions to our clients and thus adversely affect their businesses, have a negative impact on our reputation and may cause us to incur substantial additional expenses to repair or replace damaged equipment, internet server connections or information technology systems. Damage or destruction that interrupts our provision of services could adversely affect our reputation, our relationships with our clients, our ability to administer and supervise our business or it may cause us to incur substantial additional expenditure to repair or replace damaged equipment or sites. Even if our operations are unaffected or recover quickly from any such events, if our clients cannot timely resume their own operations due to a catastrophic event, they may reduce or cancel their use of our services and products, which may adversely affect our results of operations. Any of these events, their consequences or the costs related to mitigation or remediation could have a material adverse effect on our business, results of operations, financial condition and prospects.

Our insurance coverage may not be sufficient to guarantee costs of repairing the damage caused by such disruptive events and such events may not be covered under our policies. Prolonged disruption of our services and solutions, even if due to events beyond our control, could also entitle our clients to terminate their contracts with us or result in other brand and reputational damages, which would have a material adverse effect on our business, results of operations, financial condition and prospects.

We are consolidating our real estate footprint and may incur significant costs in doing so.

In 2020, we consolidated the real estate occupancy of our advertising and marketing agencies in New York City, in order to lower our leasing costs and improve collaboration among our Brands. In connection with this consolidation, many of our properties have been or will be subleased or abandoned, and we are exploring opportunities for real estate consolidation in other markets. We may not be able to sublease the vacated office spaces on expected terms or at all. If we fail to sublet the leased offices we vacate on the terms we anticipate, we may be required to pay additional rent or may become involved in costly litigation with our commercial landlords, and we may incur additional charges related to the sublease or abandonment of our leases, any of which consequences could have a material adverse effect on our cash flows, financial condition and results of operations.

Seasonal fluctuations in marketing, research, communications and advertising activity could have a negative impact on our revenue, cash flow and operating results.

Our revenue, cash flow, operating results and other key operating and performance metrics vary from quarter to quarter due to the seasonal nature of our clients' spending on the services we provide. For example, clients tend to devote more of their advertising budgets to the fourth calendar quarter to coincide with consumer holiday spending, and we typically generate our highest quarterly revenue during the fourth quarter in each year. Political advertising and related activity have also historically caused our revenue to increase during election cycles, which is most pronounced in even years, in particular during the third and fourth quarters of such years, and decrease during other periods. If our growth rate declines or seasonal spending becomes more pronounced, seasonality could have a more significant impact on our revenue, cash flow and operating results from period to period.

Risks Related to Strategic Transactions

We may not realize the benefits we expect from past acquisitions, including the Transactions.

We may be unable to realize the benefits we expect from our past strategic transactions, including the Transactions and other recent acquisitions, such as Brand New Galaxy, TMA Direct, Inc., Maru Group Limited, Wolfgang, LLC., and Epicenter Experience LLC., for a variety of reasons, including due to our failure to effectively integrate newly acquired businesses into our operations, because of errors in our forecasting or for numerous other reasons, including factors that we do not control, such as the reactions of existing and potential clients, employees, regulators and investors.

Our ongoing integration efforts following the Transactions are subject to significant risks and uncertainties, including with respect to our ability to realize our anticipated synergies and cost savings, our ability to retain and attract executives, employees and clients, the diversion of management's attention from other business concerns, and undisclosed, unknown or potential legal liabilities of the acquired company. Our failure to address these risks or other problems encountered in connection with the Transactions and any past or future acquisitions and other strategic transactions could cause us to fail to realize their anticipated benefits, incur unanticipated liabilities and harm our business generally.

Even if we are able to integrate the combined businesses successfully, this integration may not result in the realization of the full benefits of the growth and other opportunities, or the synergies and cost savings, that we currently expect from the Transactions within the anticipated time frame, or at all. Furthermore, the anticipated benefits or value of our acquisitions and other strategic transactions, including the Transactions, may not be achievable, particularly as the achievement of the benefits are in many important respects subject to factors that we do not and cannot control, including the reaction of third parties with whom we do business and the reactions of investors. As a result of the Transactions, we have significantly more revenue, expenses, assets and employees than prior to the Transactions, and we assumed certain liabilities and other obligations of the pre-merger entities. The Company may not successfully or cost-effectively integrate the combined businesses.

We have allocated significant management time and resources to, and expect to incur non-recurring costs for, our ongoing integration efforts in connection with the Transactions.

We and our management have allocated and continue to allocate time and resources to our ongoing integration efforts following the Transactions, including related and incidental activities. Integration of the legacy SMG and MDC businesses has been and is expected to continue to be complex, costly and time-consuming, requires significant management attention and resources, may disrupt our business, and may ultimately be unsuccessful. Risks and difficulties of integration include, among others, the diversion of management attention to integration matters, increased difficulty retaining existing clients and obtaining new customers, difficulties attracting and retaining employees and the added strain on our executives of managing the expanded operations of a significantly larger company, any of which could adversely impact the effectiveness of our management team, the effectiveness of our integration efforts and the future performance of our combined company, which could harm our business, prospects, results of operations and financial condition.

In addition, we have incurred or expect to incur a number of non-recurring costs associated with our integration efforts, including costs associated with our pursuit of synergies and cost efficiencies following the Transactions. While we expect the benefits of such efforts to offset these costs over time, this net benefit may not be achieved in the short term or at all, and the actual costs we incur in connection with our integration efforts could exceed our estimates. These combined factors could adversely affect our business, results of operations and financial condition.

In the future, we may acquire other companies in pursuit of growth, which may divert our management's attention, result in dilution to our shareholders and consume resources that are necessary to sustain our business.

Our business strategy includes engaging in strategic mergers, acquisitions and investments to bolster our capabilities or expand our reach in particular areas. Through the acquisitions we pursue, we may seek opportunities to add to or enhance the services and solutions we provide, to enter new industries or expand our client base, or to strengthen our global presence and scale of operations. Negotiating these transactions can be time consuming, difficult and expensive, and our ability to complete these transactions may be subject to conditions or approvals that are beyond our control, including anti-takeover and antitrust laws in various jurisdictions. Consequently, these transactions, even if undertaken and announced, may not close. An acquisition, investment or new business relationship may result in unforeseen operating difficulties and expenditures. In particular, we may encounter difficulties assimilating or integrating the businesses, technologies, services, products, personnel or operations of acquired companies, particularly if the key personnel of the acquired company choose not to work for us, the acquired company's technology is not easily compatible with ours or we have difficulty retaining the clients of any acquired business due to changes in management or otherwise. In addition, we may not accurately forecast the financial impact of an acquisition transaction, including accounting charges.

Mergers or acquisitions may also disrupt our business, divert our resources and require significant management attention that would otherwise be available for the development of our business. Moreover, the anticipated benefits of any merger, acquisition, investment or similar partnership may not be realized or we may be exposed to unknown liabilities, including litigation against the companies we may acquire, for example from failure to identify all of the significant risks or liabilities associated with the target business. For one or more of those transactions, we may:

- issue additional equity securities that would dilute our stockholders;
- use cash that we may need in the future to operate our business;
- incur debt that may place burdensome restrictions on our operations or cash flows;
- incur large charges or substantial liabilities; or
- become subject to adverse tax consequences, substantial depreciation or amortization expenses, impairment of goodwill and/or purchased long-lived assets, restructuring charges, deferred compensation or other acquisition-related accounting charges.

Any of these risks could materially and adversely affect our business, financial condition, results of operations and prospects.

Risks Related to Our Employees and Human Resources

Our business is highly dependent on the services of Mark Penn, our CEO and Chairman.

We depend on the continued services and performance of our key personnel, including our CEO and Chairman, Mark Penn. Although we have entered into an employment agreement with Mr. Penn, the agreement has no specific duration and constitutes at-will employment. The loss of key personnel, including Mr. Penn, could disrupt our operations and have an adverse effect on our business.

If we are unable to keep our supply of skills and resources in balance with client demand around the world and attract and retain professionals with strong leadership skills, our business, the utilization rate of our professionals and our results of operations may be materially adversely affected.

Employees, including creative, research and data acquisition, analytics and data science, media, technology development, content development, account and practice group specialists, and their skills and relationships with clients, are among our most important assets. Our success is dependent, in large part, on our ability to keep our supply of marketing services skills and capabilities in balance with client demand around the world and our ability to attract and retain personnel with the knowledge and skills to lead our business globally. We must hire or reskill, retain and motivate appropriate numbers of talented people with diverse skills in order to serve clients across the globe, respond quickly to rapid and ongoing changes in demand, technology, industry and the macroeconomic environment, and continuously innovate to grow our business. For example, if we are unable to hire or retrain our employees to keep pace with the rapid and continuous changes in technology and the industries we serve, we may not be able to innovate and deliver new services and solutions to fulfill client demand. There is competition for scarce talent with market-leading skills and capabilities in new technologies, and our competitors have directly targeted our employees with these highly sought-after skills and will likely continue to do so. As a result, we may be unable to cost-effectively hire and retain

employees with these market-leading skills, which may cause us to incur increased costs, or be unable to fulfill client demand for our services and solutions.

We are particularly dependent on retaining management and leadership of our Brands with critical capabilities. Management succession at our Brands is very important to the ongoing results of our company because, as in any service business, the success of a particular Brand depends in part upon the leadership of key executives and management. If we are unable to manage management succession at the Brand level, our ability to innovate, generate new business opportunities and effectively lead large and complex client relationships and marketing services projects could be jeopardized. We depend on identifying, developing and retaining top talent to innovate and lead our businesses. This includes developing talent and leadership capabilities in emerging markets, where the depth of skilled employees may be limited. Our ability to expand in our key markets depends, in large part, on our ability to attract, develop, retain and integrate both leaders for the local business and people with critical capabilities.

Similarly, our profitability depends on our ability to effectively source and staff people with the right mix of skills and experience to perform services for our clients, including our ability to transition employees to new assignments on a timely basis. The costs associated with recruiting and training employees are significant. If we are unable to effectively deploy our employees globally and remotely on a timely basis to fulfill the needs of our clients, our profitability could suffer.

At certain times and in certain geographies, we have found and may continue to find it difficult to hire and retain a sufficient number of employees with the skills or backgrounds to meet current and/or future demand in a cost-effective manner. In these cases, we might need to redeploy existing personnel or increase our reliance on subcontractors to fill our labor needs, and if not done effectively, our profitability could be negatively impacted. Additionally, as demand for our services and solutions increases, we may be unable to hire and retain people with the skills necessary to meet demand, and we have in the past experienced and may continue to experience wage inflation and other increases to compensation expense, which puts upward pressure on our costs and may adversely affect our profitability if we are unable to recover these increased costs. If we are not successful in these initiatives, our business, results of operations, financial condition and prospects could be adversely affected.

Some of our Brands rely upon signatory service companies to employ union performers in commercials, and any inability to produce advertisements with union performers could impair our ability to serve our advertising clients and compete.

Some of our creative services Brands have not entered into the Screen Actors Guild - American Federation of Television and Radio Artists (“SAG-AFTRA”) Commercials Contract, an industry contract form for commercial advertising, and instead have generally contracted with signatory service companies, which are parties to the SAG-AFTRA Commercials Contract, to employ SAG-AFTRA union performers appearing in television, new media, and other commercials produced by those Brands. SAG-AFTRA has recently persuaded the principal signatory service companies to change the way such signatory service companies do business. These changes may make it more cumbersome and expensive for advertising agencies which have not entered into the SAG-AFTRA Commercials Contract to produce advertisements using SAG-AFTRA members, and in some cases may preclude the use of SAG-AFTRA members in the production of commercials by certain of our Brands. Because SAG-AFTRA members comprise a significant proportion of performing talent available for commercials, any inability of our Brands to produce commercials using union performers could materially limit such Brands’ access to qualified performing talent, reduce the amount of business conducted by such Brands and impair their ability to compete with agencies that are able to employ union performers, which could in turn have a material adverse effect on our business, results of operations, financial condition and prospects.

Risks Related to Data Privacy and Cybersecurity

We face legal, reputational and financial risks from any failure to protect client data from security incidents or cyberattacks.

We and our third-party service providers, such as our cloud service providers that store, transmit and process data, rely on information technologies and infrastructure, which we use to manage our business, including digital storage of client marketing and advertising information and developing new business opportunities. Increased cybersecurity threats and attacks, such as security breaches, are becoming more sophisticated and pose a risk to our systems and networks. In addition, undiscovered vulnerabilities in our products or services could expose us or our clients to hackers or other unscrupulous third parties who develop and deploy viruses and other malicious software programs that could attack our products, services and business.

We are dependent on information technology networks and systems to securely process, transmit and store electronic information and to communicate among our locations around the world and with our people, clients, Global Affiliates partners and vendors. As the breadth and complexity of this infrastructure continues to grow, including as a result of the increasing reliance

on, and use of, mobile technologies, social media and cloud-based services, the risk of security incidents and cyberattacks (including state-sponsored cyberattacks) has increased. Such incidents could lead to shutdowns or disruptions of or damage to our systems and those of our clients, Global Affiliates partners and vendors, and unauthorized disclosure of sensitive or confidential information, including personal data and proprietary business information. Also, given the unpredictability of the timing, nature and scope of such cybersecurity threats and attacks, we may be unable to anticipate attempted security breaches and, in turn, implement adequate preventative measures. Our systems and processes to protect against, detect, prevent, respond to and mitigate cybersecurity incidents and our organizational training for employees to develop an understanding of cybersecurity risks and threats may be unable to prevent material security breaches, theft, modification or loss of data, employee malfeasance (including improper use of social media) and additional known and unknown threats. Furthermore, mitigating the risk of future cybersecurity threats or attacks could result in additional operating and capital costs in systems technology, personnel, monitoring and other investments. We have experienced, and may again experience, data security incidents resulting from unauthorized access to our and our service providers’ systems and unauthorized acquisition of our data and our clients’ data, including inadvertent disclosure, misconfiguration of systems, phishing ransomware or malware attacks. In addition, certain of our clients may experience breaches of systems and cloud-based services enabled by or provided by us.

In providing services and solutions to clients, we often manage, utilize and store sensitive or confidential client or other data, including personal data and proprietary information, and we expect these activities to increase, including through the use of AI, bots and cloud-based analytics. Security breaches, improper use of our systems and other types of unauthorized access to our systems, data, and information by employees and others may pose a risk that data may be exposed to unauthorized persons or to the public. We have access to sensitive data, personal data, and information that is subject to various data privacy laws and regulations, which have obligations that are triggered in the event of a breach. Unauthorized disclosure of, denial of access to, or other incidents involving sensitive or confidential client, vendor, Global Affiliates partner or our own data, whether through systems failure, employee negligence, fraud, misappropriation, or cybersecurity, ransomware or malware attacks, or other intentional or unintentional acts, could damage our reputation and our competitive positioning in the marketplace, disrupt our or our clients’ business, cause us to lose clients and result in significant financial exposure and legal liability. Similarly, unauthorized access to or through, denial of access to, or other incidents involving, our software and IT supply chain or SaaS providers, our service providers’ information systems or those we develop for our clients, whether by our employees or third parties, including a cyberattack by computer programmers, hackers, members of organized crime and/or state-sponsored organizations, who continuously develop and deploy viruses, ransomware, malware or other malicious software programs or social engineering attacks, could result in negative publicity, significant remediation costs, legal liability, damage to our reputation and government sanctions and could have a material adverse effect on our results of operations. Cybersecurity threats are constantly expanding and evolving, becoming increasingly sophisticated and complex, increasing the difficulty of detecting and defending against them and maintaining effective security measures and protocols.

We are subject to extensive data privacy laws and regulations.

In addition, laws and regulations related to consumer privacy, use of personal data and digital tracking technologies have been proposed or enacted in the United States and certain international markets (including the European Union’s General Data Protection Regulation, or “GDPR,” the proposed updated European Union “ePrivacy Regulation” and the California Consumer Privacy Act, as amended by the California Privacy Rights Act, or “CCPA”). Further in the United States, both Congress and state legislatures, along with federal regulatory authorities, have continued to increase their attention on advertising and the collection and use of data, including personal data. At the federal level, while to date there has not been any successful efforts in enacting comprehensive data privacy legislation, if successfully introduced, such legislation would create additional regulatory and compliance obligations, legal risk exposure, and could significantly impact our business activities. At the state level, in California, updates to the CCPA took effect on January 1, 2023. The updates to the CCPA, include additional data privacy and protection obligations on covered companies and expanding rights for California residents, including with respect to certain sensitive personal data. The CCPA will now be enforced by a California data protection agency specifically tasked to enforce the law, which will likely result in increased regulatory scrutiny of covered businesses in the areas of data protection and security. Similar consumer data privacy laws have been passed in four other states, and more are continuing to be proposed in other states. As more privacy legislation continues to be introduced, the Company could be subject to such laws regardless of whether the Company has operations or a physical presence in the applicable state. We face increasing costs of compliance in an uncertain regulatory environment and any failure or perceived failure to comply with these legal requirements could result in regulatory penalties or other legal liabilities. Also, any such laws may also have potentially conflicting requirements that would make

compliance challenging, as well as potentially resulting in further uncertainty and requiring the Company to incur additional costs and expenses in an effort to comply. Furthermore, these laws and regulations may impact the efficacy and profitability of certain digital marketing and analytics services we provide to clients, making it difficult to achieve our clients' goals. These and other related factors could affect our business and reduce demand for certain of our services, which could have a material adverse effect on our results of operations and financial condition.

Compliance with data privacy laws requires ongoing investment in systems, policies and personnel and will continue to impact our business in the future by increasing legal, operational and compliance costs. While we have taken steps to comply with data privacy laws, we cannot guarantee that our efforts will meet the evolving standards imposed by governmental and regulatory agencies, including data protection authorities. In the event that we are found or suspected to have violated data privacy laws, we may be subject to additional potential private consumer, business partner or securities litigation, regulatory inquiries, governmental investigations and proceedings and we may incur damage to our reputation. Any such developments may subject us to material fines and other monetary penalties and damages, divert management's time and attention, and lead to enhanced regulatory oversight, all of which could have a material adverse effect on our business and results of operations.

Risks Related to Litigation and Regulation

Litigation or legal proceedings could expose us to significant liabilities and have a negative impact on our reputation or business.

From time to time, we have been and may in the future be party to various claims and litigation proceedings. We evaluate these claims and litigation proceedings to assess the likelihood of unfavorable outcomes and to estimate, if possible, the amount of potential losses. Based on these assessments and estimates, we establish reserves, as appropriate. These assessments and estimates are based on the information available to management at the time and involve a significant amount of management judgment. Although we are not currently party to any litigation that we consider material, actual outcomes or losses may differ materially from our assessments and estimates.

We and certain of our Brands produce software and e-commerce tools for clients, including the Stagwell Marketing Cloud and other martech products, and such types of software and e-commerce product offerings have become increasingly subject to litigation based on allegations of patent infringement or other violations of intellectual property rights. As we expand these product offerings, the possibility of an intellectual property claim against us grows.

In addition, securities class action lawsuits and derivative lawsuits are often brought against public companies that have entered into acquisition, merger or other business combination agreements. We have been and may in the future be the target of securities and shareholder litigation.

Any such claims or other claims against us, with or without merit, could result in costly litigation and divert management from day-to-day operations and resources from our business. We cannot be certain that we would be successful in defending against any such claims. Any litigation to which we are a party may result in an onerous or unfavorable judgment that may not be reversed on appeal, or we may decide to settle lawsuits on similarly unfavorable terms. If we are not successful in defending such claims, we could be required to rebrand, redesign or stop offering these products or services, pay monetary damages or fines, enter into royalty or licensing arrangements, satisfy indemnification obligations that we have with some of our clients or make changes to our business practices, any of which could have an adverse effect on our business, reputation, results of operations, financial condition and prospects.

Even when these claims are not meritorious, the defense of these claims may divert our management's attention and may result in significant expenses. The results of litigation and other legal proceedings are inherently uncertain, and adverse judgments or settlements in some of these legal disputes may result in adverse monetary damages, penalties or injunctive relief against us, which could have a material adverse effect on our financial condition, cash flows or results of operations. Any claims or litigation, even if fully indemnified or insured, could damage our reputation and make it more difficult to compete effectively or to obtain adequate insurance in the future.

Furthermore, while we maintain insurance for certain potential liabilities, such insurance does not cover all types and amounts of potential liabilities and is subject to various exclusions as well as caps on amounts recoverable. Even if we believe a claim is covered by insurance, insurers may dispute our entitlement to recovery for a variety of potential reasons, which may affect the timing and, if the insurers prevail, the amount of our recovery.

We are subject to industry regulations and other legal or reputational risks that could restrict our activities or negatively impact our performance or financial condition.

Our industry is subject to government regulation and other governmental action, both in the United States and internationally. We and our clients are subject to specific rules, prohibitions, media restrictions, labeling disclosures and warning requirements applicable to advertising for certain products. Governmental entities, self-regulatory bodies and consumer groups may also challenge advertising through legislation, regulation, judicial actions or otherwise, for example on the grounds that the advertising is false and deceptive or injurious to public welfare. Moreover, there has recently been an expansion of specific rules, prohibitions, media restrictions, labeling disclosures, and warning requirements with respect to advertising for certain products. Any regulatory or judicial action that affects our ability to meet our clients' needs or reduces client spending on our services could have a material adverse effect on our business, results of operations, financial condition and prospects.

Existing and proposed laws and regulations, in particular in the European Union and the United States, concerning user privacy, use of personal information and online tracking technologies could also affect the efficacy and profitability of internet-based, digital and targeted marketing. We are subject to laws and regulations that govern whether and how we can transfer, process or receive certain data that we use in our operations. For example, federal laws and regulations governing privacy and security of consumer information generally apply to our clients and/or to us as a service provider. These laws and regulations include, but are not limited to, the federal Fair Credit Reporting Act, the Gramm-Leach-Bliley Act and regulations implementing its information safeguarding requirements, the Junk Fax Prevention Act of 2005, the Controlling the Assault of Non-Solicited Pornography and Marketing Act of 2003, the Telephone Consumer Protection Act, the Do-Not-Call-Implementation Act, applicable Federal Communications Commission telemarketing rules (including the declaratory ruling affirming the blocking of unwanted robocalls), the Federal Trade Commission Privacy Rule, Safeguards Rule, Consumer Report Information Disposal Rule, Telemarketing Sales Rule, Risk-Based Pricing Rule, Red Flags Rule, and the CCPA. Laws of foreign jurisdictions, such as Canada's Anti-Spam Law and Personal Information Protection and Electronic Documents Act, and the GDPR similarly apply to our collection, processing, storage, use, and transmission of protected data. The European Union, for example, has recently tightened its rules on the transferability of data to the United States. Collection, processing, and storage of biometric identifiers has come under increasing regulation and is the subject of class action litigation. The costs of compliance with these laws and regulations may increase in the future as a result of the implementation of new laws or regulations, such as the GDPR and the CCPA, or changes in interpretations of current ones, such as the interpretation of existing consumer protection laws as imposing restrictions on the online collection, storage and use of personal data. See "—Risks Related to Data Privacy and Cybersecurity— We are subject to extensive data privacy laws and regulations." Any failure on our part to comply with these legal requirements, or their application in an unanticipated manner, could harm our business and result in penalties or significant legal liability. The imposition of restrictions on certain technologies by private market participants in response to privacy concerns could also have a negative impact on our digital business. If we are unable to transfer data between countries and regions in which we operate, or if we are prohibited from sharing data among our products and services, it could affect the manner in which we provide our services or adversely affect our financial results.

Legislators, agencies and other governmental entities, as well as consumer groups, may also continue to initiate proposals to ban the advertising of specific products, such as alcohol, tobacco or marijuana products, and to impose taxes on or deny deductions for advertising, which, if successful, may hinder our ability to accomplish our clients' goals and have an adverse effect on advertising expenditures and, consequently, on our revenues. Governmental action, including judicial rulings, on the relative responsibilities of clients and their marketing agencies for the content of their marketing can also impact our operations. We could also suffer reputational risk as a result of governmental or legal action or from undertaking work that may be challenged by consumer groups or considered controversial.

We are subject to laws and regulations in the United States and other countries in which we operate, including export restrictions, economic sanctions, the FCPA, and similar anti-corruption laws. Compliance with these laws requires significant resources, and non-compliance may result in civil or criminal penalties and other remedial measures.

We are subject to many laws and regulations that restrict our international operations, including laws that prohibit activities involving restricted countries, organizations, entities and persons that have been identified as unlawful actors or that are subject to U.S. sanctions. The U.S. Office of Foreign Assets Control ("OFAC"), and other international bodies have imposed sanctions that prohibit us from engaging in trade or financial transactions with certain countries, businesses, organizations and individuals. For example, in February 2022, following Russia's invasion of Ukraine and the imposition of economic sanctions targeting Russia

by the United States and other countries, we exited our operations in Russia. Despite our efforts to ensure compliance with applicable law, it is difficult to anticipate the effect such sanctions may have on us, and compliance with any further sanctions imposed or actions taken by the United States or other countries, as well as the effect of current or further economic sanctions (and any retaliatory responses thereto) may otherwise have an adverse effect on our operations.

We are also subject to the Foreign Corrupt Practices Act (“FCPA”) and anti-bribery and anti-corruption laws in other countries. The FCPA prohibits U.S. businesses and their representatives from offering to pay, paying, promising to pay or authorizing the payment of money or anything of value to a foreign official in order to influence any act or decision of the foreign official in his or her official capacity or to secure any other improper advantage in order to obtain or retain business. The FCPA also obligates companies whose securities are listed in the United States to comply with accounting provisions requiring us to maintain books and records, which in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the corporation, including international subsidiaries, if any, and to devise and maintain a system of internal accounting controls sufficient to provide reasonable assurances regarding the reliability of financial reporting and the preparation of financial statements. Globally, other countries have enacted anti-bribery and anti-corruption laws similar to the FCPA, such as the Anti-Graft and Corrupt Practices Act in the Philippines and the U.K. Bribery Act 2010, all of which prohibit companies and their intermediaries from bribing government officials for the purpose of obtaining or keeping business or otherwise obtaining favorable treatment. We operate in many parts of the world that have experienced government corruption to some degree, and, in certain circumstances, strict compliance with anti-bribery laws may conflict with local customs and practices, although adherence to local customs and practices is generally not a defense under U.S. and other anti-bribery laws.

Our compliance program contains controls and procedures designed to procure our compliance with applicable anti-bribery, anti-corruption, economic sanctions, and other laws and regulations. The continuing implementation and ongoing development and monitoring of our compliance program is time consuming and expensive and could result in the discovery of compliance issues or violations by us or our employees, independent contractors, subcontractors or agents of which we were previously unaware. In addition, due to uncertainties and complexities in the regulatory environment and dynamic developments in the scope of such regulations (including with respect to economic sanctions imposed by the United States and other jurisdictions targeting Russia), we cannot be sure that regulators will interpret laws and regulations the same way we do, or that we will be in full compliance with applicable laws and regulations.

Any violations of these or other laws, regulations and procedures by our employees, independent contractors, subcontractors and agents, including third parties we associate with or companies we acquire, could expose us to administrative, civil or criminal penalties, fines or business restrictions, which could have a material and adverse effect on our results of operations and financial condition and would adversely affect our reputation and the market for shares of our Class A Common Stock.

Risks Related to Intellectual Property

Our business operations could suffer if we fail to adequately protect and enforce our intellectual property and other proprietary rights.

We rely on trademark, patent, copyright, trade secret and other intellectual property laws, as well as contractual provisions such as confidentiality clauses, to establish and protect our intellectual property and other proprietary rights, including in our Brands (and the trademark rights thereto) and our proprietary technologies. These laws are subject to change at any time and certain agreements may not be fully enforceable, which could restrict our ability to protect our intellectual property rights. Such means may also afford only limited protection of our intellectual property and may not: (i) prevent others from independently developing products or services similar to, or duplicative of, ours; (ii) prevent our competitors from gaining access to our proprietary information and technologies; or (iii) permit us to gain or maintain a competitive advantage. We cannot be sure that the actions we have taken to establish and protect our trademarks and other intellectual property rights will adequately protect us, and if our existing intellectual property rights are rendered invalid or unenforceable, or narrowed in scope, the intellectual property protections afforded our Brands, products and services would be impaired. Such impairment could impede our ability to market our products and services, negatively affect our competitive position, and harm our business and operating results. Even if we successfully maintain our intellectual property rights, we may be unable to enforce those rights against third parties.

We also rely on patents to protect our products, services and designs. We have applied for, and expect to continue to apply for, additional patent protection for proprietary aspects of existing and proposed processes, services and products. Our patent applications may not result in issued patents, and any patents issued as a result of our patent applications may not be of sufficient

scope or strength to provide us with any meaningful protection or commercial advantage. Additionally, we seek to maintain the confidentiality of certain trade secrets and other proprietary information to preserve our position in the market. We employ various methods to protect such intellectual property, such as entering into confidentiality agreements with certain third parties and our employees, and controlling access to, and distribution of, our proprietary information. However, our efforts may not be effective in controlling access to our proprietary information, and we may not have adequate remedies for the misappropriation of such information. Furthermore, even if we successfully maintain the confidentiality of our trade secrets and other proprietary information, competitors may independently develop products or technologies that are substantially equivalent or superior to our own.

As we expand our service offerings and the geographic scope of our sales and marketing, we may face additional intellectual property challenges. Certain foreign countries do not protect intellectual property rights as fully as they are protected in the United States and, accordingly, intellectual property protection may be limited or unavailable in some foreign countries where we choose to do business. It may therefore be more difficult for us to successfully challenge the use of our intellectual property rights by other parties in these countries, which could diminish the value of our Brands, products or services and cause our competitive position and growth to suffer. Filing, prosecuting and defending our intellectual property in all countries throughout the world may be prohibitively expensive. The lack of adequate legal protections of intellectual property or failure of legal remedies for related actions in jurisdictions outside of the United States could have an adverse effect on our business, results of operations, and financial condition.

If we infringe, misappropriate or otherwise violate the intellectual property rights of third parties or are subject to an intellectual property infringement or misappropriation claim, our ability to grow our business may be severely limited and our business could be adversely affected.

We may in the future be the subject of patent or other litigation. Our products and services, including products and services that we may develop in the future, may infringe, or third parties may claim that they infringe, intellectual property rights covered by patents or patent applications under which we do not hold licenses or other rights. Third parties may own or control these patents and patent applications in the United States and abroad. These third parties could bring claims against us that would cause us to incur substantial expenses and, if successfully asserted against us, could cause us to pay substantial damages. Further, if a patent infringement or other intellectual property-related lawsuit were brought against us, we could be forced to stop or delay production or sales of the product that is the subject of the suit. From time to time, we may receive letters from third parties drawing our attention to their patent rights. While we take steps to ensure that we do not infringe upon, misappropriate or otherwise violate the rights of others, there may be other more pertinent rights of which we are currently unaware. The defense and prosecution of intellectual property lawsuits could result in substantial expense to us and significant diversion of effort by our technical and management personnel. An adverse determination of any litigation or interference proceeding to which we may become a party could subject us to significant liabilities. As a result of patent infringement claims, or in order to avoid potential claims, we may choose or be required to seek a license from the third party and be required to pay significant license fees, royalties or both. Licenses may not be available on commercially reasonable terms, or at all, in which event our business would be materially and adversely affected. Even if we were able to obtain a license, the rights may be nonexclusive, which could result in our competitors gaining access to the same intellectual property. Ultimately, if we are unable to obtain such licenses, we could be forced to cease some aspect of our business operations, which could harm our business significantly.

Our products and services use open source software, and any failure to comply with the terms of one or more applicable open source licenses could adversely affect our business, subject us to litigation, and create potential liability.

Some of our solutions use software made available under open source licenses, and we expect to continue to incorporate open source software in our solutions in the future. Open source software is typically freely available, development costs and speed up the development process, it may also present certain risks, that may be greater than those associated with the use of third-party commercial software. For example, open source software is generally provided without any warranties or other contractual protections regarding infringement or the quality of the code, including the existence of security vulnerabilities. We cannot guarantee we comply with all obligations under these licenses. If the owner of the copyright in the relevant open source software were to allege that we had not complied with the conditions of one or more open source licenses, we could be required to incur significant expenses defending against such allegations, may be subject to the payment of damages, enjoined from further use of the software, required to comply with conditions of the license (which may include releasing the source code of our proprietary software to third parties without charge), or forced to devote additional resources to re-engineer all or a portion of our

solutions to avoid using the open source software. Any of these events could create liability for us, damage our reputation, and have an adverse effect on our revenue, and operations.

Risks Related to Our Capital Structure and Financing

Our substantial indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or in our industry, expose us to interest rate risk to the extent of our variable rate debt, and prevent us from meeting our obligations under our indebtedness.

We are highly leveraged. As of December 31, 2022, we had \$1.2 billion of total consolidated indebtedness outstanding. Our outstanding credit agreement and notes are guaranteed by substantially all of our material domestic subsidiaries, and our outstanding credit agreement is secured by substantially all of the assets and stock of such subsidiaries. If we cannot make scheduled payments on our debt, we will be in default and, as a result, our debt holders could declare all outstanding principal and interest to be due and payable; the lenders under our outstanding credit agreement could terminate their commitments to loan us money and foreclose against the assets securing our borrowings; and we could be forced into bankruptcy or liquidation, which could adversely affect our business, results of operations, financial condition and prospects.

Our high degree of leverage could have important consequences for us, including:

- requiring us to utilize a substantial portion of our cash flows from operations to make payments on our indebtedness, reducing the availability of our cash flows to fund working capital, capital expenditures, development activity, and other general corporate purposes;
- increasing our vulnerability to adverse economic, industry, or competitive developments;
- exposing us to the risk of increased interest rates because substantially all of our borrowings, other than the \$1,100,000 aggregate principal amount of 5.625% senior notes due 2029 (the “5.625% Notes”), are at variable rates of interest;
- making it more difficult for us to satisfy our obligations with respect to our indebtedness, and any failure to comply with the obligations of any of our debt instruments, including restrictive covenants and borrowing conditions, could result in an event of default under the agreements governing our indebtedness;
- restricting us from making strategic acquisitions or causing us to make non-strategic divestitures;
- limiting our ability to obtain additional financing for working capital, capital expenditures, product development, debt service requirements, acquisitions, and general corporate or other purposes; and
- limiting our flexibility in planning for, or reacting to, changes in our business or market conditions and placing us at a competitive disadvantage compared to our competitors who are less highly leveraged and who, therefore, may be able to take advantage of opportunities that our leverage prevents us from exploiting.

Our outstanding credit agreement is floating rate debt. If interest rates increase, our debt service obligations on such indebtedness will increase even though the amount borrowed remained the same, and our net income and cash flows, including cash available for servicing our indebtedness, will correspondingly decrease.

We may also elect to enter into swaps to reduce our exposure to floating interest rates, but we may not maintain interest rate swaps with respect to all of our variable rate indebtedness, and any swaps we enter into may not fully mitigate our interest rate risk.

In addition, we may be able to incur substantial additional indebtedness in the future. As of December 31, 2022, we had \$375 million of availability under our revolving credit agreement. In addition, we will be permitted to add, under such credit agreement, incremental facilities, subject to certain conditions being satisfied. Although the agreements governing our indebtedness contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of significant qualifications and exceptions and, under certain circumstances, the amount of indebtedness that could be incurred in compliance with these restrictions could be substantial. These restrictions also will not prevent us from incurring obligations that do not constitute indebtedness as defined under our debt instruments. To the extent new debt is added to our current debt levels, the substantial leverage risks described above would increase.

We may be unable to service all our indebtedness.

Our ability to make scheduled payments on and to refinance all our indebtedness depends on and is subject to our financial and operating performance, which in turn is affected by general and regional economic, financial, competitive, business and other factors beyond our control, including the availability of financing in the banking and capital markets. Our business may not

generate sufficient cash flow from operations, and future borrowings may not be available to us in an amount sufficient to enable us to service all our debt, to refinance all our debt or to fund our other liquidity needs.

If we are unable to meet all our debt service obligations or to fund our other liquidity needs, we will need to restructure or refinance all or a portion of our debt, which could cause us to default on our debt obligations and impair our liquidity. Any refinancing of our indebtedness could be at higher interest rates and may require us to comply with more onerous covenants that could further restrict our business operations.

Moreover, in the event of a default, the holders or lenders of our indebtedness could elect to declare all the funds borrowed to be due and payable, together with accrued and unpaid interest. The lenders under our outstanding credit agreement could also elect to terminate their commitments thereunder, cease making further loans, and institute foreclosure proceedings against their collateral, and we could be forced into bankruptcy or liquidation.

We may need additional capital in the future, which may not be available to us. The raising of any additional capital may dilute holders’ ownership percentage in our stock.

As of December 31, 2022, we had unrestricted cash and cash equivalents totaling \$221 million and a borrowing capacity under our credit facility of \$500 million, with \$375 million of unused capacity available. We intend to continue to make investments to support our business growth and may require additional funds if our capital is insufficient to pursue business opportunities and respond to business challenges. Accordingly, we may need to engage in equity, equity-linked or debt financings to secure additional funds. If we raise additional funds through further issuances of equity or convertible debt securities, our existing stockholders could suffer dilution, and any new equity securities we issue could have rights, preferences, and privileges superior to those of holders of our Class A Common Stock. Any debt financing secured by us in the future could involve restrictive covenants relating to our capital raising activities and other financial and operational matters, which may make it more difficult for us to obtain additional capital and to pursue business opportunities, including potential acquisitions. In addition, we may not be able to obtain additional financing on terms favorable to us, if at all. If we are unable to obtain adequate financing or financing on terms satisfactory to us, our ability to continue to support our business growth and to respond to business challenges could be significantly limited.

In addition, because credit ratings are an important factor influencing our ability to access capital and the terms of any new indebtedness, including covenants and interest rates, we could be adversely affected if our credit ratings were downgraded or if they were significantly weaker than those of our competitors. Additionally, credit ratings may not reflect the potential effect of risks relating to the structure or marketing of our debt. Any credit rating initially assigned to our debt that is subsequently lowered or withdrawn for any reason could harm our ability to raise additional capital at acceptable cost and as a result adversely affect our business, results of operations, financial condition and prospects. Our clients and vendors may also consider our credit profile when considering whether to contract with us or negotiating contract terms, and if they were to change the terms on which they deal with us, it could have a further adverse effect on our business, prospects, results of operations and financial condition.

If our available liquidity is insufficient, our financial condition could be adversely affected and we may be unable to fund contingent deferred acquisition liabilities, and any put options if exercised.

We maintain our credit agreement, together with cash flow from operations and proceeds from our recent notes financing, to fund our working capital needs and to fund the exercise of put option obligations and contingent deferred acquisition payments. If credit were unavailable or insufficient under our credit agreement, our liquidity could be adversely affected, and our ability to fund our working capital needs and any contingent obligations with respect to put options or contingent deferred acquisition payments could be adversely affected. We have made acquisitions for which we have deferred payment of a portion of the purchase price, with the deferred acquisition consideration generally payable based on achievement of certain thresholds of future earnings of the acquired company. In addition, a noncontrolling equityholder in an acquired business often has the right to require the us to purchase all or part of such holder’s interest, either at specified dates or upon the termination of such holder’s employment with the subsidiary or death (put rights). Payments we are required to make in respect of deferred acquisition consideration and noncontrolling equityholder put rights may be significantly higher than the amounts we estimate because the actual obligation adjusts based on the performance of the acquired businesses over time. If available liquidity is insufficient, we may be unable to fund contingent deferred acquisition payments.

Our Up-C structure places significant limitations on our cash flow because our principal asset is our interest in OpCo, and, accordingly, we depend on distributions from OpCo to pay our taxes and expenses, including payments under the Tax Receivables Agreement.

As part of our umbrella partnership-C corporation (“Up-C”) structure, we are a holding company and our principal asset is our ownership of common units of our operating subsidiary, Stagwell Global LLC (“OpCo”). This structure is designed to enable us to obtain certain tax benefits, and 85% of such tax benefits are payable to Stagwell Media under our Tax Receivables Agreement with Stagwell Media and OpCo. However, we have no independent means of generating revenue or cash flow, and our ability to pay taxes and operating expenses, and to service our liabilities, is dependent upon the financial results and cash flows of OpCo and its subsidiaries, along with the distributions we receive from OpCo. OpCo intends to make payments to us out of available funds, and subject to limitations imposed under the agreements governing our indebtedness, and there can be no assurance that OpCo and its subsidiaries will generate sufficient cash flow to distribute funds to us or that applicable state law and contractual restrictions will permit such distributions. Moreover, because of our Up-C structure, this financing arrangement can give rise to U.S. corporate income tax liabilities for us in respect of the formation of OpCo, and subsequently as OpCo makes cash distributions to us to the extent they are subject to certain technical regulations regarding disguised sales, subject to certain exceptions including for distributions of operating cash flows and leveraged distributions. In such an event, we would depend on further cash distributions from OpCo in order to enable us to pay such tax liabilities.

We also incur expenses related to our operations, which may be significant. We intend, as OpCo’s sole manager, to cause OpCo to make cash distributions to the owners of OpCo membership interests so that we receive (i) an amount sufficient to allow us to fund all of our tax obligations in respect of taxable income allocated to us and (ii) distributions to cover our operating expenses, including any obligations to make payments under the Tax Receivables Agreement. When OpCo makes distributions, Stagwell Media and the other members of OpCo besides us are and will be entitled to receive proportionate distributions based on their economic interests in OpCo’s common units at the time of such distributions. OpCo’s ability to make such distributions may be subject to various limitations and restrictions, such as restrictions on distributions that would either violate any contract or agreement to which OpCo is then a party, or any applicable law, or that would have the effect of rendering OpCo insolvent or exceed the amounts that OpCo is permitted to distribute under the agreements governing our indebtedness. If we do not have sufficient funds to pay tax or other liabilities or to fund our operations, we may have to borrow funds, which could materially and adversely affect our liquidity and financial condition and subject us to various restrictions imposed by any such indebtedness. To the extent that we are unable to make payments under the Tax Receivables Agreement for any reason, such payments generally will be deferred and will accrue interest until paid, but nonpayment for a specified period may constitute a material breach of a material obligation under the Tax Receivables Agreement and therefore accelerate payments due under the Tax Receivables Agreement. Any inability to pay tax or other liabilities or to fund our operations could have a material and adverse effect on our business, results of operations, financial condition and prospects.

Our Tax Receivables Agreement with Stagwell Media requires us to make cash payments to Stagwell Media in respect of certain tax benefits to which we may become entitled, and we expect the payments we are required to make to be substantial, may be required to be made prior to the time that we recognize any associated tax benefits and may make our company a less attractive target to potential acquirers.

In connection with the closing of the Transactions, we entered into the Tax Receivables Agreement with OpCo and Stagwell Media, pursuant to which we are required to make cash payments to Stagwell Media equal to 85% of certain U.S. federal, state and local income tax or franchise tax savings, if any, that we actually realize, or in certain circumstances are deemed to realize, as a result of (i) increases in the tax basis of OpCo’s assets resulting from redemptions or exchanges by the other holders of OpCo’s common units, together with a corresponding number of shares of our Class C Common Stock, par value \$0.00001 per share (the “Class C Common Stock”), for shares of our Class A Common Stock or cash, as applicable, and (ii) certain other tax benefits related to us making payments under the Tax Receivables Agreement. We expect the amount of the cash payments that we are required to make under the Tax Receivables Agreement to be significant. Any payments made to Stagwell Media under the Tax Receivables Agreement will generally reduce the amount of overall cash flow that may have otherwise been available to us.

The actual increase in tax basis, as well as the amount and timing of any payments under the Tax Receivables Agreement, varies depending on a number of factors, including, but not limited to, the timing of any future redemptions or exchanges, the price of our Class A Common Stock at the time of such redemptions or exchanges, the extent to which redemptions or exchanges

are taxable, the amount and timing of the taxable income that we generate in the future, the timing and amount of any earlier payments we make under the Tax Receivables Agreement itself, the tax rates then applicable and the portion of our payments under the Tax Receivables Agreement constituting imputed interest. We expect that, as a result of the increases in the tax basis of OpCo’s tangible and intangible assets attributable to the redeemed or exchanged OpCo common units, the payments that we may make to Stagwell Media could be substantial. The amounts we may be required to pay under the Tax Receivables Agreement will be calculated based in part on the market value of our Class A Common Stock at the time of redemption or exchange and the prevailing federal tax rates applicable to us over the life of the Tax Receivables Agreement (as well as the assumed combined state and local tax rate), and will generally be dependent on our ability to generate sufficient future taxable income to realize all of these tax savings.

Under its amended and restated operating agreement, subject to availability of funds and limitations imposed under the agreements governing our indebtedness, OpCo is generally required from time to time to make distributions in cash to us in amounts that are intended to be sufficient to cover the taxes on our allocable share of the taxable income of OpCo, and OpCo is also required to make pro rata distributions at such time to the other holders of its common units, including Stagwell Media, without taking into account the tax savings realized by us that result in our obligations under the Tax Receivables Agreement. There is no guarantee that the amounts or timing of such distributions will be sufficient to cover payments required under the Tax Receivables Agreement, including in the event payments under the Tax Receivables Agreement are due prior to the time that we realize the associated tax benefits. In particular, the Tax Receivables Agreement provides that in the case of a change in control, a material breach of our obligations under the Tax Receivables Agreement, or if, at any time, we elect an early termination of the Tax Receivables Agreement, then the Tax Receivables Agreement will terminate and our obligations under the Tax Receivables Agreement would accelerate and become due and payable. In such a case, we would be required to make an immediate cash payment to Stagwell Media in an amount equal to the present value of all future payments (calculated using a discount rate equal to the Secured Overnight Financing Rate (“SOFR”) plus 100 basis points) under the Tax Receivables Agreement, which payment would be based on certain assumptions, including that we would have sufficient taxable income to fully utilize all potential future tax benefits that are subject to the Tax Receivables Agreement and that Stagwell Media had exchanged any remaining outstanding common units of OpCo, together with shares of our Class C Common Stock, for shares of our Class A Common Stock.

In addition, the distributions we receive from OpCo may at some times exceed our tax liabilities and our obligations to make payments under the Tax Receivables Agreement. In the event excess cash is distributed to us, our board of directors (our “Board”) will determine the appropriate uses for any excess cash so accumulated, which may include, among other uses, the payment obligations under the Tax Receivables Agreement and the payment of other expenses. We have no obligation to distribute such cash (or other available cash other than any declared dividend) to our stockholders. No adjustments to the redemption or exchange ratio of common units of OpCo, together with shares of our Class C Common Stock, for shares of our Class A Common Stock or cash, as applicable, will be made as a result of either any cash distribution we receive from OpCo or any cash that we retain and do not distribute to our stockholders. To the extent that we do not utilize any excess cash to fund our other expenditures, the other members of OpCo would benefit from any value attributable to such cash balances as a result of their ownership of shares of our Class A Common Stock following a redemption or exchange of their common units of OpCo and shares of our Class C Common Stock. Additionally, no adjustments to the redemption or exchange ratio of common units of OpCo and shares of our Class C Common Stock for shares of our Class A Common Stock or cash will be made in the event that we incur liabilities or expenses but do not receive cash distributions from OpCo in sufficient amount to fund such liabilities or expenses.

Risks Related to Accounting and Tax Issues

Our results of operations are subject to currency fluctuation risks.

Although our financial results are reported in U.S. dollars, a portion of our revenues and operating costs is denominated in currencies other than the U.S. dollar, and the functional currency of our foreign operations is generally their respective local currency. As a result, fluctuations in the exchange rate between the U.S. dollar and other currencies, particularly the Canadian dollar, the Euro and the British Pound, may affect our financial results and competitive position. Because our consolidated financial statements are presented in U.S. dollars, we must translate revenues and expenses, as well as assets and liabilities, into U.S. dollars at exchange rates in effect during or at the end of each reporting period. Therefore, changes in the value of the U.S. dollar against other currencies will affect our revenues, operating income and the value of balance-sheet items, including intercompany payables and receivables, that are denominated in other currencies. These changes could cause our revenue and net income in U.S. dollars to be higher or lower than our results in local currency when compared against other periods.

In addition, certain of our expenses are incurred in currencies other than those in which we bill for the related services. An increase in the value of certain currencies, such as those listed above, could increase costs for delivery of services overseas by increasing labor and other costs that are denominated in local currency. Our contractual provisions or cost management efforts may not be able to offset their impact, and our currency hedging activities, which are designed to partially offset this impact, may not be successful. This could result in a decrease in the profitability of our contracts that are denominated in such currencies.

Our goodwill, intangible assets and right-of-use assets may become impaired.

We have recorded a significant amount of goodwill and, intangible assets in our consolidated financial statements resulting from our acquisition activities, and we have in the past recorded, and may in the future record, significant charges for impairment of goodwill and intangible assets. We also have recorded a significant amount of right-of-use lease assets in our consolidated financial statements and we have in the past recorded, and may in the future record charges for impairment of these assets. We test, at least annually, the carrying value of goodwill for impairment. The estimates and assumptions about future results of operations and cash flows made in connection with the impairment testing could differ from future actual results of operations and cash flows. For example, in the year ended December 31, 2022, we recorded an impairment charge of \$116.7 million after concluding that the carrying value of eight reporting units exceeded their fair value. See Note 8 of the Notes to the Consolidated Financial Statements for details on goodwill and intangible asset impairment recorded in the year ended December 31, 2022. If we conclude that any further intangible asset and goodwill values are impaired, whether as a result of underperformance in one or more reporting units, a potential recession or other disruption, interest rate increases or other factors, any resulting non-cash impairment charge could have a material adverse effect on our business, results of operations and financial condition.

Material weaknesses in our internal control over financial reporting were identified as of December 31 2021, and remain unremediated as of December 31, 2022. If our remediation of these material weaknesses is not effective, or if we fail to maintain effective internal control over financial reporting in the future, we may not be able to accurately or timely report our financial results, which could adversely affect investor confidence in our company, our results of operation and our stock price.

As discussed in Item 9A. “Controls and Procedures” of this Form 10-K, management identified material weaknesses in our internal control over financial reporting for the fiscal year ended December 31, 2021 that remained unremediated as of December 31, 2022. Any failure to remediate the material weaknesses or to implement required new or improved controls, or difficulties encountered in their implementation, could cause us to fail to meet our reporting obligations. In addition, any testing by us, as and when required, conducted in accordance with Section 404 of the Sarbanes-Oxley Act (“Section 404”), or any subsequent testing by our independent registered public accounting firm, as and when required, may reveal further deficiencies in our internal control over financial reporting that are deemed to be significant deficiencies or material weaknesses or that may require prospective or retroactive changes to our financial statements or identify other areas for further attention or improvement. If we are unable to implement and maintain effective internal control over financial reporting, our ability to record, process and report financial information timely and accurately could be adversely affected. In addition, any such failure, or any misstatement or restatement of financial information, could also cause investors to lose confidence in the accuracy and completeness of our reported financial information, which could negatively affect the market price of our Class A Common Stock.

Our disclosure controls and procedures and internal controls may not prevent or detect all errors or acts of fraud.

We designed our disclosure controls and procedures to reasonably assure that information we must disclose in reports we file or submit under the Exchange Act is accumulated and communicated to management and recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. We believe that any disclosure controls and procedures or internal controls and procedures, no matter how well-conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by an unauthorized override of the controls. Accordingly, because of the inherent limitations in our control system, misstatements due to error or fraud may occur and not be detected.

If our judgments or estimates relating to our critical accounting policies are based on assumptions that change or prove to be incorrect, our results of operations could fall below expectations of securities analysts and investors, resulting in a decline in our stock price.

The preparation of our financial statements in conformity with GAAP requires management to make judgments, estimates, and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, as provided in the section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” the results of which form the basis for making judgments about the carrying values of assets, liabilities, and equity, and the amount of revenue and expenses that are not readily apparent from other sources. Our results of operations may be adversely affected if our assumptions change or if actual circumstances differ from those in our assumptions, which could cause our results of operations to fall below the expectations of securities analysts and investors, resulting in a decline in the trading price of our Class A Common Stock. Significant judgments, estimates, and assumptions used in preparing our consolidated financial statements include, or may in the future include, those related to revenue recognition, business combinations, deferred acquisition consideration, noncontrolling and redeemable noncontrolling interests, goodwill and intangible assets, right-of-use lease assets, and income taxes.

We may be subject to adverse tax consequences, such as those related to changes in tax laws or tax rates or their interpretations, and the related application of judgment in determining our global provision for income taxes, deferred tax assets or liabilities or other tax.

We and OpCo are subject to tax in multiple tax jurisdictions. Significant judgment is required in determining our global provision for income taxes, deferred tax assets or liabilities and in evaluating our tax positions on a worldwide basis. While we believe our tax positions are consistent with the tax laws in the jurisdictions in which we conduct our business, it is possible that jurisdictional tax authorities may take a contrary view, which may have a significant impact on our global provision for income taxes. Additionally, as a pass-through entity for U.S. tax purposes, OpCo is required to make periodic distributions to (i) us, to enable us to pay taxes allocable to our investment in OpCo, and (ii) the holders of OpCo’s common units and corresponding shares of our Class C Common Stock. If our or OpCo’s effective tax rate were to increase, such obligations to make tax distributions will correspondingly increase. See “—Risks Related to Our Capital Structure and Financing—Our Up-C structure places significant limitations on our cash flow because our principal asset is our interest in OpCo, and, accordingly, we depend on distributions from OpCo to pay our taxes and expenses, including payments under the Tax Receivables Agreement.”

Tax laws are dynamic and subject to change as new laws are passed and new interpretations of the law are issued or applied. For example, the United States enacted significant tax reform, and certain provisions of the new law may adversely affect us. In addition, the Biden administration has proposed several corporate tax increases, including raising the U.S. corporate income tax rate and greater taxation of international income, which, if enacted, could adversely affect our tax liability, and governmental tax authorities are increasingly scrutinizing the tax positions of companies. The United States has also enacted the Inflation Reduction Act of 2022 (“IRA”) in August 2022, which, among other changes, introduced a new 1% exercise tax on certain net share repurchases and equivalent redemptions.

Many countries in the European Union, as well as a number of other countries and organizations such as the Organization for Economic Cooperation and Development (the “OECD”), are actively considering changes to existing tax laws that, if enacted, could increase our tax obligations in countries where we do business. In particular, the OECD has agreed to implement a global minimum tax rate of 15% which would operate by imposing a top-up tax on profits arising in a jurisdiction whenever the effective tax rate of a large multinational enterprise, determined on a jurisdictional basis, is below the 15% minimum rate (such minimum tax proposal, “Pillar Two”). In December 2022, the European Union member states formally adopted the European Commission’s proposal for a directive ensuring a 15% minimum effective tax rate for large multinational groups (the “Pillar Two Directive”). The Pillar Two Directive is expected to be implemented in the national law of the European Union member states by December 31, 2023. If Pillar Two is implemented in the European Union or any other jurisdictions in which we operate, we expect these rules would apply to our subsidiaries in those jurisdictions and could impact our consolidated effective corporate income tax rate as well as increase our tax compliance costs.

If the U.S. or other foreign tax authorities change applicable tax laws, our overall taxes could increase, as well as OpCo’s obligations to make tax distributions, and our business, financial condition or results of operations may be adversely impacted.

We may face material adverse tax consequences resulting from the Transactions in Canada, the United States or other jurisdictions.

In connection with the completion of the Transactions, MDC completed a redomiciliation from the federal jurisdiction of Canada to the State of Delaware (the “Redomiciliation”). We believe that the Redomiciliation qualifies as a “reorganization” under section 368(a) of the Internal Revenue Code (the “Code”) and treated, for U.S. federal income tax purposes, as if MDC (i) transferred all of its assets and liabilities to a new U.S. corporation (“New MDC”) in exchange for all of such new corporation’s outstanding stock and (ii) then distributed the stock of New MDC that it received in the transaction to its shareholders in liquidation of MDC. Additionally, we believe the Transactions should be treated for tax purposes as a deemed transfer by New MDC of its assets to OpCo and an assumption of New MDC’s liabilities by OpCo in a transaction intended to qualify as a contribution to OpCo in exchange for OpCo’s common units or preferred units under section 721 of the Code, and that Stagwell Media’s contribution of its businesses to OpCo is similarly subject to section 721 of the Code.

We may face material adverse U.S. tax consequences as a result of the Transactions, and the Internal Revenue Service may not agree with or may otherwise challenge our position on the tax treatment of the Transactions or of internal restructuring transactions undertaken prior to, after, or in connection with the Transactions, which could result in higher U.S. federal tax costs than we anticipate, including a reduction in the net operating loss carryforwards of certain of our subsidiaries. We have not applied for a ruling related to the Transactions and do not intend to do so. Any adverse tax consequences resulting from the Transactions or our operations as a combined company could have an adverse effect on our business, results of operations, financial condition and cash flows. Moreover, U.S. tax laws significantly limit our ability to redomicile outside of the United States.

In addition, as a result of the Redomiciliation, we incurred a significant Canadian corporate tax liability and recorded a tax receivable of \$12 million included in Other Assets in our consolidated financial statements. For purposes of the Canadian Tax Act, MDC’s taxation year was deemed to have ended immediately prior to it ceasing to be a resident of Canada as a result of the Redomiciliation. Immediately prior to the time of this deemed year end, MDC was deemed to have disposed of each of its properties for proceeds of disposition equal to the fair market value of such properties at that time and was deemed to have reacquired such properties for a cost amount equal to that fair market value. MDC was subject to income tax under Part I of the Canadian Tax Act on any income and net taxable capital gains which arise as a result of this deemed disposition (after the utilization of any available capital losses or non-capital losses) and was also subject to “emigration tax” under Part XIV of the Canadian Tax Act on the amount by which the fair market value, immediately before MDC’s deemed year end, of all of its properties exceeded the total of certain of its liabilities and the paid-up capital, determined for purposes of that emigration tax, of all the issued and outstanding shares of MDC immediately before such deemed year end.

The quantum of Canadian federal income tax payable by MDC as a result of the Redomiciliation depends upon a number of considerations including the fair market value of its properties, the amount of its liabilities, the Canada-U.S. dollar exchange rate, MDC’s shareholder composition, as well as certain Canadian tax attributes, accounts and balances of the Company, each as of the effective time of the Redomiciliation. We have not applied to the Canadian federal tax authorities for a tax ruling relating to the Redomiciliation and do not intend to do so, and the Canadian federal tax authorities may not agree with or may otherwise challenge our position on the tax treatment of the Redomiciliation, which could result in higher Canadian corporate tax liabilities than we anticipate. Any such adverse tax consequences could adversely affect our business, results of operation, financial condition and cash flows.

Risks Related to Ownership of Our Class A Common Stock and Our Status as a Public Company

Our stock price may be volatile.

The trading price of our Class A Common Stock may fluctuate substantially and may be lower than its current price. This may be especially true for companies like ours with a small public float. If an active market for our securities develops and continues, the trading price of our securities could be volatile and subject to wide fluctuations. The trading price of our securities depends on many factors, including those described elsewhere in this “Risk Factors” section, many of which are beyond our control and may not be related to our operating performance. These fluctuations could cause you to lose all or part of your investment in our securities since you might be unable to sell them at or above the price you paid for them. Any of the factors listed below could have a material adverse effect on your investment in our securities and our securities may trade at prices significantly below the price you paid for them. In such circumstances, the trading price of our securities may not recover and may experience a further decline.

Factors affecting the trading price of our securities may include (but are not limited to):

- market conditions in the broader stock market in general or in our industry in particular;
- actual or anticipated fluctuations in our quarterly financial results or the quarterly financial results of companies perceived to be similar to us;
- changes in the market’s expectations about our operating results;
- the public’s reaction to our press releases, other public announcements and filings with the Securities and Exchange Commission;
- rumors and speculation in the press or investment community or on social media about us, our clients or companies perceived to be similar to us;
- actual or anticipated developments in our business, competitors’ businesses or the competitive landscape generally;
- the operating results failing to meet the expectation of securities analysts or investors in a particular period;
- our operating results failing to meet the guidance we may issue from time to time;
- changes in financial estimates and recommendations by securities analysts concerning us or the market in general;
- the timing of the achievement of objectives under our business plan and the timing and amount of costs we incur in connection therewith;
- short selling of our Class A Common Stock or related derivative securities;
- actions by hedge funds, short term investors, activist stockholders or stockholder representative organizations;
- operating and stock price performance of other companies that investors deem comparable to ours;
- changes in laws and regulations affecting our business;
- commencement of, or involvement in, litigation or investigations involving us;
- changes in our capital structure, such as future issuances of securities or the incurrence of additional debt;
- the volume of our Class A Common Stock available for public sale;
- any major change in our Board or management;
- sales of substantial amounts of our Class A Common Stock by our directors, officers or significant stockholders or the perception that such sales could occur;
- the extent to which retail and other individual investors (as distinguished from institutional investors), invest in our Class A Common Stock;
- sudden increases in the demand for our Class A Common Stock, including as a result of any “short squeezes”;
- speculative trading that is not primarily motivated by our announcements or the condition of our business;
- general economic and political conditions such as recessions or other economic downturns, inflation, interest rate increase, “trade wars,” pandemics and acts of war or terrorism and geopolitical tensions; and
- other risk factors described in this “Risk Factors” section.

Broad market and industry factors may materially harm the market price of our securities irrespective of our operating performance. The stock market in general and Nasdaq in particular have experienced significant price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of the particular companies affected. The trading prices and valuations of these stocks, and of our Class A Common Stock, may not be predictable. A loss of investor confidence in the market for the stocks of other companies which investors perceive to be similar to ours could depress our stock price regardless of our business, prospects, financial condition or results of operations. Broad market and industry factors and any other global pandemics, as well as general economic, political and market conditions such as recessions or interest rate changes, may seriously affect the market price of our Class A Common Stock, regardless of our actual operating performance. In addition, the trading price of our Class A Common Stock may be adversely affected by third parties trying to drive down or drive up the market price. Short sellers and others, some of whom post anonymously on social media, may be positioned to profit if our stock declines or otherwise exhibits volatility, and their activities can negatively affect our stock price and increase the volatility of our stock price. These broad market and industry factors could seriously harm the market price of our Common Stock, regardless of our operating performance. A decline in the market price of our securities also could adversely affect our ability to issue additional securities and our ability to obtain additional financing in the future.

In addition, in the past, following periods of volatility in the overall market and the market prices of particular companies’ securities, securities class action litigations have often been instituted against these companies. Litigation of this type, if instituted against us, could result in substantial costs and a diversion of our management’s attention and resources. Any adverse

determination in any such litigation or any amounts paid to settle any such actual or threatened litigation could require that we make significant payments.

If our operating and financial performance in any given period does not meet any guidance that we provide to the public, the market price for our Class A Common Stock may decline.

We have in the past provided, and may from time to time provide, guidance regarding our future performance that represents our management's estimates as of the date such guidance is provided. Any such guidance is based upon a number of assumptions with respect to future business decisions (some of which may change) and estimates that, while presented with numerical specificity, are inherently subject to significant business, economic and competitive uncertainties and contingencies (many of which are beyond our control). Guidance is necessarily speculative in nature, and it can be expected that some or all of the assumptions that inform such guidance will not materialize or will vary significantly from actual results. Accordingly, our guidance is only an estimate of what management believes is realizable as of the date such guidance is provided. Actual results may vary from such guidance, and the variations may be material. Investors should also recognize that the reliability of any forecasted financial data diminishes the farther in the future that the data is forecast. In light of the foregoing, investors should not place undue reliance on our financial guidance and should carefully consider any guidance we may publish in context. In addition, in prior periods our operating or financial results have not met our guidance, or we have reduced our guidance. If in the future our operating or financial results for a particular period do not meet any guidance we provide or the expectations of investment analysts, or if we reduce our guidance for future periods, the market price of our Class A Common Stock may decline. In addition, even though we have issued public guidance in the past, we are not obligated to and may determine not to continue to do so in the future.

A significant portion of our Class A Common Stock is restricted from immediate resale but may be sold into the market in the future, which could negatively affect the market price of our Class A Common Stock.

As of December 31, 2022, Stagwell Media beneficially owned approximately 64% of our outstanding shares of Class A Common Stock on an as-converted basis. Although the shares held by Stagwell Media are subject to securities law restrictions on sales by affiliates, we, Stagwell Media and certain other parties are party to a registration rights agreement pursuant to which, among other things and subject to certain restrictions, we are required to file with the Securities and Exchange Commission a registration statement registering for resale the shares of our Class A Common Stock that are held by, or are issuable upon exchange of units of OpCo (in combination with corresponding shares of our Class C Common Stock) held by, such parties, and to conduct certain underwritten offerings upon the request of holders of registrable securities, including direct and indirect transferees of such holders. In addition, we are party to a securities purchase agreement pursuant to which we are required to register for resale the shares of Class A Common Stock issued upon the conversion of our previously outstanding Series 8 convertible preferred stock.

As such, sales of a substantial number of shares of Class A Common Stock in the public market could occur at any time. These sales, or the perception in the market that the holders of a large number of shares intend to sell shares, could reduce the market price of Class A Common Stock.

We are a "controlled company" within the meaning of the applicable rules of Nasdaq and, as a result, qualify for exemptions from certain corporate governance requirements. Our stockholders will not have the same protections afforded to stockholders of companies that are not controlled companies, and the interests of our controlling stockholder may differ from the interests of other stockholders.

Our CEO and Chairman, Mark Penn, beneficially owns or controls approximately 64% of the voting power of our Common Stock. As a result, we are a "controlled company" within the meaning of the Nasdaq rules, and as a result, we qualify for exemptions from certain corporate governance requirements. Under these rules, a company of which more than 50% of the voting power for the election of directors is held by an individual, group or another company is a "controlled company" and may elect not to comply with certain corporate governance requirements, including the requirements to have: (a) a majority of independent directors on the board; (b) a nominating committee comprised solely of independent directors; (c) compensation of executive officers determined by a majority of the independent directors or a compensation committee comprised solely of independent directors; and (d) director nominees selected, or recommended for the selection by the board, either by a majority of the independent directors or a nominating committee comprised solely of independent directors. Although as of the date of this prospectus, we do not utilize any of these exemptions, we may elect to utilize one or more of these exemptions for so long as we

remain a "controlled company." As a result, our stockholders may not have the same protections afforded to stockholders of companies that are subject to all of the Nasdaq corporate governance requirements.

In addition, this concentration of ownership and voting power allows Mr. Penn to control our decisions, including matters requiring approval by our stockholders (such as, subject to certain limitations, the election of directors and the approval of mergers or other extraordinary transactions), regardless of whether or not other stockholders believe that the transaction is in their own best interests. Such concentration of voting power could also have the effect of delaying, deterring or precluding a change of control or other business combination that might otherwise be beneficial to our stockholders, could deprive our stockholders of an opportunity to receive a premium for their Class A Common Stock as part of a sale of our company and might ultimately affect the market price of our Class A Common Stock.

Securities or industry analysts may cease publishing research or reports about us, our business, or our market, or publish negative opinions about our company or the price of our Class A Common Stock, which could cause the price and trading volume of our Class A Common Stock to decline.

The trading market for our Class A Common Stock is influenced by the research and reports that industry or securities analysts publish (or may publish) about us, our business and operations, our market or our competitors. If securities or industry analysts cease such coverage, or other analysts fail to commence coverage of us, our stock price and trading volume could be negatively impacted. In addition, we have no control over equity research analysts or the content of their reports, and if any of the analysts who cover, or may cover us in the future, make negative recommendations regarding our stock or issue other unfavorable commentary or research, or provide more favorable relative recommendations about our competitors, the price and trading volume of our Class A Common Stock could decline.

There is no guarantee that an active and liquid public market for our securities will be sustained.

A liquid trading market for our Class A Common Stock may not be sustained. In the absence of a liquid public trading market:

- you may not be able to liquidate your investment in shares of our Class A Common Stock;
- you may not be able to resell your shares of our Class A Common Stock at or above the price you paid for them;
- the market price of shares of our Class A Common Stock may experience significant price volatility; and
- there may be less efficiency in carrying out your purchase and sale orders.

Additionally, if our Class A Common Stock becomes delisted from Nasdaq for any reason, the liquidity and price of our Class A Common Stock may be more limited than if we were quoted or listed on Nasdaq or another national securities exchange. You may be unable to sell your shares of Class A Common Stock unless a market can be sustained.

We do not intend to pay dividends on our common stock and, consequently, your ability to achieve a return on your investment will depend on appreciation in the price of the Class A Common Stock.

We do not intend to declare and pay dividends on our common stock for the foreseeable future. We currently intend to invest future earnings, if any, to fund growth, to develop business, for working capital needs and for general corporate purposes. In addition, certain provisions of Delaware law and our outstanding indebtedness impose requirements that may restrict our ability to pay cash dividends on our common stock. Therefore, you are not likely to receive any cash dividends on shares of our Class A Common Stock for the foreseeable future, and the success of an investment in the shares of our Class A Common Stock will depend upon any future appreciation in their market price. The market price of shares of our Class A Common Stock may never appreciate and may decrease.

We may issue additional shares of our Class A Common Stock or other equity securities without your approval, which would dilute your ownership interests and may depress the market price of your shares.

We may issue additional shares of our Class A Common Stock or other equity securities of equal or senior rank in the future in connection with, among other things, future acquisitions, repayment of outstanding indebtedness or under our equity incentive plans, without stockholder approval, in a number of circumstances. Our issuance of additional shares of our Class A Common Stock or other equity securities of equal or senior rank could have the following effects:

- your proportionate ownership interest in us will decrease;
- the relative voting strength of each previously outstanding share of Class A Common Stock may be diminished; or

- the market price of our stock may decline.

Some provisions of Delaware law and our certificate of incorporation and bylaws may deter third parties from acquiring us and diminish the value of our Class A Common Stock.

In addition to protections afforded under the Delaware General Corporation Law (“DGCL”), or certificate of incorporation and bylaws contain provisions that could have the effect of delaying or preventing changes in control or changes in management or to our Board. These provisions include, among other things:

- no cumulative voting in the election of directors, which limits the ability of minority stockholders to elect director candidates; and
- the ability of our Board to issue shares of preferred stock in one or more series and, with respect to each such series, to fix the number of shares constituting such series and the designations, powers, preferences, rights, qualifications, limitations and restrictions in respect of the shares of such series, without stockholder approval, which could be used to significantly dilute the ownership of a hostile acquirer.

These provisions in our certificate of incorporation and our bylaws, as well as provisions of Delaware law, may discourage, delay or prevent a transaction involving a change in our control that is in the best interest of our minority stockholders. Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our Class A Common Stock if they are viewed as discouraging future takeover attempts. These provisions could also make it more difficult for stockholders to nominate directors for election to our Board and take other corporate actions and may also discourage acquisition proposals, or delay or prevent a change in control, which could depress the trading price of our Class A Common Stock.

Our certificate of incorporation designates the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by stockholders and designates the United States federal district courts as the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act, which could limit the ability of our stockholders to obtain a favorable judicial forum for disputes with us or with our directors, officers or employees and may discourage stockholders from bringing such claims.

Our certificate of incorporation provides that, subject to limited exceptions, the Court of Chancery of the State of Delaware will be the exclusive forum for:

- any derivative action or proceeding brought on behalf of our company;
- any action or proceeding asserting a claim of breach of a fiduciary duty owed by any current or former director, officer or other employee or stockholder of our company to us or our stockholders;
- any action or proceeding asserting a claim arising pursuant to any provision of the DGCL (or any successor provision thereto) or as to which the DGCL (or any successor provision thereto) confers jurisdiction on the Court of Chancery of the State of Delaware;
- any action or proceeding asserting a claim against us or any current or former director, officer or other employee of our company arising pursuant to any provision of the DGCL, our certificate of incorporation, or our bylaws (as each may be amended from time to time);
- any action asserting a claim governed by the internal affairs doctrine; or
- any other action asserting an “internal corporate claim” as that term is defined in Section 115 of the DGCL.

For the avoidance of doubt, the foregoing provisions of our certificate of incorporation will not apply to any action or proceeding asserting a claim under the Securities Act of 1933, as amended (the “Securities Act”) or the Exchange Act. Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder. Accordingly, both state and federal courts have jurisdiction to entertain such claims. To prevent having to litigate claims in multiple jurisdictions and the threat of inconsistent or contrary rulings by different courts, among other considerations, our certificate of incorporation provides that, unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States will be the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act of 1933. Although investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder, any person or entity purchasing or otherwise

acquiring any interest in shares of our capital stock will be deemed to have notice of, and consented to, the provisions of our certificate of incorporation described in the preceding sentences.

These provisions of our certificate of incorporation could limit the ability of our stockholders to obtain a favorable judicial forum for certain disputes with us or with our directors, officers or other employees, which may discourage such lawsuits against us and our directors, officers and employees. Alternatively, if a court were to find these provisions of our current bylaws inapplicable to, or unenforceable in respect of, one or more of the types of actions or proceedings listed above, we may incur additional costs associated with resolving such matters in other jurisdictions, which could adversely affect our business, financial condition and results of operations. While the Delaware courts have determined that such choice of forum provisions are facially valid, a stockholder may nevertheless seek to bring a claim in a venue other than those designated in the exclusive forum provisions, and there can be no assurance that such provisions will be enforced by a court in those other jurisdictions.

The requirements of being a public company may strain our resources, divert management’s attention and affect our ability to attract and retain qualified board members and officers.

We are subject to the reporting requirements of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), the listing requirements of the Nasdaq Stock Market and other applicable securities rules and regulations. Compliance with these rules and regulations has increased our legal and financial compliance costs, made some activities more difficult, time-consuming or costly and increased demand on our systems and resources. The Exchange Act requires, among other things, that we file annual, quarterly and current reports with respect to our business and results of operations and maintain effective disclosure controls and procedures and internal controls over financial reporting. Maintaining our disclosure controls and procedures and internal controls over financial reporting in accordance with this standard requires significant resources and management oversight. As a result, management’s attention may be diverted from other business concerns, which could harm our business and results of operations. Although we have already hired additional employees to comply with these requirements, we may need to hire more employees in the future, which will increase our costs and expenses.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

See Note 10 of the Notes to the Audited Consolidated Financial Statements (the “Notes”) included herein included in this Annual Report for a discussion of the Company’s lease commitments.

The Company maintains office space in North America, Africa, Europe, Asia, South America, and Australia. This space is primarily used for office and administrative purposes by the Company’s employees in performing professional services. This office space is in suitable and well-maintained condition for Stagwell’s current operations. Certain of these leases are subject to rent reviews or contain various escalation clauses and certain of our leases require our payment of various operating expenses, which may also be subject to escalation. In addition, leases related to the Company’s non-U.S. businesses are denominated in currencies other than U.S. dollars and are therefore subject to changes in foreign exchange rates.

The table below provides a brief description of all locations in which office space is maintained and the related reportable segment.

Reportable Segment	Office Locations
Integrated Agencies Network	Argentina, Australia, California, Canada, China, Connecticut, Florida, Georgia, Germany, Illinois, India, Indiana, Michigan, Minnesota, New York, Netherlands, Oregon, Pennsylvania, Philippines, United Kingdom, and Virginia
Brand Performance Network	Brazil, California, Canada, China, Colorado, Egypt, France, Japan, Florida, Germany, Hong Kong, India, Italy, Korea, Maryland, Mexico, Netherlands, New York, Poland, Singapore, South Carolina, Spain, Sweden, Taiwan, Texas, United Kingdom, United Arab Emirates, Utah, and Virginia
Communications Network	California, China, Georgia, Germany, Japan, Massachusetts, North Carolina, Oregon, Singapore, Thailand, and Virginia, Washington, and Washington D.C.
All Other	Argentina, Canada, Illinois, and United Kingdom
Corporate	California, Florida, New York, Washington, and Washington D.C.

Item 3. Legal Proceedings

In the ordinary course of business, we are involved in various legal proceedings. We do not currently expect that these proceedings will have a material adverse effect on our results of operations, cash flows or financial position.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information and Holders

Our Class A Common Stock is traded on the Nasdaq Global Select Market, under the symbol "STGW." There is no established public trading market for our Class B common stock, par value \$0.001 per share (the "Class B Common Stock"), or Class C Common Stock. As of February 28, 2023, the approximate number of registered holders of our Class A Common Stock, Class B Common Stock, and Class C Common Stock, including those whose shares are held in a nominee name, was 525, 60, and 1, respectively.

Dividends

We have never declared or paid any cash dividends on our capital stock. We currently intend to retain any future earnings and do not expect to pay any dividends in the foreseeable future. Any future determination to declare cash dividends will be made at the discretion of our Board, subject to applicable laws, and will depend on a number of factors, including our financial condition, results of operations, capital requirements, contractual restrictions, general business conditions, and other factors that the Board may deem relevant.

Unregistered Sales of Equity Securities

In the three months ended December 31, 2022, the Company granted 751,784 shares of Class A Common Stock in transactions exempt from registration under Section 4(a)(2) of the Securities Act. Of these, 68,452 shares were granted to employees as inducement for employment, 100,000 shares were issued to a member of management of a subsidiary for payment in the acquisition of the remaining interest in the majority-owned subsidiary, 174,999 shares were issued as purchase consideration in connection with the acquisition of a company and 408,333 shares were issued to the previous owners of this company with

vesting conditions based upon continued employment. The Company received no cash proceeds and no commissions were paid to any person in connection with the issuance of these shares.

Purchase of Equity Securities by the Issuer and Affiliated Purchasers

On March 1, 2023, the Board authorized an extension and a \$125,000,000 increase in the size of our previously approved stock repurchase program (the "Repurchase Program"). Under the Repurchase Program, as amended, we may repurchase up to an aggregate of \$250,000,000 of shares of our outstanding Class A Common Stock, with any previous purchases under the Repurchase Program continuing to count against that limit. The Repurchase Program will expire on March 1, 2026. Under the Repurchase Program, share repurchases may be made at our discretion from time to time in open market transactions at prevailing market prices (including through trading plans that may be adopted in accordance with Rule 10b5-1 of the Exchange Act), in privately negotiated transactions, or through other means. The timing and number of shares repurchased under the Repurchase Program will depend on a variety of factors, including the performance of our stock price, general market and economic conditions, regulatory requirements, the availability of funds, and other considerations we deem relevant. The Repurchase Program may be suspended, modified or discontinued at any time without prior notice. Our board of directors will review the Repurchase Program periodically and may authorize adjustments of its terms. Pursuant to its Combined Credit Agreement (as defined and discussed in Note 11 of the Notes included herein) and the indenture governing the 5.625% Notes, the Company is currently limited as to the dollar value of shares it may repurchase in the open market.

The following table details our monthly shares repurchased during the fourth quarter of 2022 and the approximate dollar value of shares that may yet be purchased pursuant to the Repurchase Program:

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Program
10/1/2022 - 10/31/2022	993,829	\$ 7.37	967,718	\$ 89,111,111
11/1/2022 - 11/30/2022	1,040,262	7.54	1,040,262	81,337,610
12/1/2022 - 12/31/2022	1,680,539	6.42	1,180,353	73,309,347
Total	3,714,630	\$ 7.11	3,188,333	\$ 73,309,347

⁽¹⁾ Includes 526,297 shares repurchased to settle employee tax withholding obligations related to the vesting of restricted stock awards and restricted stock units.

Stock Performance Graph
(Not included in Annual Report on Form 10-K as filed on March 6, 2023)

The information contained in this Stock Performance Graph section shall not be deemed to be “soliciting material” or “filed” or incorporated by reference in future filings with the SEC, or subject to the liabilities of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), except to the extent that Stagwell specifically incorporates it by reference into a document filed under the Securities Act of 1933, as amended, or the Exchange Act.

The following graph shows a five-year comparison of the cumulative total stockholder return on the Company’s Class A common stock with the cumulative total returns of the Russell Midcap Index and the Vanguard Communications Services Index. The graph tracks the performance of a \$100 investment in the Company’s common stock and in each of the indexes (with the reinvestment of all dividends) on the date specified. Stockholder returns over the indicated period are based on historical data and should not be considered indicative of future stockholder returns.

December 31,	Returns					
	2017	2018	2019	2020	2021	2022
STGW	\$100.00	\$26.77	\$28.51	\$25.74	\$88.92	\$63.69
IWS-USA	\$100.00	\$85.64	\$106.30	\$108.76	\$137.27	\$118.16

Item 6. Selected Financial Data

Not Applicable.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis are based on and should be read in conjunction with our audited consolidated financial statements and the notes thereto included elsewhere in this Form 10-K. The following discussion and analysis contains forward-looking statements and should be read in conjunction with the disclosures and information contained and referenced under the captions “Forward-Looking Statements” and “Risk Factors” in this Form 10-K. The following discussion and analysis also includes a discussion of certain non-GAAP financial measures. A description of the non-GAAP financial measures discussed in this section and reconciliations to the comparable GAAP measures are below.

In this section, the terms “Stagwell,” “we,” “us,” “our” and the “Company” refer (i) with respect to events occurring or periods ending before August 2, 2021, to Stagwell Marketing Group LLC and its direct and indirect subsidiaries and (ii) with respect to events occurring or periods ending on or after August 2, 2021, to Stagwell Inc. and its direct and indirect subsidiaries. References to a “fiscal year” mean the Company’s year commencing on January 1 of that year and ending December 31 of that year (e.g., fiscal 2022 means the period beginning January 1, 2022, and ending December 31, 2022).

Executive Summary

Overview

Stagwell conducts its business through its networks, which provide marketing and business solutions that realize the potential of combining data and creativity. Stagwell’s strategy is to build, grow and acquire market-leading businesses that deliver the modern suite of services that marketers need to thrive in a rapidly evolving business environment. Stagwell’s differentiation lies in its creative roots and proven entrepreneurial leaders, which together with innovations in technology and data, bring transformational marketing, activation, communications and strategic consulting services to clients. Stagwell leverages its range of services in an integrated manner, offering strategic, creative and innovative solutions that are technologically forward and media-agnostic. The Company’s work is designed to challenge the industry status quo, realize outsized returns on investment, and drive transformative growth and business performance for its clients and stakeholders.

Stagwell manages its business by monitoring several financial and non-financial performance indicators. The key indicators that we focus on are revenue, operating expenses, capital expenditures and the non-GAAP financial measures described below. Revenue growth is analyzed by reviewing a mix of measurements, including (i) growth by major geographic location, (ii) growth from existing clients and the addition of new clients, (iii) growth by principal capability, (iv) growth from currency changes, and (v) growth from acquisitions. In addition to monitoring the foregoing financial indicators, the Company assesses and monitors several non-financial performance indicators relating to the business performance of our networks. These indicators may include a network’s recent new client win/loss record; the depth and scope of a pipeline of potential new client account activity; the overall quality of the services provided to clients; and the relative strength of the network’s next generation team that is in place as part of a potential succession plan to succeed the current senior executive team.

Business Combination

On December 21, 2020, MDC and Stagwell Media LP announced that they had entered into the Transaction Agreement, providing for the combination of MDC with the “Stagwell Subject Entities.” The Stagwell Subject Entities comprised Stagwell Marketing and its direct and indirect subsidiaries.

On August 2, 2021 (the “Closing Date”), we completed the Transactions. In connection with the Transactions, among other things, (i) MDC completed a series of transactions pursuant to which it emerged as a wholly owned subsidiary of the Company, converted into OpCo; (ii) Stagwell Media contributed the equity interests of Stagwell Marketing and its direct and indirect subsidiaries to OpCo; and (iii) the Company converted into a Delaware corporation, succeeded MDC as the publicly-traded company and changed its name to Stagwell Inc.

The Transactions were treated as a reverse acquisition for financial reporting purposes, with MDC treated as the legal acquirer and Stagwell Marketing treated as the accounting acquirer. As a result of the Transactions and the change in our business and operations, under applicable accounting principles, the historical financial results of Stagwell Marketing prior to August 2, 2021 are considered our historical financial results. Accordingly, historical information presented in this Form 10-K for events occurring or periods ending before August 2, 2021 does not reflect the impact of the Transactions and may not be comparable with historical information for events occurring or periods ending on or after August 2, 2021, which do not include the financial results of MDC. See Note 4 of the Notes included herein for additional information regarding the Transactions.

Recent Developments

On March 1, 2023, the Board authorized an extension and a \$125.0 million increase in the size of the Repurchase Program to an aggregate of \$250.0 million, with any previous purchases under the Repurchase Program continuing to count against that limit. The Repurchase Program, as amended, will expire on March 1, 2026.

Significant Factors Affecting our Business and Results of Operations

The most significant factors affecting our business and results of operations include national, regional, and local economic conditions, our clients' profitability, mergers and acquisitions of our clients, changes in top management of our clients and our ability to retain and attract key employees. New business wins and client losses occur due to a variety of factors. The two most significant factors are (i) our clients' desire to change marketing communication firms, and (ii) the digital and data-driven products that our Brands offer. A client may choose to change marketing communication firms for several reasons, such as a change in leadership where new management wants to retain a Brand that it may have previously worked with. In addition, if the client is merged or acquired by another company, the marketing communication firm is often changed. Clients also change firms as a result of the firm's failure to meet marketing performance targets or other expectations in client service delivery.

Seasonality

Historically, we typically generate the highest quarterly revenue during the fourth quarter in each year. In addition, client concentration increases during election years due to the cyclical nature of our advocacy Brands. The highest volumes of retail related consumer marketing increase with the back-to-school season through the end of the holiday season.

Non-GAAP Financial Measures

The Company reports its financial results in accordance with accounting principles generally accepted in the United States ("GAAP"). In addition, the Company has included non-GAAP financial measures and ratios, which management uses to operate the business, which it believes provide useful supplemental information to both management and readers of this report in making period-to-period comparisons in measuring the financial performance and financial condition of the Company. These measures do not have a standardized meaning prescribed by GAAP and should not be construed as an alternative to other titled measures determined in accordance with GAAP. The non-GAAP financial measures included are "organic revenue growth or decline," "Adjusted EBITDA," and "Adjusted Diluted EPS."

"Organic revenue growth" and "organic revenue decline" refer to the positive or negative results, respectively, of subtracting both the foreign exchange and acquisition (disposition) components from total revenue growth. The acquisition (disposition) component is calculated by aggregating prior period revenue for any acquired businesses, less the prior period revenue of any businesses that were disposed of during the current period. The organic revenue growth (decline) component reflects the constant currency impact of (a) the change in revenue of the Brands that the Company has held throughout each of the comparable periods presented, and (b) "Net acquisitions (divestitures)." Net acquisitions (divestitures) consists of (i) for acquisitions during the current year, the revenue effect from such acquisition as if the acquisition had been owned during the equivalent period in the prior year and (ii) for acquisitions during the previous year, the revenue effect from such acquisitions as if they had been owned during that entire year (or the same prior year period as the current reportable period), taking into account their respective pre-acquisition revenues for the applicable periods, and (iii) for dispositions, the revenue effect from such disposition as if they had been disposed of during the equivalent period in the prior year.

Adjusted EBITDA is defined as Net income (loss) attributable to Stagwell Inc. common shareholders excluding non-operating income or expense to achieve operating income (loss), plus depreciation and amortization, stock-based compensation, deferred acquisition consideration adjustments, and other items. Other items include restructuring costs, acquisition-related expenses, and non-recurring items.

Adjusted Diluted EPS is defined as (i) Net income (loss) attributable to Stagwell Inc. common shareholders, plus net income attributable to Class C shareholders, excluding the impact of amortization expense, impairment and other losses, stock-based compensation, deferred acquisition consideration adjustments, discrete tax items, and other items, based on total consolidated amounts, then allocated to Stagwell Inc. common shareholders and Class C shareholders, based on their respective income allocation percentage using a normalized effective income tax rate divided by (ii) (a) the weighted average number of common shares outstanding plus (b) the weighted average number of shares of Class C Common Stock outstanding. Other items includes restructuring costs, acquisition-related expenses, and non-recurring items. The diluted weighted average shares outstanding include shares of Class C Common Stock as if converted to shares of Class A Common Stock to calculate Adjusted Diluted EPS.

All amounts are in dollars unless otherwise stated. Amounts reported in millions herein are computed based on the amounts in thousands. As a result, the sum of the components, and related calculations, reported in millions may not equal the total amounts due to rounding.

The percentage changes included in the tables in Item 7 herein that are not considered meaningful are presented as "NM."

Segments

The Company determines an operating segment if a component (i) engages in business activities from which it earns revenues and incurs expenses, (ii) has discrete financial information, and is (iii) regularly reviewed by the Chief Operating Decision Maker ("CODM"), who is Mark Penn, Chief Executive Officer and Chairman, to make decisions regarding resource allocation for the segment and assess its performance. Once operating segments are identified, the Company performs an analysis to determine if aggregation of operating segments is applicable. This determination is based upon a quantitative analysis of the expected and historic average long-term profitability for each operating segment, together with a qualitative assessment to determine if operating segments have similar operating characteristics.

The CODM uses Adjusted EBITDA as a key metric, to evaluate the operating and financial performance of a segment, identify trends affecting the segments, develop projections and make strategic business decisions.

Due to changes in the Company's internal management and reporting structure in the second quarter of 2022, reportable segment results for periods presented prior to the second quarter of 2022 have been recast to reflect the reclassification of certain reporting units (Brands) between operating segments. The changes in reportable segments were that the Forsman & Bodenfors, Observatory, Crispin Porter Bogusky, Bruce Mau and Vitro Brands, previously within the Integrated Agencies Network, are now within the Stagwell Brand Performance Network.

The Company has three reportable segments as follows: "Integrated Agencies Network," "Brand Performance Network" and the "Communications Network." In addition, the Company combines and discloses operating segments that do not meet the aggregation criteria as "All Other." The Company also reports corporate expenses, as further detailed below, as "Corporate." All segments follow the same basis of presentation and accounting policies. See Note 2 of the Notes included herein for the Company's significant accounting policies.

In addition, Stagwell reports its corporate office expenses incurred in connection with the strategic resources provided to the networks, as well as certain other centrally managed expenses that are not fully allocated to the operating segments as Corporate. Corporate provides client and business development support to the networks as well as certain strategic resources, including accounting, administrative, financial, real estate, human resource and legal functions.

The following discussion focuses on the operating performance of the Company for the years ended December 31, 2022 and 2021 and the financial condition of the Company as of December 31, 2022.

For similar operating and financial data and discussion of the Company's year ended December 31, 2021 results compared to the Company's year ended December 31, 2020 results, refer to Part II. Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Annual Report on Form 10-K that was filed with the SEC on March 17, 2022, including the sections entitled "Result of Operations — Twelve Months Ended December 31, 2021 Compared to Twelve Months Ended December 31, 2020" and "Liquidity — Cash Flows".

Revenue

Revenue for the year ended December 31, 2022 was \$2,687.8 million compared to \$1,469.4 million for the year ended December 31, 2021, an increase of \$1,218.4 million.

Net Revenue

The components of the fluctuations in net revenue for the year ended December 31, 2022 compared to the year ended December 31, 2021 were as follows:

	Net Revenue - Components of Change					Change		
	Year Ended December 31, 2021	Foreign Currency	Net Acquisitions (Divestitures)	Organic	Total Change	Year Ended December 31, 2022	Organic	Total
	(dollars in thousands)							
Integrated Agencies Network	\$ 683,563	\$ (4,467)	\$ 458,712	\$ 109,560	\$ 563,805	\$ 1,247,368	16.0 %	82.5 %
Brand Performance Network	393,481	(9,542)	188,168	95,775	274,401	667,882	24.3 %	69.7 %
Communications Network	166,050	(484)	51,460	69,915	120,891	286,941	42.1 %	72.8 %
All Other	25,843	(835)	(4,616)	(430)	(5,881)	19,962	(1.7)%	(22.8)%
	<u>\$ 1,268,937</u>	<u>\$ (15,328)</u>	<u>\$ 693,724</u>	<u>\$ 274,820</u>	<u>\$ 953,216</u>	<u>\$ 2,222,153</u>	<u>21.7 %</u>	<u>75.1 %</u>
Component % change		(1.2)%	54.7%	21.7%	75.1%			

For the year ended December 31, 2022, organic net revenue increased \$274.8 million, or 21.7%. The organic revenue growth was primarily attributable to increased spending by existing clients and business with new clients, as well as higher public relations business due to advocacy services, as these are typically higher during election years. The increase in net acquisitions (divestitures) was primarily driven by the acquisition of MDC.

The geographic mix in net revenues for the years ended December 31, 2022 and 2021 was as follows:

	Year Ended December 31,	
	2022	2021
	(dollars in thousands)	
United States	\$ 1,790,776	\$ 1,039,934
United Kingdom	175,422	101,900
Other	255,955	127,103
Total	<u>\$ 2,222,153</u>	<u>\$ 1,268,937</u>

Impairment and Other Losses

The Company recognized an impairment and other losses charge of \$122.2 million for the year ended December 31, 2022, primarily related to the impairment of goodwill, right-of-use leases assets and intangible assets.

The Company recognized a charge of \$116.7 million of goodwill impairment to write-down the carrying value in excess of the fair value of eight reporting units, two within the Integrated Agencies Network, five within the Brand Performance Network and one within the All Other category. The expense was recorded within Impairment and other losses on the Consolidated Statements of Operations.

The Company recognized a charge of \$2.6 million to reduce the carrying value of three of its right-of-use lease assets and related leasehold improvements. These right-of-use lease assets related to agencies within the Integrated Agencies Network and the Brand Performance Network. This impairment charge is included in Impairment and other losses within the Consolidated Statements of Operations.

The Company recognized a charge of \$1.4 million to reduce the carrying values of intangible assets within the Integrated Agencies Network and Brand Performance Network reportable segments primarily in connection with the abandonment of certain trade names as part of the integration of certain entities. The impairment charge was recorded within Impairment and other losses on the Consolidated Statements of Operations.

During the year ended December 31, 2021, the Company recognized an impairment and other loss of \$16.2 million in connection with a write-down of trade names no longer in use.

Operating Income

Operating income for the year ended December 31, 2022 was \$159.2 million compared to \$44.7 million for the year ended December 31, 2021, representing an increase of \$114.5 million.

Operating income for the year ended December 31, 2022 was impacted primarily by an increase in revenue and expenses from existing operations and due to the acquisition of MDC.

Stock-based compensation expense decreased, primarily driven by awards issued to employees in the third quarter of 2021, in connection with the acquisition of MDC, that fully vested in the third quarter of 2021 and the first quarter of 2022, partially offset by awards issued in 2022.

Deferred acquisition consideration decreased primarily due to a decline in fair value associated with a Brand in which the deferred acquisition consideration liability originated in the fourth quarter of 2021 from the purchase of the remaining interest we did not already own.

Depreciation and amortization increased primarily due to the recognition of depreciable fixed assets and amortizable intangible assets in connection with the acquisitions of MDC and GoodStuff Holdings Limited ("Goodstuff").

Impairment and other losses increased primarily due to the impairment of goodwill, intangible assets and right-of-use lease assets in 2022.

Other, net

Other, net, for the year ended December 31, 2022 was expense of \$7.1 million, compared to income of \$50.1 million for the year ended December 31, 2021 a decrease of \$57.1 million, primarily due to a gain of approximately \$43.0 million in connection with the sale of Reputation Defender in the third quarter of 2021.

Foreign Exchange Transaction Gain (Loss)

The foreign exchange loss for the year ended December 31, 2022 was \$2.6 million compared to a loss of \$3.3 million for the year ended December 31, 2021.

Interest Expense, Net

Interest expense, net, for the year ended December 31, 2022 was \$76.1 million compared to \$31.9 million for the year ended December 31, 2021, an increase of \$44.2 million, primarily driven by a higher level of debt due to the issuance of \$1,100.0 million aggregate principal amount of 5.625% senior notes due 2029 ("5.625% Notes") in August 2021.

Income Tax Expense

The Company had an income tax expense for the year ended December 31, 2022 of \$7.6 million (on a pre-tax income of \$73.5 million resulting in an effective tax rate of 10.3%) compared to income tax expense of \$23.4 million (on pre-tax income of \$59.6 million resulting in an effective tax rate of 39.3%) for the year ended December 31, 2021.

The difference in the effective tax rate of 10.3% in the year ended December 31, 2022 as compared to 39.3% in the year ended December 31, 2021 was primarily related to share-based compensation, revaluation of the TRA step up, and return to provision adjustments in the year ended December 31, 2022 and a change in ownership of OpCo, offset in part by the impact of non-deductible goodwill impairments in the year ended December 31, 2022.

Noncontrolling and Redeemable Noncontrolling Interests

The effect of noncontrolling and redeemable noncontrolling interests for the year ended December 31, 2022 was \$38.6 million compared to \$14.9 million for the year ended December 31, 2021. The increase is primarily related to noncontrolling interest income associated with holders of Class C Common Stock.

Net Income (Loss) Attributable to Stagwell Inc. Common Shareholders

As a result of the foregoing, net income attributable to Stagwell Inc. common shareholders for the year ended December 31, 2022 was \$27.3 million compared to net income attributable to Stagwell Inc. common shareholders of \$21.0 million for the year ended December 31, 2021.

Earnings Per Share

Diluted EPS and Adjusted Diluted EPS for the year ended December 31, 2022 was as follows:

	Reported (GAAP)	Adjustments ⁽¹⁾	(Non-GAAP)
(dollars in thousands, except per share amounts)			
Net income attributable to Stagwell Inc. common shareholders	\$ 27,269	\$ 95,147	\$ 122,416
Net income attributable to Class C shareholders	24,452	120,655	145,107
Net income attributable to Stagwell Inc. and Class C and adjusted net income	\$ 51,721	\$ 215,802	\$ 267,523

Other items, net	18,691	(3,738)	14,953
Tax adjustments	7,482	(27,327)	(19,845)
	\$ 272,862	\$ (57,060)	\$ 215,802

Adjusted EBITDA

Adjusted EBITDA for the year ended December 31, 2022 was \$451.1 million, compared to \$253.7 million for the year ended December 31, 2021, representing an increase of \$197.5 million, primarily driven by the increase in revenue from existing operations and the acquisitions of MDC and Goodstuff, partially offset by higher operating expenses.

Integrated Agencies Network

The components of operating results for the year ended December 31, 2022 compared to the year ended December 31, 2021 were as follows:

	Year Ended December 31,			
	2022	2021	Change	
(dollars in thousands)				
			\$	%

Impairment and other losses	52,360	1,394	50,966	NM
	\$ 1,340,532	\$ 713,228	\$ 627,304	88.0 %
Operating income	\$ 139,270	\$ 56,828	\$ 82,442	NM

	Year Ended December 31,			
	2022	2021	Change	
(dollars in thousands)				
			\$	%
Net Revenue	\$ 1,247,368	\$ 683,563	\$ 563,805	82.5 %
Billable costs	232,434	86,493	145,941	NM
Revenue	1,479,802	770,056	709,746	92.2 %
Billable costs	232,434	86,493	145,941	NM
Staff costs	771,324	405,589	365,735	90.2 %
Administrative costs	112,285	59,479	52,806	88.8 %
Unbillable and other costs, net	70,116	54,899	15,217	27.7 %
Adjusted EBITDA	293,643	163,596	130,047	79.5 %
Stock-based compensation	13,774	47,190	(33,416)	(70.8)%
Depreciation and amortization	74,609	37,646	36,963	98.2 %
Deferred acquisition consideration	9,157	18,457	(9,300)	(50.4)%
Impairment and other losses	52,360	1,394	50,966	NM
Other items, net	4,473	2,081	2,392	NM
Operating Income	\$ 139,270	\$ 56,828	\$ 82,442	NM

Revenue

Revenue for the year ended December 31, 2022 was \$1,479.8 million compared to \$770.1 million for the year ended December 31, 2021, an increase of \$709.7 million.

Net Revenue

The components of the fluctuations in net revenue for the year ended December 31, 2022 compared to the year ended December 31, 2021 were as follows:

	Net Revenue - Components of Change					Change		
	Year Ended December 31, 2021	Foreign Currency	Net Acquisitions (Divestitures)	Organic	Total Change	Year Ended December 31, 2022	Organic	Total
	(dollars in thousands)							
Integrated Agencies Network	\$ 683,563	\$ (4,467)	\$ 458,712	\$ 109,560	\$563,805	\$ 1,247,368	16.0 %	82.5 %
Component % change		(0.7)%	67.1%	16.0%	82.5%			

The growth in organic net revenue was primarily attributable to increased spending by existing and new clients, primarily driven by creative, digital transformation and consumer insights services. The increase in net acquisitions (divestitures) was primarily driven by the acquisition of MDC.

Operating Income

The increase in expenses was primarily driven by higher costs associated with providing services as well as the acquisition of MDC.

Stock-based compensation expense decreased, primarily driven by awards issued to employees in the third quarter of 2021 in connection with the acquisition of MDC that fully vested in the third quarter of 2021 and the first quarter of 2022 as well as a net decrease in the value of profits interests awards in 2022.

Depreciation and amortization grew due to the recognition of depreciable fixed assets and amortizable intangible assets primarily in connection with the acquisition of MDC.

Deferred acquisition consideration decreased primarily due to the earn-out periods for certain of our Brands ending in the second quarter of 2022 and thus the final payments being made to those Brands at that time.

Impairment and other losses for the year ended December 31, 2022 of \$52.4 million relates to the impairment of goodwill, an intangible asset, and right-of-use lease assets in 2022.

Operating income and Adjusted EBITDA were higher driven by the increase in revenues, partially offset by higher expenses as detailed above.

Brand Performance Network

The components of operating results for the year ended December 31, 2022 compared to the year ended December 31, 2021 were as follows:

	Year Ended December 31,			Change
	2022	2021		
	(dollars in thousands)			
			\$	%
Revenue	\$ 757,208	\$ 424,632	\$ 332,576	78.3 %

Staff costs	412,982	244,078	168,904	69.2 %
Administrative costs	90,853	58,411	32,442	55.5 %
Unbillable and other costs, net	48,212	25,050	23,162	92.5 %
Adjusted EBITDA	115,835	65,942	49,893	75.7 %
Stock-based compensation	5,830	5,251	579	11.0 %
Depreciation and amortization	33,674	26,031	7,643	29.4 %
Deferred acquisition consideration	1,736	184	1,552	NM
Impairment and other losses	50,778	14,846	35,932	NM
Other items, net	8,129	4,128	4,001	96.9 %
Operating Income	\$ 15,688	\$ 15,502	\$ 186	1.2 %

Revenue

Revenue for the year ended December 31, 2022 was \$757.2 million compared to \$424.6 million for the year ended December 31, 2021, an increase of \$332.6 million.

Net Revenue

The components of the fluctuations in net revenue for the year ended December 31, 2022 compared to the year ended December 31, 2021 were as follows:

	Net Revenue - Components of Change					Change		
	Year Ended December 31, 2021	Foreign Currency	Net Acquisitions (Divestitures)	Organic	Total Change	Year Ended December 31, 2022	Organic	Total
	(dollars in thousands)							
Brand Performance Network	\$ 393,481	\$ (9,542)	\$ 188,168	\$ 95,775	\$274,401	\$ 667,882	24.3 %	69.7 %
Component % change		(2.4)%	47.8%	24.3%	69.7%			

The increase in organic net revenue was primarily attributable to new clients and increased spending by existing clients. The increase in net acquisitions (divestitures) was primarily driven by the acquisitions of MDC and Goodstuff.

Operating Income

The increase in expenses was primarily driven by an increase in the costs associated with providing services as well as the impact of the acquisitions of MDC and Goodstuff.

Depreciation and amortization expense increased primarily due to the recognition of depreciable fixed assets and amortizable intangible assets in connection with the acquisitions of MDC and Goodstuff.

Impairment and other losses for the year ended December 31, 2022 of \$50.8 million, relates to the impairment of goodwill, intangible assets, and one right-of-use lease asset. Impairment and other losses of \$14.8 million for the year ended December 31, 2021 relates to the write-down of certain trade names no longer in use.

Deferred acquisition consideration increased primarily due to the acquisition of Goodstuff in the fourth quarter of 2021, partially offset by a decrease in the fair value of deferred acquisition consideration for the year ended 2022.

Operating income and Adjusted EBITDA were driven by an increase in revenues, partially offset by higher expenses as detailed above.

Communications Network

The components of operating results for the year ended December 31, 2022 compared to the year ended December 31, 2021 were as follows:

	Year Ended December 31,			
	2022	2021	Change	
	(dollars in thousands)			
			\$	%
Revenue	\$ 430,820	\$ 248,832	\$ 181,988	73.1 %
Operating Expenses

Revenue

Revenue for the year ended December 31, 2022 was \$430.8 million compared to \$248.8 million for the year ended December 31, 2021, an increase of \$182.0 million.

Net Revenue

The components of the fluctuations in net revenue for the year ended December 31, 2022 compared to the year ended December 31, 2021 were as follows:

	Year Ended December 31, 2021	Net Revenue - Components of Change				Year Ended December 31, 2022	Change	
		Foreign Currency	Net Acquisitions (Divestitures)	Organic	Total Change		Organic	Total
		(dollars in thousands)						
Communications Network	\$ 166,050	\$ (484)	\$ 51,460	\$ 69,915	\$120,891	\$ 286,941	42.1 %	72.8 %
Component % change		(0.3)%	31.0%	42.1%	72.8%			

The increase in organic net revenue was primarily attributable to increased spending by existing and new clients, primarily driven by higher public relations as well as advocacy services, as these are higher during election years. The increase in net acquisitions (divestitures) was driven by the acquisition of MDC.

Operating Income

The increase in expenses was primarily driven by an increase in the costs associated with providing services as well as the impact of the acquisition of MDC.

Deferred acquisition consideration decreased primarily due to the reduction in fair value associated with the deferred acquisition consideration assumed in connection with the purchase of a portion of the remaining interest in one of our Brands in the fourth quarter of 2021.

Stock-based compensation expense decreased primarily due to awards issued to employees in the third quarter of 2021 in connection with the acquisition of MDC that fully vested in the third quarter of 2021 and the first quarter of 2022, partially offset by awards issued to employees in 2022.

Depreciation and amortization increased primarily due to the recognition of amortizable intangible assets in connection with the acquisition of MDC.

Operating income and Adjusted EBITDA were driven by an increase in revenues, partially offset by higher expenses as detailed above.

All Other

The components of operating results for the year ended December 31, 2022 compared to the year ended December 31, 2021 were as follows:

	Year Ended December 31,			
	2022	2021	Change	
	(dollars in thousands)			
			\$	%
Revenue	\$ 19,962	\$ 25,843	\$ (5,881)	(22.8)%
Operating Expenses				
Cost of services	10,007	13,866	(3,859)	(27.8)%
Office and general expenses	10,951	12,785	(1,834)	(14.3)%
Depreciation and amortization	5,234	2,498	2,736	NM
Impairment and other losses	19,041	—	19,041	100.0 %
	<u>\$ 45,233</u>	<u>\$ 29,149</u>	<u>\$ 16,084</u>	<u>55.2 %</u>
Operating loss	<u>\$ (25,271)</u>	<u>\$ (3,306)</u>	<u>\$ (21,965)</u>	<u>NM</u>

	Year Ended December 31,			
	2022	2021	Change	
	(dollars in thousands)			
			\$	%
Net Revenue	\$ 19,962	\$ 25,843	\$ (5,881)	(22.8)%
Revenue	19,962	25,843	(5,881)	(22.8)%
Staff costs	14,011	16,454	(2,443)	(14.8)%
Administrative costs	3,894	9,481	(5,587)	(58.9)%
Unbillable and other costs, net	2,990	677	2,313	NM
Adjusted EBITDA	(933)	(769)	(164)	21.3 %
Stock-based compensation	41	39	2	5.1 %
Depreciation and amortization	5,234	2,498	2,736	NM
Impairment and other losses	19,041	—	19,041	100.0 %
Other items, net	22	—	22	100.0 %
Operating Loss	\$ (25,271)	\$ (3,306)	\$ (21,965)	NM

Revenue

Revenue for the year ended December 31, 2022 was \$20.0 million compared to \$25.8 million for the year ended December 31, 2021, a decrease of \$5.9 million.

Net Revenue

The components of the fluctuations in net revenue for the year ended December 31, 2022 compared to the year ended December 31, 2021 were as follows:

	Net Revenue - Components of Change					Change		
	Year Ended December 31, 2021	Foreign Currency	Net Acquisitions (Divestitures)	Organic	Total Change	Year Ended December 31, 2022	Organic	Total
	(dollars in thousands)							
All Other	\$ 25,843	\$ (835)	\$ (4,616)	\$ (430)	\$ (5,881)	\$ 19,962	(1.7)%	(22.8)%
Component % change		(3.2)%	(17.9)%	(1.7)%	(22.8)%			

Organic net revenue remained relatively flat. The decrease related to net acquisitions (divestitures) was primarily attributable to the sale of Reputation Defender in 2021.

Operating Loss

The increase in operating loss was primarily driven by a decrease in revenues and an increase in impairment and other losses due to the impairment of goodwill. The decrease in Adjusted EBITDA was primarily driven by a decrease in revenue.

Corporate

The components of operating results for the year ended December 31, 2022 compared to the year ended December 31, 2021 were as follows:

	Year Ended December 31,			
	2022	2021	Change	
	(dollars in thousands)			
			\$	%
Staff costs	\$ 25,109	\$ 19,827	\$ 5,282	26.6 %
Administrative costs	18,002	817	17,185	NM
Adjusted EBITDA	(43,111)	(20,644)	(22,467)	NM
Stock-based compensation	11,710	6,624	5,086	76.8 %
Depreciation and amortization	6,925	3,775	3,150	83.4 %
Other items, net	5,312	15,125	(9,813)	(64.9)%
Operating Loss	\$ (67,058)	\$ (46,168)	\$ (20,890)	45.2 %

Operating expenses increased primarily in connection with the acquisition of MDC. In addition, stock-based compensation expense increased, primarily driven by awards issued to employees in the first quarter of 2022. Other items, net decreased primarily due to professional fees associated with the acquisition of MDC in 2021.

Liquidity and Capital Resources:

The following table provides summary information about the Company's liquidity position:

	Year Ended December 31,	
	2022	2021
	(dollars in thousands)	
Net cash provided by operating activities	\$ 347,586	\$ 200,856
Net cash (used in) provided by investing activities	(116,275)	163,952
Net cash used in financing activities	(186,736)	(273,414)

The Company had cash and cash equivalents of \$220.6 million and \$184.0 million as of December 31, 2022 and December 31, 2021, respectively. The Company expects to maintain sufficient cash and/or available borrowings to fund operations for the next twelve months and subsequent periods. The Company has historically maintained and expanded its business using cash generated from operating activities, funds available under its revolving credit agreement, and other initiatives, such as obtaining additional debt and equity financing. On December 31, 2022, the Company had \$100.0 million of borrowings outstanding, \$25.3 million of outstanding and undrawn letters of credit resulting in \$374.7 million available under its \$500.0 million Combined Credit Agreement (as defined and discussed in Note 11 of the Notes to the Audited Consolidated Financial Statements included herein).

The Company enters into agreements with third parties to accelerate the collection of certain accounts receivable by transferring ownership of those receivables to the third parties. Accordingly, the Company accounts for the transfers as sales of trade receivables by recognizing an increase to cash and a decrease to accounts receivable when proceeds from the transactions are received, with the proceeds being included in Cash flows from operating activities in the Consolidated Statements of Cash Flows.

The amount transferred to the third parties under these arrangements was \$176.5 million, \$42.1 million and \$44.2 million during the years ended December 31, 2022, 2021 and 2020, respectively. The amount collected and due to the third parties under the arrangements was \$5.7 million as of December 31, 2022. No amounts were collected and due to third parties during the years ended December 31, 2021 and 2020. Fees for the arrangements were recorded in Office and general expenses in the Consolidated Statements of Operations and totaled \$1.8 million, \$0.1 million, and \$0.2 million for the years ended December 31, 2022, 2021 and 2020. The fees are almost entirely offset by reduced interest expense from lower borrowings driven by the acceleration of cash collections.

On March 23, 2022, the Board authorized the Repurchase Program under which we may repurchase up to \$125.0 million of shares of our outstanding Class A Common Stock. Under the Repurchase Program, share repurchases may be made at our discretion from time to time in open market transactions at prevailing market prices (including through trading plans that may be adopted in accordance with Rule 10b5-1 of the Exchange Act), in privately negotiated transactions, or through other means. The timing and number of shares repurchased under the Repurchase Program will depend on a variety of factors, including the performance of our stock price, general market and economic conditions, regulatory requirements, the availability of funds, and other considerations we deem relevant. The Repurchase Program may be suspended, modified or discontinued at any time without prior notice. Our board of directors will review the Repurchase Program periodically and may authorize adjustments of its terms.

See Note 1 of the Notes included herein for information regarding amendments to the Repurchase Program.

As of December 31, 2022, there were 7.2 million shares of Class A Common Stock repurchased under the Repurchase Program at an aggregate value, excluding fees, of \$51.5 million. These were purchased at an average share price of \$7.17 per share. The remaining value of shares of Class A Common Stock permitted to be repurchased under the Repurchase Program was \$73.3 million as of December 31, 2022. On March 1, 2023, the Board authorized an extension and a \$125.0 million increase in the size of the Repurchase Program to an aggregate of \$250.0 million, with any previous purchases under the Repurchase Program continuing to count against that limit. The Repurchase Program, as amended, will expire on March 1, 2026.

The Company's obligations extending beyond twelve months primarily consist of deferred acquisition consideration payments, purchases of noncontrolling interests, subsidiary awards, capital expenditures, scheduled lease obligation payments, and interest payments on borrowings under the Company's 5.625% Notes and Combined Credit Agreement. The Company expects to make estimated cash payments in the future to satisfy obligations under the Tax Receivables Agreement ("TRA") (see

Note 17 of the Notes included herein for additional details). The amount and timing of payments are contingent on the Company achieving certain tax savings, if any, that we actually realize, or in certain circumstances are deemed to realize as a result of (i) increases in the tax basis of OpCo's assets resulting from exchanges of Paired Units (each as defined in Note 15 of the Notes included herein) for shares of Class A Common Stock or cash, as applicable, and (ii) certain other tax benefits related to the Company making payments under the TRA. Based on the current outlook, the Company believes future cash flows from operations, together with the Company's existing cash balance and availability of funds under the Combined Credit Agreement, will be sufficient to meet the Company's anticipated cash needs for the next twelve months and subsequent periods. The Company's ability to make scheduled deferred acquisition consideration payments, to make principal and interest payments, to refinance indebtedness or to fund planned capital expenditures or other obligations will depend on future performance, which is subject to general economic conditions, the competitive environment and other factors, including those described in this Form 10-K and in the Company's other SEC filings.

Cash Flows

Operating Activities

Cash flows provided by operating activities for the year ended December 31, 2022 were \$347.6 million, primarily driven by earnings as well as favorable working capital requirements.

Cash flows provided by operating activities for the year ended December 31, 2021 were \$200.9 million, primarily driven by earnings and favorable working capital requirements.

Investing Activities

Cash flows used in investing activities were \$116.3 million for the year ended December 31, 2022, primarily driven by \$74.2 million in acquisitions and \$22.7 million in capital expenditures.

Cash flows provided by investing activities were \$164.0 million for the year ended December 31, 2021, primarily driven by the addition of \$150.3 million of cash in connection with the acquisition of MDC, and \$37.2 million from the sale of Reputation Defender, partially offset by capital expenditures of \$8.8 million.

Financing Activities

During the year ended December 31, 2022, cash flows used in financing activities were \$186.7 million, primarily driven by \$63.2 million of deferred acquisition consideration payments, \$39.2 million of distributions to noncontrolling interests, \$51.5 million in stock repurchases under the Repurchase Program, and \$18.7 million related to shares acquired and cancelled in connection with the vesting of stock awards.

During the year ended December 31, 2021, cash flows used in financing activities were \$273.4 million, which primarily consisted of \$884.4 million for the repurchase of the Company's 7.50% Senior Notes due 2024, \$202.4 million in net payments under the Company's previous revolving credit agreement, and distributions of \$233.2 million to Stagwell Media, offset by receipt of \$1.1 billion from the issuance of the 5.625% Notes.

Total Debt

Debt, net of debt issuance costs, as of December 31, 2022 was \$1,184.7 million as compared to \$1,191.6 million outstanding at December 31, 2021. See Note 11 to the Audited Consolidated Financial Statements included herein for information regarding the Company's 5.625% Notes, and the Combined Credit Agreement, which provides for a \$500.0 million senior secured revolving credit facility with a five-year maturity.

The Company is currently in compliance with all of the terms and conditions of the Combined Credit Agreement, and management believes, based on its current financial projections, that the Company will be in compliance with its covenants over the next twelve months.

If the Company loses all or a substantial portion of its lines of credit under the Combined Credit Agreement, or if the Company uses the maximum available amount under the agreement, it will be required to seek other sources of liquidity. If the Company were unable to find these sources of liquidity, for example through an equity offering or access to the capital markets, the Company's ability to fund its working capital needs and any contingent obligations with respect to acquisitions and redeemable noncontrolling interests would be adversely affected.

On April 28, 2022, the Company amended the Combined Credit Agreement. Among other things, this amendment replaced any references to LIBOR with references to the Secured Overnight Financing Rate (“SOFR”). Borrowings pursuant to the Combined Credit Agreement, as amended, bear interest at a rate equal to, at the Company’s option, (i) the greatest of (a) the prime rate of interest in effect on such day, (b) the federal funds effective rate plus 0.50% and (c) SOFR plus 1% in each case, plus the applicable margin (calculated based on the Company’s Total Leverage Ratio, as defined in the Combined Credit Agreement) at that time. Additionally, the Combined Credit Agreement was amended to remove certain pre-commencement notice provisions for certain acquisitions under \$50.0 million in the aggregate, to increase the amount permitted for certain investments allowed under the Combined Credit Agreement, and, subject to certain conditions, to allow for the repurchase of Stagwell Inc. stock in an amount not to exceed \$100.0 million in any fiscal year. All other substantive terms of the Combined Credit Agreement remain unchanged.

On December 14, 2022, the Company amended the Combined Credit Agreement to allow for the sale of accounts receivable summarized above and in Note 2 of the Notes included herein. All other substantive terms of the Combined Credit Agreement remained unchanged.

Pursuant to the Combined Credit Agreement, the Company must maintain a Total Leverage Ratio (as defined in the Combined Credit Agreement) below a threshold established in the Combined Credit Agreement. For the period ended December 31, 2022, the Company’s calculation of each of this ratio, and the maximum permitted under the Combined Credit Agreement, respectively, were calculated based on the trailing twelve months as follows:

	<u>December 31, 2022</u>
Total Leverage Ratio	2.42
Maximum per covenant	4.50

These ratios and measures are not based on GAAP and are not presented as alternative measures of operating performance or liquidity. Some of these ratios and measures include, among other things, pro forma adjustments for acquisitions, one-time charges, and other items, as defined in the Combined Credit Agreement. They are presented here to demonstrate compliance with the covenants in the Combined Credit Agreement, as non-compliance with such covenants could have a material adverse effect on the Company.

Material Cash Requirements

The Company’s Brands enter into contractual commitments with media providers and agreements with production companies on behalf of its clients at levels that exceed the revenue from services. Some of our Brands purchase media for clients and act as an agent for a disclosed principal. These commitments are included in Accounts payable and Accrued media when the media services are delivered by the media providers. Stagwell takes precautions against default on payment for these services and has historically had a very low incidence of default. Stagwell is still exposed to the risk of significant uncollectible receivables from our clients. The risk of a material loss could significantly increase in periods of severe economic downturn.

The following table summarizes current and long-term requirements as of December 31, 2022. Management anticipates that the obligations outstanding at December 31, 2022 will be repaid with new financing, equity offerings, asset sales and/or cash flow from operations:

Material Cash Requirements	Payments Due by Period				
	Total	Less than 1 Year	1 – 3 Years	3 – 5 Years	After 5 Years
	(dollars in thousands)				
Indebtedness ⁽¹⁾	\$ 1,100,000	\$ —	\$ —	\$ —	\$ 1,100,000
Operating lease obligations	432,241	91,084	137,286	84,752	119,119
Interest on debt	433,125	61,875	123,750	123,750	123,750
Deferred acquisition consideration	161,323	90,183	66,937	4,203	—
Total	\$ 2,126,689	\$ 243,142	\$ 327,973	\$ 212,705	\$ 1,342,869

⁽¹⁾ Includes the principal amount of the 5.625% Notes which are due in 2029 and does not include borrowings under the Combined Credit Agreement.

Deferred acquisition consideration on the balance sheet consists of deferred obligations related to contingent and fixed purchase price payments. See Note 9 of the Notes included herein for additional information regarding contingent deferred acquisition consideration. As of December 31, 2022, approximately, \$51.0 million of the deferred acquisition consideration is expected to be settled in shares of Class A Common Stock.

When acquiring less than 100% ownership of an entity, the Company may enter into agreements that give the Company an option to purchase, or require the Company to purchase, the incremental ownership interests under certain circumstances. Where the incremental purchase may be required of the Company, the amounts are recorded as redeemable noncontrolling interests in mezzanine equity. See Note 13 of the Notes included herein for additional information regarding noncontrolling interests and redeemable noncontrolling interests.

Certain of the Company’s subsidiaries grant awards to their employees providing them with an equity interest in the respective subsidiary (the “profits interests awards”). The awards generally provide the employee the right, but not the obligation, to sell its interest in the subsidiary to the Company based on a performance-based formula and, in certain cases, receive a profit share distribution.

The Company intends to finance the cash portion of these contingent payment obligations using available cash from operations, borrowings under the Combined Credit Agreement (or any refinancings thereof), and, if necessary, through the incurrence of additional debt and/or issuance of additional equity. The ultimate amount payable in the future relating to these transactions will vary because it is dependent on the future results of operations of the subject businesses and the timing of when these rights are exercised.

Critical Accounting Estimates

Stagwell has prepared the Audited Consolidated Financial Statements in accordance with GAAP and pursuant to the rules and regulations of the SEC for reporting financial information on Form 10-K. Preparation of the Audited Consolidated Financial Statements and related disclosures requires us to make judgments, assumptions and estimates that affect the amounts reported and disclosed in the accompanying financial statements and footnotes. Our significant accounting policies are discussed in Note 2 of the Notes included herein. Our critical accounting estimates are those that are considered by management to require significant judgment, use of estimates and that could have a significant impact on our financial statements. An understanding of our critical accounting estimates is necessary to analyze our financial results.

Our critical accounting estimates include our accounting for revenue recognition, business combinations, deferred acquisition consideration, redeemable noncontrolling interests, goodwill and intangible assets, income taxes and stock-based compensation. The financial statements are evaluated on an ongoing basis and estimates are based on historical experience, current conditions and various other assumptions believed to be reasonable under the circumstances. Actual results can differ from those estimates, and it is possible that the differences could be material.

Revenue Recognition. The Company’s revenue is recognized when control of the promised goods or services is transferred to our clients, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. See Note 5 of the Notes included herein for further information.

Business Combinations. Business combinations are accounted for using the acquisition method and accordingly, the assets acquired (including identified intangible assets), the liabilities assumed and any noncontrolling interest in the acquired business are recorded at their acquisition date fair values.

For each acquisition, the Company undertakes a detailed review to identify other intangible assets and a valuation is performed for all such identified assets. The Company uses several market participant measurements to determine the estimated value. This approach includes consideration of similar and recent transactions, as well as utilizing discounted expected cash flow methodologies. A substantial portion of the intangible asset value that the Company acquires is the specialized know-how of the workforce, which is treated as part of goodwill and is not required to be valued separately. The majority of the value of the identifiable intangible assets acquired is derived from customer relationships, including the related customer contracts, trademarks, developed technology and other intangible assets.

Deferred Acquisition Consideration. Certain acquisitions include an initial payment at the time of closing and provide for future additional contingent purchase price payments. Contingent purchase price obligations for these transactions are recorded as deferred acquisition consideration liabilities on the balance sheet, at the acquisition date fair value and are remeasured at each reporting period. These liabilities are derived from the projected performance of the acquired entity. These arrangements may be dependent on future events, such as the growth rate of the earnings of the relevant subsidiary during the contractual period. At each reporting date, the Company models each business' future performance, including revenue growth and free cash flows, to estimate the value of each deferred acquisition consideration liability. The liability is adjusted quarterly based on changes in current information affecting each subsidiary's current operating results and the impact this information will have on future results included in the calculation of the estimated liability. These adjustments are recorded in the Consolidated Statements of Operations. In instances where such contingent payments require the sellers' continuous employment with the Company after the transaction, they are recorded as compensation expense in the Consolidated Statements of Operations.

Redeemable Noncontrolling Interests. Many of the Company's acquisitions include contractual arrangements where the noncontrolling shareholders may require the Company to purchase such noncontrolling shareholders' incremental ownership interests under certain circumstances. The Company has similar call options under the same contractual terms. The amount of consideration under these contractual arrangements is not a fixed amount, but rather is dependent upon various valuation formulas, such as the average earnings of the relevant subsidiary through the date of exercise or the growth rate of the earnings of the relevant subsidiary during that period. In the event that an incremental purchase may be required by the Company, the amounts are recorded in Redeemable Noncontrolling Interests in mezzanine equity on the Consolidated Balance Sheets at their acquisition date fair value and adjusted for changes to their estimated redemption value through Retained earnings or Paid-in capital (when at an accumulated deficit) in the Consolidated Balance Sheets (but not less than their initial redemption value), except for foreign currency translation adjustments. These adjustments will not impact the calculation of earnings (loss) per share if the redemption values are less than the estimated fair values.

Goodwill. Goodwill (the excess of the acquisition cost over the fair value of the net assets acquired) acquired as a result of a business combination which is not subject to amortization is tested for impairment, at the reporting unit level, annually as of October 1st of each year, or more frequently if indicators of potential impairment exist.

For the annual impairment test, the Company has the option of assessing qualitative factors to determine whether it is more likely than not that the carrying amount of a reporting unit exceeds its fair value or performing a quantitative goodwill impairment test. Qualitative factors considered in the assessment include industry and market considerations, the competitive environment, overall financial performance, changing cost factors such as labor costs, and other factors specific to each reporting unit such as change in management or key personnel.

If the Company elects to perform the qualitative assessment and concludes that it is more likely than not that the fair value of the reporting unit is more than its carrying amount, then goodwill is not considered impaired and the quantitative impairment test is not necessary. For reporting units for which the qualitative assessment concludes that it is more likely than not that the fair value of the reporting unit is less than its carrying amount, the Company will perform the quantitative impairment test, which compares the fair value of the reporting unit to its carrying amount. If the fair value of the reporting unit exceeds the carrying amount of the net assets assigned to that reporting unit, goodwill is not considered impaired. However, if the fair value of the reporting unit is lower than the carrying amount of the net assets assigned to the reporting unit, an impairment charge is recognized equal to the excess of the carrying amount over the fair value.

Determining the fair value of a reporting unit involves the use of significant estimates and assumptions. The Company uses a combination of the income approach, which incorporates the use of the discounted cash flow ("DCF") method, and the market approach, which incorporates the use of earnings and revenue multiples based on market data. The Company generally applies an equal weighting to the income and market approaches for the impairment test. The income approach and the market approach both require the exercise of significant judgment, including judgment about the amount and timing of expected future cash flows, assumed terminal value and appropriate discount rates.

The DCF estimates incorporate expected cash flows that represent a spectrum of the amount and timing of possible cash flows of each reporting unit from a market participant perspective. The expected cash flows are developed from the Company's long-range planning process using projections of operating results and related cash flows based on assumed long-term growth rates, demand trends and appropriate discount rates based on a reporting unit's weighted average cost of capital ("WACC") as

determined by considering the observable WACC of comparable companies and factors specific to the reporting unit. The terminal value is estimated using a constant growth method which requires an assumption about the expected long-term growth rate. The estimates are based on historical data and experience, industry projections, economic conditions, and the Company's expectations.

At each reporting period, the Company assesses whether it is more likely than not that the carrying amount of its reporting units exceed their fair value. As of October 1, 2022 (the annual impairment test date) and December 31, 2022, the Company performed this assessment and determined that certain reporting units' carrying values exceeded their fair value. As of October 1, 2022, the Company performed a quantitative impairment test for all reporting units (37) and as of December 31, 2022, the Company performed a quantitative impairment test for certain reporting units that were determined to be more likely than not impaired. As a result of these tests, management concluded there to be 8 reporting units with a carrying value in excess of their fair value resulting in an impairment of \$116.7 million in 2022. The difference in carrying value versus fair value was primarily due to a combination of changes in fair value measures such as an increase in interest rates and decrease in market multiples of comparable public companies and financial forecasts below previous forecasts. The Company utilized a long-term average growth rate ranging from 1% to 4% and a WACC ranging from 11.50% to 20.00%. Of the remaining reporting units, approximately 50% have fair values that are substantially in excess of the carrying amounts. For the other reporting units, we performed a sensitivity analysis using the latest impairment assessment performed, which included an approximate 2% increase in the WACC (with the exception of one reporting unit where we utilized 1%), and concluded that this would not result in an impairment.

Based on our December 31, 2022 assessment, the fair value of two reporting units, with goodwill of approximately \$13 million, exceeded their carrying value by less than 20%. The Company believes the estimates and assumptions used in the calculations are reasonable. However, if there were an adverse change in the facts and circumstances, then an impairment charge may be necessary in the future. As a result, to the extent that, among other factors, (i) there is underperformance in one or more reporting units, (ii) a potential recession further disrupts the economic environment or (iii) interest rates continue to rise in response to persistent inflation, the fair value of one or more of these reporting units could fall below their carrying value, resulting in a goodwill impairment charge. The Company monitors its reporting units to determine if there is an indicator of potential impairment.

Income Taxes. We account for income taxes using the asset and liability method. Under the asset and liability method, deferred tax assets and liabilities are recognized based on the differences between the financial statement carrying value of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates and laws expected to be in effect when the differences are expected to reverse. The Company records associated interest and penalties as a component of income tax expense. The Company records a valuation allowance against deferred income tax assets when management believes it is more likely than not that some portion or all of the deferred income tax assets will not be realized. Management evaluates on a quarterly basis all available positive and negative evidence considering factors such as the reversal of deferred income tax liabilities, taxable income in eligible carryback years, projected future taxable income, the character of the income tax asset, tax planning strategies, changes in tax laws and other factors. The periodic assessment of the net carrying value of the Company's deferred tax assets under the applicable accounting rules requires significant management judgment. A change to any of these factors could impact the estimated valuation allowance and income tax expense.

Stock-Based Compensation. Compensation cost is measured at fair value at the date of grant and is expensed over the service period, generally the award's vesting period. The Company recognizes forfeitures as they occur.

Certain of our awards are settled in cash (stock appreciation awards) and are recorded at fair value on the date of grant and remeasured as each reporting period. The measurement of the compensation cost for these awards is based on using the Black-Scholes option pricing model and is recorded in Operating income over the service period, in this case the award's vesting period. The assumption for expected volatility is based on the historical volatility of a peer group of market participants as the Company has limited historical volatility.

The Company has adopted the straight-line attribution method for determining the compensation cost to be recorded during each accounting period. The Company commences recording compensation expense related to awards that are based on performance conditions under the straight-line attribution method when it is probable that such performance conditions will be met.

New Accounting Pronouncements

In March 2020, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) 2020-04, and in January 2021 subsequently issued ASU 2021-01, Facilitation of the Effects of Reference Rate Reform on Financial Reporting, to provide optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. ASU 2020-04 is effective upon issuance, through December 31, 2022. The Combined Credit Agreement is the Company’s only contractual arrangement that referenced LIBOR and is impacted by ASU 2020-04. On April 28, 2022, the Company amended the Combined Credit Agreement. Among other things, this amendment replaced any references to LIBOR with references to SOFR. Based on the Company’s assessment, the Company has elected to apply the optional expedient and treat the contract modifications as a continuation of an existing contract. This election does not have a material effect on our results of operations or financial position.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

In the normal course of business, the Company is exposed to market risk related to interest rates, foreign currencies and impairment risk.

Debt Instruments: At December 31, 2022, the Company’s debt obligations consisted of amounts outstanding under its Combined Credit Agreement and the 5.625% Notes. The 5.625% Notes bear a fixed 5.625% interest rate. The revolving credit agreement bears interest at variable rates based upon SOFR, EURIBOR, and SONIA depending on the duration of the borrowing product. The Company’s ability to obtain the required bank syndication commitments depends in part on conditions in the bank market at the time of syndication.

On April 28, 2022, the Company amended the Combined Credit Agreement. This amendment replaced references to LIBOR with references to SOFR. With regard to our variable rate debt, a 10% increase or decrease in interest rates would change our annual interest expense by \$0.9 million.

Foreign Exchange: While the Company primarily conducts business in markets that use the U.S. dollar, the Canadian dollar, the Euro and the British Pound, its non-U.S. operations transact business in numerous different currencies. The Company’s results of operations are subject to risk from the translation to the U.S. dollar of the revenue and expenses of its non-U.S. operations. The effects of currency exchange rate fluctuations on the translation of the Company’s results of operations are discussed in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and in Note 2 of the Company’s Audited Consolidated Financial Statements included in this 2022 Form 10-K. For the most part, revenues and expenses incurred related to the non-U.S. operations are denominated in their functional currency. This reduces the impact that fluctuations in exchange rates will have on profit margins. Translation of intercompany debt, which is not intended to be repaid, is included in cumulative translation adjustments. Translation of current intercompany balances are included in net income (loss). The Company generally does not enter into foreign currency forward exchange contracts or other derivative financial instruments to hedge the effects of adverse fluctuations in foreign currency exchange rates.

Impairment Risk: For the year ended December 31, 2022, the Company recognized an impairment and other losses charge of \$122.2 million, primarily related to the impairment of goodwill, right-of-use leases assets and intangible assets.

The Company recognized an impairment charge of \$116.7 million to write-down the carrying value of goodwill in excess of the fair value. The Company reviews goodwill for impairment annually as of October 1st of each year or more frequently if indicators of potential impairment exist. To the extent that, among other factors, (i) there is underperformance in one or more reporting units (ii) a potential recession further disrupts the economic environment or (iii) interest rates continue to rise in response to persistent inflation, the fair value of one or more of the reporting units could fall below their carrying value, resulting in a goodwill impairment charge.

In addition, the Company recorded an impairment charge of \$1.4 million to reduce the carrying value of intangible assets and \$2.6 million to reduce the carrying value of four right-of-use lease assets and related leasehold improvements.

See the Critical Accounting Estimates section in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for information related to impairment testing and the risk of potential impairment charges in future periods.

Item 8. Financial Statements and Supplementary Data

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the shareholders and the Board of Directors of Stagwell Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Stagwell Inc. and subsidiaries (the “Company”) as of December 31, 2022 and 2021, the related consolidated statements of operations, comprehensive income (loss), shareholders’ equity, and cash flows for each of the three years in the period ended December 31, 2022, and the related notes and schedules listed in the Index at Item 15 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2022, in conformity with accounting principles generally accepted in the United States of America. We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2022, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 6, 2023, expressed an adverse opinion on the Company’s internal control over financial reporting because of material weaknesses.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current-period audit of the financial statements that were communicated or required to be communicated to the audit committee and that (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Revenue — Refer to Notes 2 and 5 to the financial statements

Critical Audit Matter Description

The Company’s revenue is primarily derived from the provision of marketing and communications services which includes strategy, creative and production for advertising campaigns, public relations services including strategy, editorial, crisis support or issues management, online fundraising, media training, influencer engagement and events management, media-based solutions to drive brand performance, including buying and planning, experiential marketing and application/website design and development. Each of the Company’s operating companies (referred to as Brands) generate revenue from one or more of these services. The Brands have numerous customers and contracts, under a variety of contract terms and provisions. The volume of such contracts and the diversity of the terms in such contracts introduces significant complexity in assessing the accounting under the revenue accounting standard. This complexity includes the critical judgements around defining performance obligations and

the recognition of revenue when or as the customer obtains control of the promised services in an amount that reflects the consideration expected to be received in exchange for those services, including the determination of presentation as principal or agent.

Given the volume and diversity of the Company's contracts, performing audit procedures to evaluate whether revenue was appropriately recorded, required a high degree of auditor judgement and an increased extent of audit effort and is therefore considered a critical audit matter.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to the testing of the Company's application of revenue accounting standard to their revenue contracts included the following, among others:

- Assessed the nature and amount of revenue recorded by Brand and evaluated the overall application of the revenue accounting standard,
- Selected a sample of contracts, specifically including individually material revenue contracts, across the Brands and types of contracts. Testing included consideration of the specific application of the revenue accounting standard, including the identification of the performance obligation(s), the evaluation of the methods applied in the recognition and measurement of revenue, and the verification of the timing of delivery, transaction price and performance of services related to the revenue recorded, including the determination of presentation as principal or agent
- Tested the mathematical accuracy of revenue recorded for each selection based on audit evidence obtained.

Goodwill — Refer to Notes 2 and 8 to the financial statements

Critical Audit Matter Description

The Company's goodwill has been derived from numerous acquisitions, including but not limited to the merger with MDC Partners in August 2021. As a result, the Company has over 30 reporting units, each having similar but different revenue streams and business models. Management performed a quantitative impairment analysis for a number of reporting units to determine their fair values using the income approach and market approach. This determination of the fair value requires management to make significant estimates and assumptions. Such assumptions include forecasted business performance (both revenue and earnings before interest, taxes, depreciation and amortization (EBITDA) based on the strategic operating plan), discount rates, and market multiples.

Given the volume of reporting units where a quantitative impairment analysis was performed and differences in their underlying revenue streams and business models, performing audit procedures to evaluate the reasonableness of the Company's estimates and assumptions within the goodwill impairment assessment required a high degree of auditor judgment and an increased extent of effort and is therefore considered a critical audit matter.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to the testing of the Company's goodwill impairment assessment included the following, among others:

- Assessed the amount of goodwill by reporting unit and evaluated the sensitivity of changes in the assumptions on the results of the impairment test for the reporting unit,
- Based on this assessment, within certain reporting units, we
 - Assessed the reasonableness of the Company's forecasted revenue growth and EBITDA margin by comparing the forecasts to historical results and external economic data including peers, industry data and wider economic forecasts,
 - Evaluated the Company's ability to accurately forecast future revenue and EBITDA by comparing actual results to the Company's historical forecasts,
 - Evaluated whether the forecasts were consistent with evidence obtained in other areas of the audit,
 - With the assistance of our fair value specialists, evaluated the reasonableness of the discount rates and market multiples used by evaluating the methodology selected by the Company and by:
 - Testing the source information underlying the determination of the market multiples and discount rates and testing the mathematical accuracy of the calculations.
 - Developing a range of independent estimates and comparing those to the discount rate selected by the Company.

- Assessing the methodology applied in the discount rate calculation against market practice valuation techniques.
- Comparing the market multiples selected for each reporting unit to that of its guideline peer companies.

/s/ Deloitte & Touche LLP

New York, NY

March 6, 2023

We have served as the Company's auditor since 2020.

STAGWELL INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(amounts in thousands, unless otherwise stated)

1. Business and Basis of Presentation

Stagwell Inc. (the “Company,” “we,” or “Stagwell”), incorporated under the laws of Delaware, conducts its business through its networks and their Brands (“Brands”), which provide marketing and business solutions that realize the potential of combining data and creativity. Stagwell’s strategy is to build, grow and acquire market-leading businesses that deliver the modern suite of services that marketers need to thrive in a rapidly evolving business environment.

The accompanying audited consolidated financial statements include the accounts of Stagwell and its subsidiaries. Stagwell has prepared the audited consolidated financial statements included herein in accordance with accounting principles generally accepted in the United States (“GAAP”) and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) for reporting financial information on this Annual Report on Form 10-K (this “Form 10-K”). The preparation of financial statements in conformity with GAAP requires us to make judgments, assumptions and estimates about current and future results of operations and cash flows that affect the amounts reported and disclosed. Actual results could differ from these estimates and assumptions.

On December 21, 2020, MDC Partners Inc. (“MDC”) and Stagwell Media LP (“Stagwell Media”) announced that they had entered into the Transaction Agreement, providing for the combination of MDC with the operating businesses and subsidiaries of Stagwell Media (the “Stagwell Subject Entities”). The Stagwell Subject Entities comprised Stagwell Marketing Group LLC (“Stagwell Marketing” or “SMG”) and its direct and indirect subsidiaries.

On August 2, 2021, we completed the combination of MDC and the operating businesses and subsidiaries of Stagwell Media and a series related transactions (such combination and transactions, the “Transactions”). The Transactions were treated as a reverse acquisition for financial reporting purposes, with MDC treated as the legal acquirer and Stagwell Marketing treated as the accounting acquirer. The results of MDC are included within the Consolidated Statements of Operations for the period beginning on the date of the acquisition through the end of the respective period presented and the results of SMG are included for the entire period presented. See Note 4 of the Notes included herein for information in connection with the acquisition of MDC.

The accompanying financial statements reflect all adjustments, consisting of normal recurring accruals, which in the opinion of management are necessary for a fair presentation, in all material respects, of the information contained therein. Intercompany balances and transactions have been eliminated in consolidation. Certain reclassifications have been made to the prior year financial information to conform to the current year presentation.

We have revised the presentation of Current Liabilities to separately present Accrued media, which was previously included in Accruals and other liabilities, of \$237,794 as of December 31, 2021. As a result, the accompanying Consolidated Balance Sheet has been revised to correct the immaterial classification error by decreasing the previously reported amount for Accruals and other liabilities as of December 31, 2021, by the \$237,794 of Accrued media. The revision had no effect on our previously reported Total Current Liabilities, or on any other previously reported amounts in our Audited Consolidated Financial Statements for the year ended December 31, 2021.

Recent Developments

On March 1, 2023, the board of directors authorized an extension and a \$125,000 increase in the size of the stock repurchase program (the “Repurchase Program”) to an aggregate of \$250,000, with any previous purchases under the Repurchase Program continuing to count against that limit. The Repurchase Program, as amended, will expire on March 1, 2026.

2. Significant Accounting Policies

The Company’s significant accounting policies are summarized as follows:

Principles of Consolidation. The accompanying consolidated financial statements include the accounts of Stagwell Inc. and its domestic and international controlled subsidiaries that are not considered variable interest entities, and variable interest entities for which the Company is the primary beneficiary. Intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates. The preparation of the audited consolidated financial statements in conformity with GAAP requires management to make judgments, estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities including goodwill, intangible assets, contingent deferred acquisition consideration, redeemable noncontrolling interests, deferred tax assets, right-of-use lease assets and the amounts of revenue and expenses reported during the period. These estimates are evaluated on an ongoing basis and are based on historical experience, current conditions and various other assumptions believed to be reasonable under the circumstances. These estimates require the use of assumptions about future performance, which are uncertain at the time of estimation. To the extent actual results differ from the assumptions used, results of operations and cash flows could be materially affected.

Fair Value. The Company applies the fair value measurement guidance for financial assets and liabilities that are required to be measured at fair value and for non-financial assets and liabilities that are not required to be measured at fair value on a recurring basis, including goodwill, right-of-use lease assets and other identifiable intangible assets. See Note 18 of the Notes included herein for additional information regarding fair value measurements.

Concentration of Credit Risk. The Company provides marketing communications services to clients who operate in most industry sectors. Credit is granted to qualified clients in the ordinary course of business. Due to the diversified nature of the Company's client base, the Company does not believe that it is exposed to a concentration of credit risk. No sales to an individual client accounted for more than 7% of revenue for the years ended December 31, 2022, 2021, and 2020.

Cash and Cash Equivalents. The Company's cash equivalents may comprise investments in overnight interest-bearing deposits, money market instruments and other short-term investments with original maturity dates of three months or less at the time of purchase. The Company has a concentration of credit risk in that there are cash deposits in excess of federally insured amounts and international cash balances that may not qualify for foreign government insurance programs. To date, the Company has not experienced any losses on cash and cash equivalents.

Allowance for Doubtful Accounts. Trade receivables are stated at invoiced amounts less allowances for doubtful accounts. The allowances represent estimated uncollectible receivables associated with potential customer defaults usually due to customers' potential insolvency. The allowances include amounts for certain customers where a risk of default has been specifically identified. The assessment of the likelihood of customer defaults is based on various factors, including the length of time the receivables are past due, historical experience and existing economic conditions. Allowance for doubtful accounts was \$10,369 and \$5,638 at December 31, 2022 and December 31, 2021, respectively.

Sale of Accounts Receivable. The Company transfers certain of its trade receivable assets to third parties under agreements to sell certain of its accounts receivables. Per the terms of these agreements, the Company surrenders control over its trade receivables upon transfer. Accordingly, the Company accounts for the transfers as sales of trade receivables by recognizing an increase to cash and a decrease to accounts receivable when the receivables are transferred, with the proceeds being included in cash flows from operating activities in the Consolidated Statements of Cash Flows.

The trade receivables transferred to the third parties under these arrangements were \$176,497, \$42,097 and \$44,172, during the years ended December 31, 2022, 2021 and 2020, respectively. The amount collected and due to the third parties under these arrangements was \$5,703 as of December 31, 2022. No amounts were collected and due to third parties as of December 31, 2021 and 2020. Fees for these arrangements were recorded in Office and general expenses in the Consolidated Statements of Operations and totaled \$1,817, \$110, and \$185 for the years ended December 31, 2022, 2021 and 2020, respectively.

Expenditures Billable to Clients. Expenditures billable to clients consist principally of outside vendor costs incurred on behalf of clients when providing services that have not yet been invoiced to clients. Such amounts are invoiced to clients at various times over the course of the period.

Fixed Assets. Fixed assets are stated at cost, net of accumulated depreciation. Computers and furniture and fixtures are depreciated on a straight-line basis over periods of three to ten years. Leasehold improvements are depreciated on a straight-line basis over the lesser of the term of the related lease or the estimated useful life of the asset. Repairs and maintenance costs are expensed as incurred. Accumulated depreciation was \$59,445 and \$35,895 at December 31, 2022 and December 31, 2021, respectively.

Leases. The Company recognizes on the Consolidated Balance Sheets, at the time of lease commencement, a right-of-use lease asset and a lease liability, initially measured at the present value of the lease payments. All right-of-use lease assets are reviewed for impairment. See Note 10 of the Notes included herein for further information on leases.

Impairment of Long-lived Assets. A long-lived asset or asset group is tested for recoverability whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. When such events occur, the Company compares the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset or asset group to the carrying amount of such asset or asset group. If this comparison indicates that there is an impairment, the amount of the impairment is typically calculated using discounted expected future cash flows where observable fair values are not readily determinable. The discount rate applied to these cash flows is based on the Company's weighted average cost of capital ("WACC"), risk adjusted where appropriate, or other appropriate discount rate.

Goodwill. Goodwill (the excess of the acquisition cost over the fair value of the net assets acquired) acquired as a result of a business combination is not amortized but rather tested for impairment, at the reporting unit level, annually as of October 1st of each year, or more frequently if indicators of potential impairment exist.

For the annual impairment test, the Company has the option of assessing qualitative factors to determine whether it is more likely than not that the carrying amount of a reporting unit exceeds its fair value or performing a quantitative goodwill impairment test. Qualitative factors considered in the assessment include industry and market considerations, the competitive environment, overall financial performance, changing cost factors such as labor costs, and other factors specific to each reporting unit such as change in management or key personnel.

If the Company elects to perform the qualitative assessment and concludes that it is more likely than not that the fair value of the reporting unit is more than its carrying amount, then goodwill is not considered impaired and the quantitative impairment test is not necessary. For reporting units for which the qualitative assessment concludes that it is more likely than not that the fair value of the reporting unit is less than its carrying amount, the Company will perform the quantitative impairment test, which compares the fair value of the reporting unit to its carrying amount. If the fair value of the reporting unit exceeds the carrying amount of the net assets assigned to that reporting unit, goodwill is not considered impaired. However, if the fair value of the reporting unit is lower than the carrying amount of the net assets assigned to the reporting unit, an impairment charge is recognized equal to the excess of the carrying amount over the fair value.

Determining the fair value of a reporting unit involves the use of significant estimates and assumptions. The Company uses a combination of the income approach, which incorporates the use of the discounted cash flow ("DCF") method, and the market approach, which incorporates the use of earnings and revenue multiples based on market data. The Company generally applies an equal weighting to the income and market approaches for the impairment test. The income approach and the market approach both require the exercise of significant judgment, including judgment about the amount and timing of expected future cash flows, assumed terminal value and appropriate discount rates.

The DCF estimates incorporate expected cash flows that represent a spectrum of the amount and timing of possible cash flows of each reporting unit from a market participant perspective. The expected cash flows are developed from the Company's long-range planning process using projections of operating results and related cash flows based on assumed long-term growth rates, demand trends and appropriate discount rates based on a reporting unit's WACC as determined by considering the observable WACC of comparable companies and factors specific to the reporting unit. The terminal value is estimated using a constant growth method which requires an assumption about the expected long-term growth rate. The estimates are based on historical data and experience, industry projections, economic conditions, and the Company's expectations.

Definite Lived Intangible Assets. Definite lived intangible assets are subject to amortization over their useful lives. A straight-line amortization method is used over the estimated useful life which is representative of the pattern of how the economic benefits of the specific intangible asset is consumed. Intangible assets that are subject to amortization are reviewed for potential impairment whenever events or circumstances indicate that carrying amounts may not be recoverable. Recoverability is measured by a comparison of the carrying amount of an intangible asset to estimated undiscounted future cash flows expected to be generated from use of the asset and its eventual disposition. If the total of the undiscounted future cash flows is less than the carrying amount of those assets, a quantitative assessment is performed using an income approach, which incorporates the use of the DCF method.

Business Combinations. Business combinations are accounted for using the acquisition method and accordingly, the assets acquired (including identified intangible assets), the liabilities assumed and any noncontrolling interest in the acquired business are recorded at their acquisition date fair values.

For each acquisition, the Company undertakes a detailed review to identify other intangible assets and a valuation is performed for all such identified assets. The Company uses several market participant measurements to determine the estimated value. This approach includes consideration of similar and recent transactions, as well as utilizing discounted expected cash flow methodologies. A substantial portion of the intangible assets value that the Company acquires is the specialized know-how of the workforce, which is treated as part of goodwill and is not required to be valued separately. The majority of the value of the identifiable intangible assets acquired is derived from customer relationships, including the related customer contracts, as well as trademarks.

Deferred Acquisition Consideration. Certain acquisitions include an initial payment at the time of closing and provide for future additional contingent purchase price payments. Contingent purchase price obligations for these transactions are recorded as deferred acquisition consideration liabilities on the Consolidated Balance Sheets, at the acquisition date fair value and are remeasured at each reporting period. These liabilities are derived from the projected performance of the acquired entity. These arrangements may be dependent on future events, such as the growth rate of the earnings of the relevant subsidiary during the contractual period. At each reporting date, the Company models each business' future performance, including revenue growth and free cash flows, to estimate the value of each deferred acquisition consideration liability. The liability is adjusted quarterly based on changes in current information affecting each subsidiary's current operating results and the impact this information will have on future results included in the calculation of the estimated liability. These adjustments are recorded in deferred acquisition consideration expense within Office and general expenses in the Consolidated Statement of Operations. In instances where such contingent payments require the sellers' continuous employment with the Company after the transaction, they are recorded as compensation expense in Office and general expenses in the Consolidated Statements of Operations.

Redeemable Noncontrolling Interests. Many of the Company's acquisitions include contractual arrangements where the noncontrolling shareholders may require the Company to purchase such noncontrolling shareholders' incremental ownership interests under certain circumstances. The Company may have similar call options under the same contractual terms. The amount of consideration under these contractual arrangements is not a fixed amount, but rather is dependent upon various valuation formulas, such as the average earnings of the relevant subsidiary through the date of exercise or the growth rate of the earnings of the relevant subsidiary during that period. In the event that an incremental purchase may be required by the Company, the amounts are recorded in Redeemable Noncontrolling Interests in mezzanine equity on the Consolidated Balance Sheets at their acquisition date fair value and adjusted for changes to their estimated redemption value through Retained earnings or Paid-in capital (when at an accumulated deficit) in the Consolidated Balance Sheets (but not less than their initial redemption value), except for foreign currency translation adjustments. These adjustments will not impact the calculation of earnings (loss) per share if the redemption values are less than the estimated fair values.

Control to Control Subsidiary Purchases. Transactions involving the purchase, sale or issuance of interests of a subsidiary where control is maintained are recorded as a reduction in the redeemable noncontrolling interests or noncontrolling interests, as applicable. Any difference between the purchase price and noncontrolling interest is recorded to Paid-in capital in the Consolidated Balance Sheets. In circumstances where the purchase of shares of an equity investment results in obtaining control, the existing carrying value of the investment is remeasured to the acquisition date fair value and any gain or loss is recognized in the Consolidated Statement Operations.

Revenue Recognition. The Company's revenue is recognized when control of the promised services are transferred to our clients, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. See Note 5 of the Notes included herein for additional information.

Cost of Services. Cost of services sold primarily consists of staff costs that are directly attributable to the Company's client engagements, as well as third-party direct costs of production and delivery of services to its clients. Cost of services sold does not include depreciation, amortization, and other office and general expenses that are not directly attributable to the Company's client engagements.

Deferred Financing Costs. The Company uses the straight-line method, which approximates the effective interest method, to amortize deferred financing costs.

Income Taxes. We account for income taxes using the asset and liability method. Under the asset and liability method, deferred tax assets and liabilities are recognized based on the differences between the financial statement carrying value of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates and laws expected to be in effect when the differences are expected to reverse. The Company records associated interest and penalties as a component of income tax expense. The Company records a valuation allowance against deferred income tax assets when management believes it is more likely than not that some portion or all of the deferred income tax assets will not be realized. Management evaluates on a quarterly basis all available positive and negative evidence considering factors such as the reversal of deferred income tax liabilities, taxable income in eligible carryback years, projected future taxable income, the character of the income tax asset, tax planning strategies, changes in tax laws and other factors. The periodic assessment of the net carrying value of the Company's deferred tax assets under the applicable accounting rules requires significant management judgment. A change to any of these factors could impact the estimated valuation allowance and income tax expense.

Stock-Based Compensation. Compensation cost is measured at fair value at the date of grant and is expensed over the service period, generally the award's vesting period.

Certain of our awards are settled in cash (stock appreciation awards) and are recorded at fair value on the date of grant and remeasured at each reporting period. The measurement of the compensation cost for these awards is based on using the Black-Scholes option pricing model and is recorded in Operating income over the service period, in this case the award's vesting period. The assumption for expected volatility is based on the historical volatility of a peer group of market participants as the Company has limited historical volatility.

The Company has adopted the straight-line attribution method for determining the compensation cost to be recorded during each accounting period. The Company commences recording compensation expense related to awards that are based on performance conditions under the straight-line attribution method when it is probable that such performance conditions will be met.

Share Buybacks. In 2022, the Company began repurchasing its own Class A common stock, par value \$.001 per share (the "Class A Common Stock"), as part of a publicly announced stock repurchase plan. The Company accounts for these repurchases by reducing the value of our Class A Common Stock for the par value of the shares repurchased and account for the difference between the price paid for the Class A Common Stock, excluding fees, and the par value of such stock to Paid-in capital. See Note 15 of the Notes included herein for further details of our share buyback plan.

Retirement Costs. Several of the Company's subsidiaries offer employees access to certain defined contribution retirement programs. Under the defined contribution plans, these subsidiaries, in some cases, make annual contributions to participants' accounts which are subject to vesting. The Company's contribution expense pursuant to these plans was approximately \$19,000, \$10,000, and \$4,000 for the years ended December 31, 2022, 2021, and 2020, respectively. The Company also has a defined benefit pension plan. See Note 12 of the Notes included herein for additional information on the defined benefit plan.

Income (Loss) per Common Share. Basic income (loss) per common share is based upon the weighted average number of common shares outstanding during each period. Diluted income (loss) per common share is based on the above, in addition, if dilutive, common share equivalents, which include stock appreciation rights, and unvested restricted stock and restricted stock units as well as shares of Class C Common Stock. In periods of net loss, all potentially issuable common shares are excluded from diluted net loss per common share because they are anti-dilutive.

Foreign Currency Translation. The functional and reporting currency of the Company is the U.S. dollar. Generally, the Company's subsidiaries use their local currency as their functional currency. Assets and liabilities are translated at the exchange rates in effect at the balance sheet date, and revenues and expenses are translated at the average exchange rates during the period presented. The resulting translation adjustments are recorded as a component of Accumulated other comprehensive income (loss) in the Shareholders' equity section of our Consolidated Balance Sheets. Foreign currency transaction unrealized and realized gains or losses are recognized as incurred in the Consolidated Statements of Operations in Foreign, exchange, net. Translation of intercompany transactions, which are not intended to be settled, are included in cumulative translation adjustments.

3. New Accounting Pronouncements

In March 2020, the Financial Accounting Standards Board, (“FASB”) issued Accounting Standards Update (“ASU”) 2020-04, and in January 2021 subsequently issued ASU 2021-01, Facilitation of the Effects of Reference Rate Reform on Financial Reporting, to provide optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. ASU 2020-04 is effective upon issuance, through December 31, 2022. The Combined Credit Agreement (as defined in Note 11 of the Notes included herein) is the Company’s only contractual arrangement that referenced LIBOR and is impacted by ASU 2020-04. On April 28, 2022, the Company amended the Combined Credit Agreement. Among other things, this amendment replaced any references to LIBOR with references to the Secured Overnight Financing Rate (“SOFR”). Based on the Company’s assessment, the Company has elected to apply the optional expedient and treat the contract modifications as a continuation of an existing contract. This election does not have a material effect on our results of operations or financial position. See Note 11 of the Notes included herein for more information.

4. Acquisitions

2022 Acquisitions

Acquisition of Brand New Galaxy

On April 19, 2022, the Company acquired Brand New Galaxy (“BNG”), for approximately \$20,695 of cash consideration, as well as contingent consideration up to a maximum value of \$50,000. The contingent consideration is due upon meeting certain future earnings targets through 2024, with approximately 67% payable in cash and 33% payable in Stagwell Inc. Class A Common Stock.

The consideration has been allocated to the assets acquired and assumed liabilities of BNG based upon preliminary estimated fair values, with any excess purchase price allocated to goodwill. The preliminary purchase price allocation is as follows:

	Amount
Cash and cash equivalents	\$ 2,766
Accounts receivable	10,147
Other current assets	671
Fixed assets	1,587
Identifiable intangible assets	12,740
Other assets	1,583
Accounts payable	(4,771)
Accruals and other liabilities	(6,880)
Advance billings	(1,159)
Other liabilities	(3,642)
Net assets assumed	13,042
Goodwill	24,423
Purchase price consideration	\$ 37,465

The excess of purchase consideration over the fair value of the net assets acquired was recorded as goodwill, which is primarily attributed to the assembled workforce of BNG. Goodwill of \$24,423 was assigned to the Brand Performance Network reportable segment. The majority of the goodwill is non-deductible for income tax purposes.

Intangible assets consist of trade names, customer relationships and developed technology. We amortize purchased intangible assets on a straight-line basis over their respective useful lives. The weighted average life of the total acquired identifiable intangible assets is approximately ten years. The following table presents the details of identifiable intangible assets acquired:

	Estimated Fair Value	Estimated Useful Life in Years
Customer relationships	\$ 6,150	10
Trade names	5,500	10
Developed technology	1,090	7
Total acquired intangible assets	<u>\$ 12,740</u>	

Pro Forma Financial Information (unaudited)

The unaudited pro forma information for the periods set forth below gives effect to the acquisition as if it occurred as of January 1, 2021. The pro forma information is presented for informational purposes only and is not necessarily indicative of the results of operations that actually would have been achieved had the acquisitions been consummated as of that time.

	Year Ended December 31,	
	2022	2021
Revenue	\$ 2,698,018	\$ 1,501,568
Net income	65,097	36,863

Revenue and net loss attributable to BNG, included within the year ended December 31, 2022 Consolidated Statements of Operations was \$20,544 and \$67, respectively.

The purchase price accounting is not yet final as the Company may still make adjustments due to changes in working capital.

Acquisition of TMA Direct, Inc.

On May 31, 2022, the Company acquired approximately 87% of TMA Direct, Inc. (“TMA Direct”) for approximately \$17,247 of cash consideration and approximately \$457 of deferred acquisition payments. The Company was also granted an option to purchase the remaining 13% minority interest in TMA Direct for up to approximately \$13,330.

The consideration has been allocated to the assets acquired and assumed liabilities of TMA Direct based upon estimated fair values, with any excess purchase price allocated to goodwill. The purchase price allocation is as follows:

	Amount
Accounts receivable	\$ 582
Other current assets	669
Identifiable intangible assets	13,200
Accounts payable	(379)
Other liabilities	(270)
Noncontrolling interests	(2,667)
Net assets assumed	11,135
Goodwill	6,569
Purchase price consideration	\$ 17,704

The excess of purchase consideration over the fair value of the net assets acquired was recorded as goodwill, which is primarily attributed to the assembled workforce of TMA Direct. Goodwill of \$6,569 was assigned to the Communications Network reportable segment. The majority of the goodwill is deductible for income tax purposes.

Intangible assets consist of trade names and customer relationships. We amortize purchased intangible assets on a straight-line basis over their respective useful lives. The weighted average life of the total acquired identifiable intangible assets is ten years. The following table presents the details of identifiable intangible assets acquired:

	Fair Value	Estimated Useful Life in Years
Customer relationships	\$ 11,400	10
Trade names	1,800	10
Total acquired intangible assets	<u>\$ 13,200</u>	

Pro Forma Financial Information (unaudited)

The unaudited pro forma information for the periods set forth below gives effect to the acquisition as if it occurred as of January 1, 2021. The pro forma information is presented for informational purposes only and is not necessarily indicative of the results of operations that actually would have been achieved had the acquisitions been consummated as of that time.

	Year Ended December 31,	
	2022	2021
Revenue	\$ 2,691,622	\$ 1,481,727
Net income	67,195	39,386

Revenue and net income attributable to TMA Direct, included within the year ended December 31, 2022 Consolidated Statements of Operations was \$7,659 and \$889, respectively.

Acquisition of Maru Group Limited Ltd.

On October 3, 2022, the Company acquired Maru Group Limited Ltd. (“Maru”) for approximately £23,000 (approximately \$25,793) in cash consideration.

The consideration has been allocated to the assets acquired and assumed liabilities of Maru based upon preliminary estimated fair values, with any excess purchase price allocated to goodwill. The preliminary purchase price allocation is as follows:

	Amount
Cash and cash equivalents	\$ 1,033
Accounts receivable	7,374
Other current assets	899
Fixed assets	157
Identifiable intangible assets	13,500
Other assets	1,920
Accounts payable	(4,087)
Accruals and other liabilities	(9,154)
Advance billings	(6,462)
Other liabilities	(3,591)
Net assets assumed	1,589
Goodwill	24,204
Purchase price consideration	<u>\$ 25,793</u>

The excess of purchase consideration over the fair value of the net assets acquired was recorded as goodwill, which is primarily attributed to the assembled workforce of Maru and the expected growth related to new customer relationships and geographic expansion. Goodwill of \$24,204 was assigned to the All Other reportable segment. The goodwill is partially deductible for income tax purposes.

Intangible assets consist of trade names, customer relationships, and developed technology. We amortize purchased intangible assets on a straight-line basis over their respective useful lives. The weighted average life of the total acquired identifiable intangible assets is approximately eight years. The following table presents the details of identifiable intangible assets acquired:

	Estimated Fair Value	Estimated Useful Life in Years
Customer relationships	\$ 4,700	10
Trade names	3,500	10
Developed technology	5,300	2-7
Total acquired intangible assets	<u>\$ 13,500</u>	

Pro Forma Financial Information (unaudited)

The unaudited pro forma information for the periods set forth below gives effect to the acquisition as if it occurred as of January 1, 2021. The pro forma information is presented for informational purposes only and is not necessarily indicative of the results of operations that actually would have been achieved had the acquisitions been consummated as of that time.

	Year Ended December 31,	
	2022	2021
Revenue	\$ 2,717,667	\$ 1,512,791
Net Income	51,841	15,167

Revenue and net loss attributable to Maru, included within the year ended December 31, 2022 Consolidated Statements of Operations was \$8,786 and \$2,135, respectively.

Acquisition of Wolfgang, LLC.

On October 3, 2022, the Company acquired the remaining 80% interest that it did not already own in Wolfgang, LLC., (“Wolfgang”) for approximately \$3,750 in cash consideration and 175 shares of Class A Common Stock with a fair value of \$1,178, subject to post-closing adjustments.

The consideration has been allocated to the assets acquired and assumed liabilities of Wolfgang based upon preliminary estimated fair values, with any excess purchase price allocated to goodwill. The preliminary purchase price allocation is as follows:

	Amount
Cash and cash equivalents	\$ 1,606
Accounts receivable	1,180
Other current assets	100
Identifiable intangible assets	1,055
Other assets	46
Current liabilities	(278)
Net assets assumed	3,709
Goodwill	2,451
Purchase price consideration including fair value of previously owned interest	<u>\$ 6,160</u>

The excess of purchase consideration over the fair value of the net assets acquired was recorded as goodwill, which is primarily attributed to the assembled workforce of Wolfgang. Goodwill of \$2,451 was assigned to the Integrated Agencies Network reportable segment. The majority of the goodwill is deductible for income tax purposes.

Intangible assets consist of customer relationships. We amortize purchased intangible assets on a straight-line basis over their respective useful lives. The weighted average life of the total acquired identifiable intangible assets is five years. The following table presents the details of identifiable intangible assets acquired:

	Estimated Fair Value	Estimated Useful Life in Years
Customer relationships	\$ 1,055	5
Total acquired intangible assets	<u>\$ 1,055</u>	

Pro Forma Financial Information (unaudited)

The unaudited pro forma information for the periods set forth below gives effect to the acquisition as if it occurred as of January 1, 2021. The pro forma information is presented for informational purposes only and is not necessarily indicative of the results of operations that actually would have been achieved had the acquisitions been consummated as of that time.

	Year Ended December 31,	
	2022	2021
Revenue	\$ 2,696,733	\$ 1,474,303
Net income	67,196	36,538

Revenue and net loss attributable to Wolfgang, included within the year ended December 31, 2022 Consolidated Statements of Operations was \$2,072 and \$297, respectively.

Acquisition of Epicenter Experience LLC

On October 3, 2022, the Company acquired the assets of Epicenter Experience LLC., (“Epicenter”) for approximately \$9,864 in cash consideration, subject to post-closing adjustments, as well as contingent consideration up to a maximum value of \$5,000. The contingent consideration is subject to meeting certain future earnings targets through 2024 and can be paid up to 25% in Class A Common Stock.

The consideration has been allocated to the assets acquired and assumed liabilities of Epicenter based upon preliminary estimated fair values. The preliminary purchase price allocation is as follows:

	Amount
Accounts receivable	\$ 901
Other current assets	45
Identifiable intangible assets	7,300
Accounts payable	(148)
Other current liabilities	(650)
Net assets assumed	7,448
Goodwill	4,416
Purchase price consideration	<u>\$ 11,864</u>

The excess of purchase consideration over the fair value of the net assets acquired was recorded as goodwill, which is primarily attributed to the assembled workforce of Epicenter. Goodwill of \$4,416 was assigned to the All Other reportable segment. The majority of the goodwill is deductible for income tax purposes.

The intangible asset acquired was developed technology. We amortize purchased intangible assets on a straight-line basis over their respective useful lives. The weighted average life of the total acquired identifiable intangible assets is five years. The following table presents the details of identifiable intangible assets acquired:

	Estimated Fair Value	Estimated Useful Life in Years
Developed technology	\$ 7,300	5
Total acquired intangible assets	<u>\$ 7,300</u>	

Pro Forma Financial Information (unaudited)

The unaudited pro forma information for the periods set forth below gives effect to the acquisition as if it occurred as of January 1, 2021. The pro forma information is presented for informational purposes only and is not necessarily indicative of the results of operations that actually would have been achieved had the acquisitions been consummated as of that time.

	Year Ended December 31,	
	2022	2021
Revenue	\$ 2,690,969	\$ 1,473,183
Net income	65,450	35,810

Revenue and net loss attributable to Epicenter, included within the year ended December 31, 2022 Consolidated Statements of Operations was \$1,028 and \$1,183, respectively.

Other Acquisitions

On July 12, 2022, the Company acquired PEP Group Holdings B.V. (“PEP Group”), an omnichannel content creation and adaption production company for approximately \$521 in cash consideration, subject to post-closing adjustments, as well as contingent consideration up to a maximum value of €2,553. The contingent consideration is subject to meeting certain future earnings targets through 2025.

On July 15, 2022, the Company acquired Apollo Program II Inc. (“Apollo”), a real-time artificial intelligence-powered software-as-a-service platform, for approximately \$2,300 in cash consideration, subject to post-closing adjustments, as well as guaranteed deferred payments of \$1,000 and \$1,500 on or prior to July 1, 2023 and July 1, 2024, respectively.

2021 Acquisitions

Acquisition of MDC

On December 21, 2020, MDC and Stagwell Media announced that they had entered into the Transaction Agreement, providing for the combination of MDC with the operating businesses and subsidiaries of the Stagwell Subject Entities. The Stagwell Subject Entities comprised Stagwell Marketing and its direct and indirect subsidiaries.

On August 2, 2021 (the “Closing Date”), we completed the combination of MDC and the Stagwell Subject Entities and a series of steps and related transactions (such combination and transactions, the “Transactions”). In connection with the Transactions, among other things, (i) MDC completed a series of transactions pursuant to which it emerged as a wholly owned subsidiary of the Company, converted into a Delaware limited liability company and changed its name to Midas OpCo Holdings LLC, and subsequently to Stagwell Global LLC (“OpCo”); (ii) Stagwell Media contributed the equity interests of Stagwell Marketing and its direct and indirect subsidiaries to OpCo; and (iii) the Company converted into a Delaware corporation, succeeded MDC as the publicly-traded company and changed its name to Stagwell Inc.

In respect of the Transactions, the acquired assets and assumed liabilities, together with acquired processes and employees, represent a business as defined in the FASB’s Accounting Standards Codification (“ASC”) 805, Business Combinations (“ASC 805”). The Transactions were accounted for as a reverse acquisition using the acquisition method of accounting, pursuant to ASC Topic 805-10, Business Combinations, with MDC treated as the legal acquirer and SMG treated as the accounting acquirer. In identifying SMG as the acquiring entity for accounting purposes, MDC and SMG took into account a number of factors, including the relative voting rights and the corporate governance structure of the Company. SMG is considered the accounting acquirer since Stagwell Media controls the board of directors of the Company following the Transactions and received an indirect ownership interest in the Company’s only operating subsidiary, OpCo, of 69.55% ownership of OpCo’s common units. However, no single factor was the sole determinant in the overall conclusion that Stagwell is the acquirer for accounting purposes; rather all factors were considered in arriving at such conclusion. Under the acquisition method of accounting, the assets and liabilities of MDC, as the accounting acquiree, were recorded at their respective fair value as of the date the Transactions were completed.

On August 2, 2021, an aggregate of 179,970 shares of the Company’s Class C common stock, par value \$0.00001 per share (the “Class C Common Stock”), were issued to Stagwell Media in exchange for \$1.80. The Class C Common Stock does not participate in the earnings of the Company. Additionally, an aggregate of 179,970 OpCo common units were issued to Stagwell Media in exchange for the equity interests of the Stagwell Subject Entities (the “Stagwell OpCo Contribution”).

The fair value of the purchase consideration was \$429,062, consisting of approximately 80,000 shares of the Company's Class A Common Stock, Class B common stock, par value \$0.001 per share (the "Class B Common Stock"), and common stock equivalents based on a per share price of approximately \$5.42, the closing stock price on the date of the combination.

ASC 805 requires the allocation of the purchase price consideration to the fair value of the identified assets acquired and liabilities assumed upon consummation of a business combination. For this purpose, fair value shall be determined in accordance with the fair value concepts defined in ASC 820, "Fair Value Measurements and Disclosures," ("ASC 820"). Fair value is defined in ASC 820 as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Fair value measurements can be highly subjective and can involve a high degree of estimation. The purchase price valuation was completed during the third quarter of 2022.

The purchase price allocation is as follows:

	Amount
Cash and cash equivalents	\$ 130,197
Accounts receivable	398,736
Other current assets	41,291
Fixed assets	81,343
Right-of-use lease assets - operating leases	252,739
Identifiable intangible assets	810,900
Other assets	18,282
Accounts payable	(139,590)
Accruals and other liabilities	(307,439)
Advance billings	(211,212)
Current portion of lease liabilities	(54,009)
Current portion of deferred acquisition consideration	(53,054)
Long-term debt	(901,736)
Revolving credit facility	(109,954)
Long-term portion of deferred acquisition consideration	(8,056)
Long-term portion of lease liabilities	(283,637)
Other liabilities	(139,026)
Redeemable noncontrolling interests	(25,990)
Preferred shares	(209,980)
Noncontrolling interests	(151,090)
Net liabilities assumed	(861,285)
Goodwill	1,290,347
Purchase price consideration	\$ 429,062

The excess of purchase consideration over the fair value of the net assets acquired was recorded as goodwill, which is primarily attributed to the assembled workforce of MDC. Goodwill of \$932,582, \$285,396 and \$72,369 was assigned to the Integrated Agencies Network, the Brand Performance Network and the Communications Network reportable segments, respectively. The majority of the goodwill is non-deductible for income tax purposes. Goodwill has been updated from the previously reported amount of \$1,299,374 as of December 31, 2021 to reflect a change in certain assets and liabilities. There has been no change that impacts the Consolidated Statement of Operations.

Intangible assets consist of trade names and customer relationships. We amortize purchased intangible assets on a straight-line basis over their respective useful lives. The weighted average life of the total acquired identifiable intangible assets is approximately thirteen years. The following table presents the details of identifiable intangible assets acquired:

	Fair Value	Estimated Useful Life in Years
Trade Names	\$ 98,000	10
Customer Relationships	712,900	6-15
Total Acquired Intangible Assets	\$ 810,900	

Pro Forma Financial Information (unaudited)

The unaudited pro forma information for the periods set forth below gives effect to the acquisition as if it occurred as of January 1, 2020. The pro forma information is presented for informational purposes only and is not necessarily indicative of the results of operations that actually would have been achieved had the acquisitions been consummated as of that time.

	Years Ended December 31,	
	2021	2020
Revenue	\$ 2,224,343	\$ 2,087,025

The pro forma net loss was nominal for the years ended December 31, 2021 and 2020.

Revenue attributable to MDC, included within the year ended December 31, 2021 Consolidated Statements of Operations was \$605,448. The net loss included within the year ended December 31, 2021 Consolidated Statements of Operations was nominal.

Transaction expenses were approximately \$15,000 for the twelve months ended December 31, 2021.

Acquisition of GoodStuff Holdings Limited

On December 31, 2021, the Company acquired GoodStuff Holdings Limited ("Goodstuff") for approximately £21,000 (approximately \$28,188) of cash consideration as well as contingent consideration up to a maximum of £22,000. The cash consideration included an initial payment of £8,000, an excess working capital payment of approximately £9,000 and approximately £4,000 of deferred payments. The contingent consideration is tied to employees' service and will be recognized as deferred acquisition consideration expense through 2026. Therefore, only the cash consideration has been allocated to the assets acquired and assumed liabilities of Goodstuff based upon their fair values, with any excess purchase price allocated to goodwill. The purchase price allocation is as follows:

	Amount
Cash and cash equivalents	\$ 30,985
Accounts receivable	28,685
Other current assets	3,207
Fixed assets	237
Right-of-use lease assets - operating leases	2,060
Identifiable intangible assets	14,974
Other assets	55
Accounts payable	(6,344)
Accruals and other liabilities	(27,353)
Advance billings	(15,956)
Current portion of lease liabilities	(857)
Income taxes payable	(967)
Long-term portion of lease liabilities	(3,744)
Other liabilities	(1,204)
Net assets assumed	23,778
Goodwill	4,410
Purchase price consideration	\$ 28,188

The excess of purchase consideration over the fair value of the net assets acquired was recorded as goodwill, which is primarily attributed to the assembled workforce of Goodstuff. Goodwill of \$4,410 was assigned to the Brand Performance Network reportable segment. The majority of the goodwill is non-deductible for income tax purposes.

Intangible assets consist of trade names and customer relationships. We amortize purchased intangible assets on a straight-line basis over their respective useful lives. The weighted average life of the total acquired identifiable intangible assets is approximately ten years. The following table presents the details of identifiable intangible assets acquired:

	Fair Value	Estimated Useful Life in Years
Trade Names	\$ 1,349	15
Customer Relationships	13,625	10
Total Acquired Intangible Assets	<u>\$ 14,974</u>	

Pro Forma Financial Information (unaudited)

The unaudited pro forma information for the periods set forth below gives effect to the acquisition as if it occurred as of January 1, 2020. The pro forma information is presented for informational purposes only and is not necessarily indicative of the results of operations that actually would have been achieved had the acquisitions been consummated as of that time.

	Years Ended December 31,	
	2021	2020
Revenue	\$ 1,488,532	\$ 902,577
Net Income	38,719	72,715

2022 Purchases of Noncontrolling Interests

On April 1, 2022, the Company acquired the remaining interest in Hello Design, LLC (“Hello Design”) that it did not already own for an aggregate purchase price of \$4,600, comprised of a closing cash payment of \$3,600 and a contingent deferred acquisition payment of \$1,000. The contingent deferred payment was based on the financial results of the underlying business through the end of 2022 with the payment due in 2023.

2021 Purchases of Noncontrolling Interests

On October 1, 2021, the Company entered into an agreement to purchase the approximate 27% remaining interest of Targeted Victory it did not already own, stipulating the purchase of 13.3% on October 1, 2021 and the remaining 13.3% on July 31, 2023, with the option for the seller to delay the second purchase until July 31, 2025. The purchase price of \$73,898 was comprised of a contingent deferred acquisition payment and redeemable noncontrolling interest with estimated present values at the acquisition date of \$46,618 and \$27,280, respectively. The contingent deferred payment and redeemable noncontrolling interest were based on the financial results of the underlying business through July 2023 and July 2025, respectively. In addition, at the option of the Company, up to 50% of the total purchase price can be paid in shares of Class A Common Stock and in no event may the purchase price exceed \$135,000.

On December 1, 2021, the Company acquired the approximate 27% remaining interest of Concentric it did not already own for an aggregate purchase price of \$8,058, comprised of a closing cash payment of \$1,581 and contingent deferred acquisition payments with an estimated present value at the acquisition date of \$6,477. The contingent deferred payments were based on the financial results of the underlying business through 2022 with final payment due in 2023.

On December 31, 2021, the Company acquired the approximate 49% remaining interest of Instrument it did not already own for an aggregate purchase price of \$157,072, comprised of a closing payment of \$37,500 in cash and \$37,500 in shares of Class A Common Stock and deferred acquisition payments with an estimated present value at the acquisition date of \$82,072, with approximately 40% to be paid in shares of Class A Common Stock. The deferred payments are not contingent and will be paid in 2023 and 2024.

2021 Disposition

On September 15, 2021, the Company sold Reputation Defender to a strategic buyer for approximately \$40,000 resulting in a gain of approximately \$43,000. The gain was recognized within Other, net within the Consolidated Statements of Operations.

2020 Acquisitions

On February 14, 2020, the Company acquired Sloane & Company (“Sloane”) for approximately \$24,400 of total consideration. Total consideration included a cash payment of \$19,600 and contingent deferred acquisition consideration of \$4,800.

On August 14, 2020, the Company acquired Kettle Solutions, LLC (“Kettle”) for approximately \$5,400 of total consideration. Total consideration included a cash payment of \$4,900, plus an additional \$500 due upon the finalization of Kettle’s working capital accounts, as outlined in the purchase agreement. The purchase agreement also offers the previous owners of Kettle an additional \$11,900 in deferred consideration.

On October 30, 2020, the Company acquired TrueLogic Software, LLC, Ramenu S.A., and Polar Bear Development S.R.L. (collectively referred to as “Truelogic”), for approximately \$17,300 of total consideration. Total consideration included a cash payment of \$8,900, the acquisition date fair value of the contingent deferred acquisition consideration of \$7,900, and an additional \$500 due upon the finalization of Truelogic’s working capital accounts, as outlined in the purchase agreement.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed as of the date of each acquisition:

	2020			
	Sloane	Kettle	Truelogic	Total
Cash, cash equivalents and restricted cash	\$ —	\$ 49	\$ 90	\$ 139
Accounts receivable and other current assets	2,768	2,732	2,958	8,458
Other noncurrent assets	—	172	10	182
Intangible assets	5,900	1,930	9,500	17,330
Property and equipment	72	58	50	180
Right-of-use lease assets – operating leases	—	533	201	734
Accounts payable and other current liabilities	(469)	(552)	(1,063)	(2,084)
Advanced billings	(130)	(310)	(429)	(869)
Operating lease liabilities	—	(533)	(201)	(734)
Goodwill	16,275	1,323	6,184	23,782
Total net assets acquired	<u>\$ 24,416</u>	<u>\$ 5,402</u>	<u>\$ 17,300</u>	<u>\$ 47,118</u>

Goodwill recognized on the Sloane, Kettle and Truelogic acquisitions is fully-deductible for income tax purposes.

The following table reports the fair value of intangible assets acquired, including the corresponding weighted average amortization periods, as of the date of each acquisition:

	Weighted Average Amortization Period	2020			
		Sloane	Kettle	Truelogic	Total
Customer relationships	10 years	\$ 4,600	\$ 1,600	\$ 9,100	\$ 15,300
Trade names	11 years	1,300	330	400	2,030
Total		<u>\$ 5,900</u>	<u>\$ 1,930</u>	<u>\$ 9,500</u>	<u>\$ 17,330</u>

The following table summarizes the total revenue and net income included in the Consolidated Statements of Operations for the year ended December 31, 2020 from the date of each acquisition:

	Year Ended December 31, 2020	
Revenue	\$	22,381
Net Income		2,685

Pro Forma Financial Information (unaudited)

The unaudited pro forma information for the periods set forth below gives effect to the 2020 acquisitions as if they had occurred as of January 1, 2020. The pro forma information is presented for informational purposes only and is not necessarily indicative of the results of operations that actually would have been achieved had the acquisitions been consummated as of that time:

	Year Ended December 31, 2020	
Revenue	\$	911,203
Net Income		75,767

5. Revenue

The Company's revenue recognition policies are established in accordance with ASC 606, and accordingly, revenue is recognized when control of the promised goods or services is transferred to our clients, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services.

The Stagwell network provides an extensive range of services to our clients, offering a variety of marketing and communication capabilities including strategy, creative and production for advertising campaigns across a variety of platforms (print, digital, social media, television broadcast), public relations services including strategy, editorial, crisis support or issues management, online fundraising, media training, influencer engagement and events management. We also provide media-based solutions to drive brand performance, including buying and planning across a range of platforms (out-of-home, paid search, social media, lead generation, programmatic, television broadcast), experiential marketing and application/website design and development.

The primary source of the Company's revenue is from Brand arrangements in the form of fees for services performed, commissions, and from performance incentives or bonuses, depending on the terms of the client contract. In all circumstances, revenue is only recognized when collection is reasonably assured. Certain of the Company's contractual arrangements have more than one performance obligation. For such arrangements, revenue is allocated to each performance obligation based on its relative stand-alone selling price. Stand-alone selling prices are determined based on the prices charged to clients or using expected cost plus margin.

The determination of our performance obligations is specific to the services included within each contract. Based on a client's requirements within the contract, and how these services are provided, multiple services could represent separate performance obligations or be combined and considered one performance obligation. Contracts that contain services that can be provided on a stand-alone basis, that are not significantly integrated or interdependent, and that do not significantly modify or customize each other, are typically considered separate performance obligations. Typically, these services are creative (or strategy), production, experiential marketing, media planning and media buying.

Certain of the Company's contracts consist of a single performance obligation. In these instances, the Company does not consider the underlying activities as separate or distinct performance obligations because its services are highly interrelated, and the integration of the various components is essential to the overall promise to the Company's customer. Typically, these services are public relations, and application/website design and development. In other instances, the Company is engaged to provide marketing services, such online fundraising and brand performance media solutions, that include a variety of distinct activities

performed throughout the contract term that are substantially the same and that are satisfied over time, and therefore the Company considers these to be one performance obligation.

We typically satisfy our performance obligations over time, as services are performed. Fees for services are typically recognized using input methods (direct labor hours, materials and third-party costs) that correspond with efforts incurred to date in relation to total estimated efforts to complete the contract. To a lesser extent, revenue is recognized using output measures, such as impressions or ongoing reporting. For client contracts when the Company has a stand-ready obligation to perform services, the Company recognizes revenue ratably using a time-based measure. In addition, for client contracts where the Company is providing online subscription-based hosted services, it recognizes revenue ratably over the contract term. Point in time recognition primarily relates to certain commission-based contracts, which are recognized upon the placement of advertisements in various media when the Company has no further performance obligation.

Revenue is recognized net of sales and other taxes due to be collected and remitted to governmental authorities. The Company's contracts typically provide for termination by either party within 30 to 90 days. Although payment terms vary by client, they are typically within 30 to 60 days. In addition, the Company generally has the right to payment for all services provided through the end of the contract or termination date.

Within each contract, we identify whether the Company is principal or agent at the service level. In arrangements where the Company has substantive control over the service before transferring it to the client, and is primarily responsible for integrating the services into the final deliverables, we act as principal. In these arrangements, revenue is recorded at the gross amount billed. Accordingly, for these contracts the Company has included reimbursed expenses in revenue. In other arrangements where a third-party supplier, rather than the Company, is primarily responsible for the integration of services into the final deliverables, and thus the Company is solely arranging for the third-party supplier to provide these services to our client, we generally act as agent and record revenue equal to the net amount retained, when the fee or commission is earned. The role of Stagwell's Brands under a production services agreement is to facilitate a client's purchasing of production capabilities from a third-party production company in accordance with the client's strategy and guidelines. The obligation of Stagwell's Brands under media buying services is to negotiate and purchase advertising media from a third-party media vendor on behalf of a client to execute its media plan. Typically, we do not obtain control prior to transferring these services to our clients; therefore, we primarily act as agent for production and media buying services.

A small portion of the Company's contractual arrangements with clients include performance incentive provisions, which allow the Company to earn additional revenues as a result of its performance relative to both quantitative and qualitative goals. Incentive compensation is primarily estimated using the most likely amount method and is included in revenue up to the amount that is not expected to result in a reversal of a significant amount of cumulative revenue recognized. We recognize revenue related to performance incentives as we satisfy the performance obligation to which the performance incentives are related.

Disaggregated Revenue Data

The Company provides a broad range of services to a large base of clients across the full spectrum of verticals globally. The primary source of revenue is from Brand arrangements in the form of fees for services performed, commissions, and from performance incentives or bonuses. Certain clients may engage with the Company in various geographic locations, across multiple disciplines, and through multiple Brands. Representation of a client rarely means that Stagwell handles marketing communications for all Brands or product lines of the client in every geographical location. The Company's Brands often cooperate with one another through referrals and the sharing of both services and expertise, which enables Stagwell to service clients' varied marketing needs by crafting custom integrated solutions. Additionally, the Company maintains separate, independent operating companies to enable it to effectively manage potential conflicts of interest by representing competing clients across the Stagwell network.

The following table presents revenue disaggregated by our principal capabilities for the years ended December 31, 2022, 2021, and 2020:

Principal Capabilities	Reportable Segment	Year Ended December 31,		
		2022	2021	2020
Digital Transformation	All Segments	\$ 784,667	\$ 400,857	\$ 374,689
Creativity and Communications	Integrated Agencies Network, Brand Performance Network, Communications Network	1,221,855	561,538	152,499
Performance Media and Data	Brand Performance Network	456,640	341,730	253,011
Consumer Insights and Strategy	Integrated Agencies Network	224,630	165,238	107,833
		<u>\$ 2,687,792</u>	<u>\$ 1,469,363</u>	<u>\$ 888,032</u>

Stagwell has historically largely focused where the Company was founded in North America, the largest market for its services in the world. The Company has expanded its global footprint to support clients in international markets. Stagwell's Brands are located in the United States and United Kingdom, and more than 32 other countries around the world. In the past, some clients have responded to weakening economic conditions with reductions to their marketing budgets, which included discretionary components that are easier to reduce in the short term than other operating expenses.

The following table presents revenue disaggregated by geography for the years ended December 31, 2022, 2021, and 2020:

Geographical Location	Reportable Segment	Year Ended December 31,		
		2022	2021	2020
United States	All	\$ 2,218,681	\$ 1,219,816	\$ 804,418
United Kingdom	All	181,764	105,961	41,489
Other	All	287,347	143,586	42,125
		<u>\$ 2,687,792</u>	<u>\$ 1,469,363</u>	<u>\$ 888,032</u>

Contract Assets and Liabilities

Contract assets consist of fees and reimbursable outside vendor costs incurred on behalf of clients when providing advertising, marketing and corporate communications services that have not yet been invoiced to clients. Unbilled service fees were \$116,381 and \$116,558 at December 31, 2022 and December 31, 2021, respectively, and are included as a component of Accounts receivable, net on the Consolidated Balance Sheets. Outside vendor costs incurred on behalf of clients which have yet to be invoiced were \$93,077 and \$63,065 at December 31, 2022 and December 31, 2021, respectively, and are included on the Consolidated Balance Sheets as Expenditures billable to clients. Such amounts are invoiced to clients at various times over the course of providing services.

Contract liabilities represent advanced billings to customers for fees and reimbursements of third-party costs, whether we act as principal or agent. Such fees and reimbursements of third-party costs are classified as Advance billings on the Company's Consolidated Balance Sheets. In arrangements in which we are acting as an agent, the recognition related to the contract liability is presented on a net basis within the Consolidated Statements of Operations. Advance billings at December 31, 2022 and December 31, 2021 were \$337,034 and \$361,885, respectively. The decrease in Advance billings of \$24,851 for the year ended December 31, 2022 was primarily driven by \$345,277 of revenues recognized that were included in the Advance billings balances as of December 31, 2021 and reductions due to the incurrence of third-party costs, partially offset by the acquisition of certain contract liabilities (as detailed below) and cash payments received or due in advance of satisfying our performance obligations.

In 2022, the Company acquired \$3,195 in contract assets and \$7,620 in contract liabilities in connection with the acquisitions of BNG, Wolfgang, and Maru. See Note 4 of the Notes included herein for additional information related to these acquisitions.

Changes in the contract asset and liability balances during the year ended December 31, 2022 were not materially impacted by write offs, impairment losses or any other factors outside of the above acquisitions.

Unsatisfied Performance Obligations

The majority of our contracts are for periods of one year or less. For those contracts with a term of more than one year, we had approximately \$52,613 of unsatisfied performance obligations as of December 31, 2022 of which we expect to recognize approximately 82% in 2023, 16% in 2024 and 2% in 2025.

6. Income (Loss) Per Share

The following table sets forth the computations of basic and diluted income per common share for the year ended December 31, 2022:

	Year Ended December 31, 2022
Income Per Share - Basic	
<u>Numerator:</u>	
Net income	\$ 65,842
Net income attributable to Class C shareholders	(24,452)
Net income attributable to other equity interest holders	(14,121)
Net income attributable to noncontrolling and redeemable noncontrolling interests	(38,573)
Net income attributable to Stagwell Inc. common shareholders	<u>\$ 27,269</u>
<u>Denominator:</u>	
Weighted Average number of common shares outstanding	124,262
Income Per Share - Basic	<u>\$ 0.22</u>
Income Per Share - Diluted	
<u>Numerator:</u>	
Net income attributable to Stagwell Inc. common shareholders	\$ 27,269
Net income attributable to Class C shareholders	24,452
	<u>\$ 51,721</u>
<u>Denominator:</u>	
Basic - Weighted Average number of common shares outstanding	124,262
Dilutive shares:	
Stock appreciation rights	1,896
Restricted share and restricted unit awards	4,467
Class C shares	165,971
Diluted - Weighted average number of common shares outstanding	<u>296,596</u>
Income Per Share - Diluted	<u>\$ 0.17</u>

Restricted stock awards of 2,292 as of December 31, 2022 are excluded from the computation of diluted income per common share because the performance contingency necessary for vesting had not been met as of the reporting date.

The following table sets forth the computations of basic and diluted loss per common share for the year ended December 31, 2021:

	Year Ended December 31, 2021
Numerator:	
Net loss attributable to Stagwell Inc. common shareholders	\$ (3,706)
Denominator:	
Weighted average number of common shares outstanding	90,426
Loss Per Share - Basic & Diluted	\$ (0.04)
Anti-dilutive:	
Class C shares	179,970
Stock Appreciation Rights and Restricted Awards	9,509

On September 23, 2021, the Company provided notices of conversion to each holder of record of each share of the Company's Series 6 and Series 8 Preferred Stock. Pursuant to the notices, the 50,000 issued and outstanding shares of Series 6 Preferred Stock were converted into 12,087 shares of Class A Common Stock, in the aggregate, on October 7, 2021, and the 73,849 issued and outstanding shares of Series 8 Preferred Stock were converted into 20,949 shares of Class A Common Stock, in the aggregate, on November 8, 2021.

SMG's equity structure, prior to the combination with MDC, was a non-unitized single member limited liability company, resulting in all components of equity attributable to the member being reported within Members' Capital. Given that SMG was a non-unitized single member limited liability company, net income (loss) prior to the combination is not applicable for purposes of calculating earnings per share. Therefore, the net income (loss) in the table above includes the income or loss for the period beginning on the acquisition date through the end of the respective reporting period and as such will not reconcile to the respective amounts presented within the Consolidated Statements of Operations.

7. Fixed Assets

The following is a summary of the Company's fixed assets as of December 31:

	2022			2021		
	Cost	Accumulated Depreciation	Net Book Value	Cost	Accumulated Depreciation	Net Book Value
Computers, furniture and fixtures	\$ 56,788	\$ (27,689)	\$ 29,099	\$ 41,839	\$ (18,136)	\$ 23,703
Leasehold improvements	101,535	(31,756)	69,779	91,572	(17,759)	73,813
	<u>\$ 158,323</u>	<u>\$ (59,445)</u>	<u>\$ 98,878</u>	<u>\$ 133,411</u>	<u>\$ (35,895)</u>	<u>\$ 97,516</u>

The table above has been revised to reclassify previously reported gross capitalized software and accumulated amortization of \$29,844 and \$8,757, respectively, as of December 31, 2021 that should have been classified within intangible assets rather than fixed assets to more closely align these net assets with the category of assets they represent.

Depreciation expense for the years ended December 31, 2022, 2021, and 2020 was \$26,510, \$15,416 and \$7,026, respectively.

8. Goodwill and Intangible Assets

As of December 31, goodwill was as follows:

	Integrated Agencies Network	Brand Performance Network	Communications Network	All Other	Total
Balance at December 31,	\$ 88,094	\$ 177,073	\$ 33,258	\$ 26,760	\$ 325,185
Acquired goodwill	7,070	235	16,275	195	23,775
Foreign currency translation	—	3,331	—	(566)	2,765
Balance at December 31,	\$ 95,164	\$ 180,639	\$ 49,533	\$ 26,389	\$ 351,725
Acquired goodwill	1,058,411	178,994	66,244	—	1,303,649
Disposition	—	—	—	(935)	(935)
Foreign currency translation	(502)	(1,020)	—	(194)	(1,716)
Balance at December 31,	\$ 1,153,073	\$ 358,613	\$ 115,777	\$ 25,260	\$ 1,652,723
Acquired goodwill ⁽¹⁾	3,330	26,176	6,569	29,387	65,462
Impairment	(49,840)	(49,314)	—	(17,560)	(116,714)
Transfer of goodwill between segments ⁽²⁾	(111,065)	111,065	—	—	—
Foreign currency translation	(11,422)	(13,467)	(753)	—	(25,642)
Other ⁽³⁾	(15,682)	685	6,124	—	(8,873)
Balance at December 31,	<u>\$ 968,394</u>	<u>\$ 433,758</u>	<u>\$ 127,717</u>	<u>\$ 37,087</u>	<u>\$ 1,566,956</u>

⁽¹⁾ For the year ended December 31, 2022, the Company's acquisitions resulted in goodwill of \$65,462. See Note 4 of the Notes included herein for information related to the acquisitions.

⁽²⁾ Due to changes in the Company's internal management and reporting structure in the second quarter of 2022, reportable segment results for periods presented prior to the second quarter of 2022 have been recast to reflect the reclassification of certain reporting units (Brands) between operating segments. Specifically, Forsman & Bodenfors, Observatory, Crispin Porter Bogusky, Bruce Mau and Vitro Brands, previously within the Integrated Agencies Network, are now within the Brand Performance Network. See Note 20 of the Notes included herein for additional information related to these changes.

⁽³⁾ Other represents adjustments associated with the finalization of purchase price accounting for acquisitions occurring in 2021.

The Company recognized an impairment and other losses charge of \$122,179 for the year ended December 31, 2022, primarily related to the impairment of goodwill totaling \$116,714. The goodwill impairment was to write-down the carrying value in excess of the fair value at eight reporting units, two in the Integrated Agencies Network, five in the Brand Performance Network and one within the All Other category. The charge was recorded within Impairment and other losses on the Consolidated Statements of Operations.

At each reporting period, the Company assesses whether it is more likely than not that the carrying amount of its reporting units exceed their fair value. As of October 1, 2022 (the annual impairment test date) and December 31, 2022, the Company performed this assessment and determined that certain reporting units' carrying values exceeded their fair value. As of October 1, 2022, the Company performed a quantitative impairment test for all reporting units and as of December 31, 2022, the Company performed a quantitative impairment test for certain reporting units that were determined to be more likely than not impaired. As a result of these tests, management concluded there to be certain reporting units with a carrying value in excess of their fair value resulting in an impairment of \$116,714 in 2022. The difference in carrying value and fair value was primarily due to a combination of changes in fair value measures such as an increase in interest rates and decrease in market multiples of comparable public companies, as well as current financial forecasts below the previous forecast.

In its assessment, the Company uses a combination of the income approach, which incorporates the use of the discounted cash flow method, and the market approach, which incorporates the use of earnings and revenue multiples based on market data. The Company generally applies an equal weighting to the income and market approaches for the impairment test. The income approach and the market approach both require the exercise of significant judgment, including judgment about the amount and timing of expected future cash flows, assumed terminal value and appropriate discount rates.

There was \$116,714 of accumulated goodwill impairment charges as of December 31, 2022.

The gross and net amounts of intangible assets other than goodwill as of December 31, are as follows:

<u>Intangible Assets</u>	<u>2022</u>	<u>2021</u>
Customer relationships – gross	\$ 875,160	\$ 875,541
Accumulated amortization	(150,655)	(92,746)
Customer relationships – net	\$ 724,505	\$ 782,795
Trade names – gross	\$ 197,037	\$ 190,162
Accumulated amortization	(53,150)	(36,775)
Trade names – net	\$ 143,887	\$ 153,387
Developed technology and other intangible assets – gross	\$ 63,565	\$ 37,550
Accumulated amortization	(24,428)	(14,950)
Developed technology and other intangible assets – net	\$ 39,137	\$ 22,600
Total intangible assets	\$ 1,135,762	\$ 1,103,253
Accumulated amortization	(228,233)	(144,471)
Total intangible assets – net	\$ 907,529	\$ 958,782

The table above has been revised to reclassify previously reported gross capitalized software and accumulated amortization of \$29,844 and \$8,757, respectively, as of December 31, 2021 that should have been classified within intangible assets rather than fixed assets to more closely align these net assets with the category of assets they represent.

For the year ended December 31, 2022, the Company recognized an impairment charge of \$1,400 to reduce the carrying values of intangible assets within the Integrated Agencies Network and Brand Performance Network reportable segments primarily in connection with the abandonment of certain trade names as part of the integration of certain entities. For the year ended December 31, 2021, the Company recognized an impairment charge of \$16,187 to reduce the carrying values of intangible assets within the Integrated Agencies Network and Brand Performance Network reportable segments in connection with the abandonment of certain trade names as part of the rebranding of certain Brands. These charges were recorded as Impairment and other losses on the Consolidated Statements of Operations.

The weighted average amortization period for customer relationships is fourteen years, trade names is twelve years, and developed technology and other intangible assets is three years. In total, the weighted average amortization period is thirteen years. Amortization expense related to amortizable intangible assets for the years ended December 31, 2022, 2021, and 2020 was \$103,060, \$61,054, and \$33,999, respectively.

The estimated amortization expense for the five succeeding years is as follows:

<u>Year</u>	<u>Amortization</u>
2023	\$ 101,734
2024	96,245
2025	95,380
2026	84,089
2027	82,007
Thereafter	448,074

9. Deferred Acquisition Consideration

Deferred acquisition consideration on the Consolidated Balance Sheets consists of deferred obligations related to contingent and fixed purchase price payments, and contingent and fixed retention payments tied to continued employment of specific personnel. Contingent deferred acquisition consideration is recorded at the acquisition date fair value and adjusted at each reporting period within Office and general expenses on the Consolidated Statements of Operations.

The following table presents changes in contingent deferred acquisition consideration, which is measured at fair value on a recurring basis using significant unobservable inputs, and a reconciliation to the amounts reported on the Consolidated Balance Sheets as of December 31, 2022 and December 31, 2021:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Beginning balance	\$ 222,369	\$ 17,847
Payments	(73,963)	(12,431)
Adjustments to deferred acquisition consideration ⁽¹⁾	(12,779)	18,721
Additions ⁽²⁾	26,594	198,937
Currency translation adjustment	(759)	—
Other	(139)	(705)
Ending balance ⁽³⁾	<u>\$ 161,323</u>	<u>\$ 222,369</u>

⁽¹⁾ Adjustment to deferred acquisition consideration contains fair value changes from the Company's initial estimates of deferred acquisition payments. Adjustments to deferred acquisition consideration are recorded within Office and general expenses on the Consolidated Statements of Operations.

⁽²⁾ In 2021, approximately \$61,000 of additions represent deferred acquisition consideration acquired in connection with the acquisition of MDC. Approximately \$136,000 of additions represent deferred acquisition consideration acquired in connection with the purchases of noncontrolling interests. See Note 4 of the Notes included herein for additional information related to the purchases of Concentric, Targeted Victory, and Instrument. In 2022, approximately \$24,000 of additions represent deferred acquisition consideration acquired in connection with the acquisitions of BNG, Apollo, PEP Group and Epicenter. See Note 4 of the Notes included herein for additional information related to these acquisitions.

⁽³⁾ As of December 31, 2022, approximately \$51,000 of the deferred acquisition consideration is expected to be settled in the Company's Class A Common Stock.

10. Leases

The Company leases office space in North America, Europe, Asia, South America, Africa, and Australia. This space is primarily used for office and administrative purposes by the Company's employees in performing professional services. These leases are classified as operating leases and expire between years 2023 through 2034. The Company's finance leases are immaterial.

The Company's leasing policies are established in accordance with ASC 842, and accordingly, the Company recognizes on the balance sheet at the time of lease commencement a right-of-use lease asset and a lease liability, initially measured at the present value of the lease payments. Right-of-use lease assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. All right-of-use lease assets are reviewed for impairment. As the Company's implicit rate in its leases is not readily determinable, in determining the present value of lease payments, the Company uses its incremental borrowing rate based on the information available at the commencement date. Lease payments included in the measurement of the lease liability are comprised of non-cancellable lease payments, payments based upon an index or rate, payments for optional renewal periods where it is reasonably certain the renewal period will be exercised, and payments for early termination options unless it is reasonably certain the lease will not be terminated early.

Lease costs are recognized in the Consolidated Statements of Operations over the lease term on a straight-line basis. Leasehold improvements are depreciated on a straight-line basis over the lesser of the term of the related lease or the estimated useful life of the asset.

Some of the Company's leases contain variable lease payments, including payments based upon an index or rate. Variable lease payments based upon an index or rate are initially measured using the index or rate in effect at the lease commencement date and are included within the lease liabilities. Lease liabilities are not remeasured as a result of changes in the index or rate, rather changes in these types of payments are recognized in the period in which the obligation for those payments is incurred. In addition, some of our leases contain variable payments for utilities, insurance, real estate tax, repairs and maintenance, and other variable operating expenses. Such amounts are not included in the measurement of the lease liability and are recognized in the period when the facts and circumstances which the variable lease payments are based upon occur.

Some of the Company's leases include options to extend or renew the leases through 2044. The renewal and extension options are not included in the lease term as the Company is not reasonably certain that it will exercise its option.

From time to time, the Company enters into sublease arrangements with unrelated third parties. These leases are classified as operating leases and expire between years 2023 through 2032. Sublease income is recognized over the lease term on a straight-line basis. Currently, the Company subleases office space in North America and Europe.

As of December 31, 2022, the Company has entered into two operating leases for which the commencement date has not yet occurred primarily because of the premises being prepared for occupancy by the landlord. Accordingly, these two leases represent an obligation of the Company that is not reflected within the Consolidated Balance Sheets as of December 31, 2022. The aggregate future liability related to these leases is approximately \$3,266.

The discount rate used for leases accounted for under ASC 842 is the Company's collateralized credit adjusted borrowing rate.

The following table presents lease costs and other quantitative information for the years ended December 31, 2022, 2021, and 2020:

	Year Ended December 31,		
	2022	2021	2020
Lease Cost:			
Operating lease cost	\$ 75,190	\$ 46,019	\$ 25,507
Variable lease cost	18,575	10,685	3,843
Sublease rental income	(14,446)	(7,367)	(3,777)
Total lease cost	\$ 79,319	\$ 49,337	\$ 25,573
Additional information:			
Cash paid for amounts included in the measurement of lease liabilities for operating leases			
Operating cash flows	\$ 91,300	\$ 53,360	\$ 20,942
Right-of-use lease assets obtained in exchange for operating lease liabilities and other non-cash adjustments			
	\$ 27,761	\$ 373,179	\$ 2,952

As of December 31, 2022, the weighted average remaining lease term (in years) and weighted average discount rate were 6.4 and 4.5%, respectively.

Operating lease expense is included in office and general expenses in the Consolidated Statements of Operations. The Company's lease expense for leases with a term of 12 months or less is immaterial.

In the year ended December 31, 2022, the Company recorded a charge of \$2,582 to reduce the carrying value of three of its right-of-use lease assets and related leasehold improvements. These right-of-use lease assets related to agencies within the Integrated Agencies Network and the Brand Performance Network. As a result of subleasing or abandoning the space, the Company evaluated the facts and circumstances related to the use of the assets which indicated that they may not be recoverable. Using the sublease income to develop expected future cash flows, it was determined that the fair value of the assets were less than their carrying value. This impairment charge is included in Impairment and other losses within the Consolidated Statements of Operations.

The following table presents minimum future rental payments under the Company's leases at December 31, 2022 and their reconciliation to the corresponding lease liabilities:

	Maturity Analysis
2023	\$ 91,084
2024	77,438
2025	59,848
2026	44,589
2027	40,163
Thereafter	119,119
Total	432,241
Less: Present value discount	(61,843)
Lease liability	\$ 370,398

11. Debt

As of December 31, 2022 and December 31, 2021, the Company's indebtedness was comprised as follows:

	December 31, 2022	December 31, 2021
Revolving credit facility	\$ 100,000	\$ 110,165
5.625% Notes	1,100,000	1,100,000
Debt issuance costs	(15,293)	(18,564)
Total long-term debt	\$ 1,184,707	\$ 1,191,601

Interest expense related to long-term debt included in Interest expense, net on the Consolidated Statements of Operations for the years ended December 31, 2022, 2021, and 2020 was \$73,788, \$29,594, and \$5,472, respectively.

The amortization of debt issuance costs included in Interest expense, net on the Consolidated Statements of Operations for the years ended December 31, 2022, 2021, and 2020 \$2,358, \$2,693, and \$831, respectively.

Revolving Credit Agreement

On November 18, 2019, the Company entered into a debt agreement ("JPM Syndicated Facility") with a syndicate of banks led by JPMorgan Chase Bank, N.A ("JPM"). The JPM Syndicated Facility consisted of a five-year revolving credit facility of \$265,000 ("JPM Revolver") with the right to be increased by an additional \$150,000. On March 18, 2020, the Company increased the commitments on the JPM Revolver by \$60,000 to \$325,000.

On August 2, 2021, in connection with the closing of the acquisition of MDC, the Company entered into an amended and restated credit agreement (as further amended on April 28, 2022 and December 14, 2022, the "Combined Credit Agreement") with a syndicate of banks led by JPM to increase commitments on the existing JPM Revolver. The Combined Credit Agreement consists of a \$500,000 senior secured revolving credit facility with a five-year maturity.

The Combined Credit Agreement contains sub-limits for revolving loans denominated in pounds and euros not to exceed U.S. dollar equivalent of \$50,000 in pounds and \$50,000 in euros and \$100,000 in the aggregate. Additionally, the Combined Credit Agreement contains a \$15,000 sub-limit for letters of credits denominated in pounds or euros. It also includes an accordion feature under which the Company may request, subject to lender approval and certain conditions, to increase the amount of the commitments to an aggregate amount not to exceed \$650,000.

On April 28, 2022, the Company amended the Combined Credit Agreement. Among other things, this amendment replaced any references to LIBOR with references to SOFR. Borrowings pursuant to the Combined Credit Agreement, as amended, bear interest at a rate equal to, at the Company's option, (i) the greatest of (a) the prime rate of interest in effect on such day, (b) the federal funds effective rate plus 0.50% and (c) SOFR plus 1% in each case, plus the applicable margin (calculated based on the Company's Total Leverage Ratio, as defined in the Combined Credit Agreement) at that time. Additionally, the Combined Credit Agreement was amended to remove certain pre-commencement notice provisions for certain acquisitions under \$50,000 in the

aggregate, increased the amount permitted for certain investments allowed under the Combined Credit Agreement, and, subject to certain conditions, to allow for the repurchase of Stagwell Inc. stock in an amount not to exceed \$100,000 in any fiscal year. All other substantive terms of the Combined Credit Agreement remain unchanged.

Prior to April 28, 2022, borrowings under the Combined Credit Agreement bore interest at a rate equal to, at the Company's option, (i) the greatest of (a) the prime rate of interest announced from time to time by JPM, (b) the federal funds effective rate from time to time plus 0.50% and (c) the LIBOR rate plus 1%, in each case, plus the applicable margin (calculated based on the Company's total leverage ratio) at that time or (ii) the LIBOR rate plus the applicable margin (calculated based on the Company's total leverage ratio) at that time.

The Company transfers certain of its trade receivable assets to third parties under sales agreements. On December 14, 2022, the Company amended its Combined Credit Agreement to allow for the sale of accounts receivable with JPM. Refer to Note 2 of the Notes included herein for further detail of this agreement. All other substantive terms of the Combined Credit Agreement remained unchanged.

Advances under the Combined Credit Agreement may be prepaid in whole or in part from time to time without penalty or premium. The Combined Credit Agreement commitment may be reduced by the Company from time to time. Principal amounts outstanding under the Combined Credit Agreement are due and payable in full at maturity within five years of the date of the Combined Credit Agreement.

If an event of default occurs under the Combined Credit Agreement or any future secured indebtedness, the holders of such secured indebtedness will have a prior right to our assets securing such indebtedness, to the exclusion of the holders of the 5.625% Notes (as defined below), even if we are in default with respect to the 5.625% Notes. In that event, our assets securing such indebtedness would first be used to repay in full all indebtedness and other obligations secured by them (including all amounts outstanding under the Combined Credit Agreement), resulting in all or a portion of our assets being unavailable to satisfy the claims of the holders of the 5.625% Notes and other unsecured indebtedness.

The Combined Credit Agreement contains a number of financial and nonfinancial covenants and is guaranteed by substantially all of our present and future subsidiaries, subject to customary exceptions.

The Company was in compliance with all covenants at December 31, 2022.

A portion of the Combined Credit Agreement in an amount not to exceed \$50,000 is available for the issuance of standby letters of credit. At December 31, 2022 and December 31, 2021, the Company had issued undrawn outstanding letters of credit of \$25,305 and \$24,332, respectively.

Senior Notes

In August 2021, the Company issued \$1,100,000 aggregate principal amount of 5.625% senior notes ("5.625% Notes"). A portion of the proceeds from the issuance of the 5.625% Notes was used to redeem \$870,300 aggregate principal amount of the outstanding 7.50% Senior Notes due 2024 (the "Existing Notes") for a price of \$904,200. This price is equal to 101.625% of the outstanding principal amount of the Existing Notes being redeemed, plus, accrued, and unpaid interest on the principal amount of such Existing Notes. The Company did not recognize a gain or loss on redemption.

The 5.625% Notes are due August 15, 2029 and bear interest of 5.625% to be paid on February 15 and August 15 of each year, commencing on February 15, 2022.

The 5.625% Notes are guaranteed on a senior unsecured basis by substantially all of the Company's subsidiaries. The 5.625% Notes rank (i) equally in right of payment with all of the Company's or any guarantor's existing and future unsubordinated indebtedness, (ii) senior in right of payment to the Company's or any guarantor's existing and future subordinated indebtedness, (iii) effectively subordinated to any of the Company's or any guarantor's existing and future secured indebtedness to the extent of the collateral securing such indebtedness, including the Combined Credit Agreement, and (iv) structurally subordinated to all existing and future liabilities of the Company's subsidiaries that are not guarantors.

Our obligations under the 5.625% Notes are unsecured and are effectively junior to our secured indebtedness to the extent of the value of the collateral securing such secured indebtedness. Borrowings under the Combined Credit Agreement are secured by substantially all of the assets of the Company, and any existing and future subsidiary guarantors, including all of the capital stock of each restricted subsidiary.

The Company may, at its option, redeem the 5.625% Notes in whole at any time or in part from time to time, on and after August 15, 2024 at a redemption price of 102.813% of the principal amount thereof if redeemed during the twelve-month period beginning on August 15, 2024, at a redemption price of 101.406% of the principal amount thereof if redeemed during the twelve-month period beginning on August 15, 2025 and at a redemption price of 100% of the principal amount thereof if redeemed on August 15, 2026 and thereafter. Prior to August 15, 2024, the Company may, at its option, redeem some or all of the 5.625% Notes at a price equal to 100% of the principal amount of the 5.625% Notes plus a "make whole" premium and accrued and unpaid interest. The Company may also redeem, at its option, prior to August 15, 2024, up to 40% of the 5.625% Notes with the net proceeds from one or more equity offerings at a redemption price of 105.625% of the principal amount thereof.

If the Company experiences certain kinds of changes of control (as defined in the indenture), holders of the 5.625% Notes may require the Company to repurchase any 5.625% Notes held by them at a price equal to 101% of the principal amount of the 5.625% Notes plus accrued and unpaid interest. In addition, if the Company sells assets under certain circumstances, it must offer to repurchase the 5.625% Notes at a price equal to 100% of the principal amount of the 5.625% Notes plus accrued and unpaid interest.

The indenture includes covenants that, among other things, restrict the Company's ability and the ability of its restricted subsidiaries (as defined in the indenture) to incur or guarantee additional indebtedness; pay dividends on or redeem or repurchase the capital stock of the Company; make certain types of investments; create restrictions on the payment of dividends or other amounts from the Company's restricted subsidiaries; sell assets; enter into transactions with affiliates; create liens; enter into sale and leaseback transactions; and consolidate or merge with or into, or sell substantially all of the Company's assets to, another person. These covenants are subject to a number of important limitations and exceptions. The 5.625% Notes are also subject to customary events of default, including cross-payment default and cross-acceleration provisions. The Company was in compliance with all covenants at December 31, 2022.

12. Employee Benefit Plan

A subsidiary of the Company, sponsors a defined benefit plan with benefits based on each employee's years of service and compensation. The benefits under the defined benefit pension plan are frozen.

Net Periodic Pension Cost and Pension Benefit Obligation

Net periodic pension benefit consists of the following components for the years ended December 31:

	Pension Benefits	
	2022	2021
Interest cost on benefit obligation	\$ 1,104	\$ 441
Expected return on plan assets	(1,659)	(697)
Net periodic benefit income	\$ (555)	\$ (256)
Settlement gain	(198)	—
Total periodic benefit income	\$ (753)	\$ (256)

The above components are included within Other, net on the Consolidated Statements of Operations.

The following weighted average assumptions were used to determine net periodic costs at December 31:

	Pension Benefits	
	2022	2021
Discount rate	2.82 %	2.62 %
Expected return on plan assets	6.50 %	6.50 %
Rate of compensation increase	N/A	N/A

The expected return on plan assets is a long-term assumption established by considering historical and anticipated returns of the asset classes invested in by the pension plan and the allocation strategy currently in place among those classes.

Other changes in plan assets and benefit obligation recognized in Other comprehensive income (loss) consist of the following components for the years ended December 31:

	Pension Benefits	
	2022	2021
Current year actuarial gain	\$ (4,088)	\$ (722)
Total recognized in other comprehensive (income)	(4,088)	(722)
Total recognized in net periodic benefit income and other comprehensive	<u>\$ (4,841)</u>	<u>\$ (978)</u>

The following table summarizes the change in benefit obligation and fair values of plan assets for the years ended December 31:

	Pension Benefits	
	2022	2021
Change in benefit obligation:		
Benefit obligation, beginning balance ⁽¹⁾	\$ 40,005	\$ 41,206
Interest cost	1,104	441
Actuarial gains	(10,930)	(1,091)
Benefits paid	(2,135)	(551)
Benefit obligation, ending balance	<u>28,044</u>	<u>40,005</u>
Change in plan assets:		
Fair value of plan assets, beginning balance ⁽¹⁾	26,355	26,578
Actual loss on plan assets	(4,985)	328
Benefits paid	(2,135)	(551)
Fair value of plan assets, ending balance	<u>19,235</u>	<u>26,355</u>
Funded status	<u>\$ 8,809</u>	<u>\$ 13,650</u>

⁽¹⁾ Benefit obligation assumed in connection with the acquisition of MDC. Beginning balance is as of July 31, 2021.

Amounts recognized in the Consolidated Balance Sheets at December 31 consist of the following:

	Pension Benefits	
	2022	2021
Non-current liability	\$ 8,809	\$ 13,650
Net amount recognized	<u>\$ 8,809</u>	<u>\$ 13,650</u>

Amounts recognized in Accumulated other comprehensive loss before income taxes consists of the following components for the years ended December 31:

	Pension Benefits	
	2022	2021
Accumulated net actuarial gains	\$ 4,810	\$ 722
Amount recognized	<u>\$ 4,810</u>	<u>\$ 722</u>

In 2023, the Company estimates that it will recognize \$66 in amortization of net actuarial gains from Accumulated other comprehensive loss, net into net periodic cost related to the pension plan.

The following weighted average assumptions were used to determine benefit obligations as of December 31:

	Pension Benefits	
	2022	2021
Discount rate	5.47 %	2.82 %
Rate of compensation increase	N/A	N/A

The discount rate assumptions at December 31, 2022 and 2021 were determined independently. The discount rate was derived from the effective interest rate of a hypothetical portfolio of high-quality bonds, whose cash flows match the expected future benefit payments from the plan as of the measurement date.

Fair Value of Plan Assets and Investment Strategy

The fair value of the plan assets as of December 31, is as follows:

Asset Category:	2022	Level 1	Level 2	Level 3
	Receivables	\$ 15	\$ 15	\$ —
Money market fund – Short-term investments	804	804	—	—
Mutual funds	18,416	18,416	—	—
Total	<u>\$ 19,235</u>	<u>\$ 19,235</u>	<u>\$ —</u>	<u>\$ —</u>

Asset Category:	2021	Level 1	Level 2	Level 3
	Money market fund – Short-term investments	\$ 937	\$ 937	\$ —
Mutual funds	25,418	25,418	—	—
Total	<u>\$ 26,355</u>	<u>\$ 26,355</u>	<u>\$ —</u>	<u>\$ —</u>

See Note 18 of the Notes included herein for additional information regarding the fair value hierarchy.

The pension plan's weighted average asset allocation for the years ended December 31, 2022 and 2021 were as follows:

Asset Category:	Target Allocation	Actual Allocation	
	2022	2022	2021
Equity securities	65.0 %	67.4 %	69.1 %
Debt securities	30.0 %	28.4 %	27.3 %
Cash/cash equivalents and Short-term	5.0 %	4.2 %	3.6 %
Total	<u>100.0 %</u>	<u>100.0 %</u>	<u>100.0 %</u>

The goals of the pension plan investment program are to fully fund the obligation to pay retirement benefits in accordance with the plan documents and to provide returns that, along with appropriate funding from the Company, maintain an asset/liability ratio that is in compliance with all applicable laws and regulations and assures timely payment of retirement benefits.

Equity securities primarily include investments in large-cap and mid-cap companies located in the United States. Debt securities are diversified across different asset types with bonds issued in the United States as well as outside the United States. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the preceding tables.

Cash Flows

The pension plan contributions are deposited into a trust, and the pension plan benefit payments are made from trust assets. During 2022 and 2021, the Company did not make any contributions to the pension plan. The Company estimates that it will

make approximately \$787 in contributions to the pension plan in 2023. Fluctuations in actual market returns as well as changes in general interest rates will result in changes in the market value of plan assets and may result in increased or decreased retirement benefit costs and contributions in future periods.

The following estimated benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the years ending December 31:

Period	Amount
2023	\$ 1,794
2024	2,014
2025	1,932
2026	1,958
2027	1,903
Thereafter	10,022

13. Noncontrolling and Redeemable Noncontrolling Interests

Noncontrolling Interests

When acquiring less than 100% ownership of an entity, the Company may enter into agreements that give the Company an option to purchase, or require the Company to purchase, the incremental ownership interests under certain circumstances. Where the option to purchase the incremental ownership is within the Company's control, the amounts are recorded as Noncontrolling interests within Shareholder's Equity in the Consolidated Balance Sheets. Where the incremental purchase may be required of the Company, the amounts are recorded as Redeemable noncontrolling interests in mezzanine equity in the Consolidated Balance Sheets at their estimated acquisition date redemption value and adjusted at each reporting period for changes to their estimated redemption value through Retained earnings (but not less than their initial redemption value), except for foreign currency translation adjustments.

Changes in the Company's ownership interests in its less than 100% owned subsidiaries during the years ended December 31, 2022, 2021, and 2020 were as follows:

	Year Ended December 31,		
	2022	2021	2020
Net income attributable to Stagwell Inc. common shareholders	\$ 27,269	\$ 21,036	\$ 56,356
Transfers from the noncontrolling interest:			
Change in Stagwell Inc. Paid-in capital for purchase of redeemable noncontrolling interests and noncontrolling interests	(1,000)	(26,538)	—
Change in Stagwell Inc. Paid-in-Capital for conversion of Class C to Class A shares	47,911	—	—
Net transfers from noncontrolling interests	46,911	(26,538)	—
Change from net income (loss) attributable to Stagwell Inc. and transfers to noncontrolling interests	\$ 74,180	\$ (5,502)	\$ 56,356

The following table presents net income attributable to noncontrolling interests between holders of Class C Common Stock and other equity interest holders for the years ended December 31, 2022, 2021, and 2020:

	Year Ended December 31,		
	2022	2021	2020
Net income attributable to Class C shareholders	\$ 24,452	\$ 6,126	\$ —
Net income attributable to other equity interest holders	5,986	9,170	18,231
Net income attributable to noncontrolling interests	\$ 30,438	\$ 15,296	\$ 18,231

The following table presents noncontrolling interests between holders of Class C Common Stock and other equity interest holders as of December 31, 2022 and December 31, 2021:

	December 31, 2022	December 31, 2021
Noncontrolling interest of Class C shareholders	\$ 428,406	\$ 475,373
Noncontrolling interest of other equity interest holders	33,691	32,914
NCI attributable to noncontrolling interests	\$ 462,097	\$ 508,287

The table above has been revised to reclassify approximately \$45,422 from previously reported non-controlling interests to additional paid-in capital that should have been recognized as a result of the exchange of Paired Units for shares of the Company's Class A common stock in February 2022.

Redeemable Noncontrolling Interests

The following table presents changes in redeemable noncontrolling interests:

	December 31, 2022	December 31, 2021
Beginning balance	\$ 43,364	\$ 604
Redemptions	(4,222)	(15,231)
Acquisitions ⁽¹⁾	—	53,270
Changes in redemption value	(8,711)	3,834
Net income (loss) attributable to redeemable noncontrolling interests	8,135	(412)
Other	545	1,299
Ending balance	\$ 39,111	\$ 43,364

⁽¹⁾ In 2021, approximately \$26,000 represents redeemable noncontrolling interests acquired in connection with the acquisition of MDC. Approximately \$27,000 represents redeemable noncontrolling interests acquired in connection with the purchase of the noncontrolling interest of Targeted Victory. See Note 4 of the Notes included herein for additional information related to the purchase of Targeted Victory.

The noncontrolling shareholders' ability to exercise any such option right is subject to the satisfaction of certain conditions, including conditions requiring notice in advance of exercise and specific employment termination conditions. In addition, these rights cannot be exercised prior to specified staggered exercise dates. The exercise of these rights at their earliest contractual date would result in obligations of the Company to fund the related amounts during 2022 to 2027. It is not determinable, at this time, if or when the owners of these rights will exercise all or a portion of these rights.

The redeemable noncontrolling interest of \$39,111 as of December 31, 2022, consists of \$35,206, assuming that the subsidiaries perform over the relevant periods at their current profit levels, and \$3,905 upon termination of such owner's employment with the applicable subsidiary or death.

These adjustments will not impact the calculation of earnings (loss) per share if the redemption values are less than the estimated fair values. There is no related impact on the Company's income per share calculations.

14. Commitments, Contingencies, and Guarantees

Legal Proceedings. The Company's operating entities are involved in legal proceedings of various types. While any litigation contains an element of uncertainty, the Company has no reason to believe that the outcome of such proceedings or claims will have a material adverse effect on the financial condition or results of operations of the Company.

Guarantees. Generally, the Company has indemnified the purchasers of certain assets in the event that a third party asserts a claim against the purchaser that relates to a liability retained by the Company. These types of indemnification guarantees typically extend for a number of years. Historically, the Company has not made any significant indemnification payments under such agreements and no amount has been accrued in the accompanying audited consolidated financial statements with respect to these indemnification guarantees. The Company continues to monitor the conditions that are subject to guarantees and indemnifications

to identify whether it is probable that a loss has occurred and would recognize any such losses under any guarantees or indemnifications in the period when those losses are probable and estimable.

Commitments. At December 31, 2022, the Company had \$25,305 of undrawn letters of credit outstanding.

The Company entered into two operating leases for which the commencement date has not yet occurred as of December 31, 2022. See Note 10 of the Notes included herein for additional information.

In the ordinary course of business, the Company may enter into long-term, non-cancellable contracts with partner associations that include revenue or profit-sharing commitments related to the provision of its services. These contracts may also include provisions that require the partner associations to meet certain performance targets prior to any obligation to the Company. As of December 31, 2022, the Company estimates its future minimum commitments under these non-cancellable agreements to be: \$5,893, \$1,804, \$1,304, \$1,066, and \$44 for 2023, 2024, 2025, 2026, and 2027, respectively.

15. Share Capital

On March 23, 2022, the board of directors authorized the Repurchase Program under which we may repurchase up to \$125,000 of shares of our outstanding Class A Common Stock.

Under the Repurchase Program, share repurchases may be made at our discretion from time to time in open market transactions at prevailing market prices (including through trading plans that may be adopted in accordance with Rule 10b5-1 of the Securities Exchange Act of 1934, in privately negotiated transactions, or through other means. The timing and number of shares repurchased under the Repurchase Program will depend on a variety of factors, including the performance of our stock price, general market and economic conditions, regulatory requirements, the availability of funds, and other considerations we deem relevant. The Repurchase Program may be suspended, modified or discontinued at any time without prior notice. Our board of directors will review the Repurchase Program periodically and may authorize adjustments of its terms.

As of December 31, 2022, there were 7,194 shares of Class A Common Stock repurchased under the Repurchase Program at an aggregate value, excluding fees, of \$51,547. These were purchased at an average share price of \$7.17 per share. The remaining value of shares of Class A Common Stock permitted to be repurchased under the Repurchase Program was \$73,309 as of December 31, 2022.

On March 1, 2023, the Board authorized an extension and a \$125,000 increase in the size of the Repurchase Program to an aggregate of \$250,000, with any previous purchases under the Repurchase Program continuing to count against that limit. The Repurchase Program, as amended, will expire on March 1, 2026.

The authorized and outstanding share capital of the Company is below.

Class A Common Stock

There are 1,000,000 shares of Class A Common Stock, authorized, of which 131,720 shares were issued and outstanding as of December 31, 2022. Each share of Class A Common Stock carries one vote and entitles its holder to dividends equal to or greater than each share of Class B Common Stock.

Class B Common Stock

There are 5 shares of Class B Common Stock authorized, of which 4 shares were issued and outstanding as of December 31, 2022. Each share of Class B Common Stock carries twenty votes and is convertible at any time at the option of the holder into one share of Class A Common Stock.

Class C Common Stock

There are 250,000 shares of Class C Common Stock authorized, of which 160,909 shares were issued and outstanding as of December 31, 2022. Each share of Class C Common Stock carries one vote and does not represent an economic interest in the Company. Each share of Class C Common Stock is paired with a corresponding common unit of OpCo (each such paired share of Class C Common Stock and common unit of OpCo, a "Paired Unit"). Each holder of Paired Units may, at its option, exchange such Paired Units for shares of Class A Common Stock on a one-to-one basis (i.e., one Paired Unit for one share of Class A Common Stock).

In 2021, an aggregate of 179,970 Paired Units were issued to Stagwell Media in exchange for the equity interests of the Stagwell Subject Entities. In the year ended December 31, 2022, holders of Paired Units exchanged 19,061 Paired Units for the same number of shares of Class A Common Stock. Of these 19,061 Paired Units, approximately 5,000 triggered an employee tax withholding obligation of \$14,900. The Company repurchased approximately 2,000 of the 5,000 shares of Class A Common Stock issued to the employees to satisfy its employee tax withholding obligation.

Shares-based Awards

As of December 31, 2022 and 2021, of the total number of shares authorized, 12,858 and 2,839, respectively, remain available to be issued for future awards.

The following tables summarize share-based activity of awards authorized under our employee stock incentive plans and awards (such as inducement awards) and other share-based commitments that have met the requirements to be issued separate from shareholder-approved stock incentive plans.

The following table summarizes information about performance-based and time-based restricted stock and restricted stock unit awards:

	Performance-Based Awards		Time-Based Awards	
	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value
Balance at December 31, 2020	—	\$ —	—	\$ —
Shares acquired concurrent with acquisition	—	—	3,326	5.42
Granted	1,048	8.68	12,659	5.51
Vested	—	—	(282)	5.42
Forfeited	—	—	(4)	5.42
Balance at December 31, 2021	1,048	\$ 8.68	15,699	\$ 5.49
Granted	1,372	7.03	5,075	7.38
Vested	—	—	(14,182)	5.45
Forfeited	(34)	7.79	(323)	6.20
Balance at December 31, 2022	2,386	\$ 7.74	6,269	\$ 7.07

The vesting of the performance-based awards is contingent primarily upon the Company meeting certain cumulative revenue and earnings targets, primarily ranging over two to three years, and continued employment through the vesting date. The term of the time-based awards is generally three years with vesting generally one to three years. The vesting period of the time-based and performance-based awards is generally commensurate with the requisite service period.

The total fair value of restricted stock and restricted stock unit awards, which vested during the years ended December 31, 2022 and 2021, was \$77,332 and \$1,527, respectively. At December 31, 2022, the weighted average remaining contractual life for time-based and performance-based awards was 0.65 and 1.86 years, respectively. At December 2021, the weighted average remaining contractual life for time-based and performance-based awards was 0.37 and 2.37 years, respectively.

At December 31, 2022 and 2021, the unrecognized compensation expense for time-based awards was \$16,449 and \$15,376, respectively, and will be recognized over a weighted average period of 0.65 years and 0.37 years, respectively.

At December 31, 2022 and 2021, the unrecognized compensation expense for performance-based awards was \$12,781 and \$8,221, respectively, and will be recognized over a weighted average period of 1.86 and 2.37 years, respectively.

The following table summarizes information about stock appreciation rights (“SAR”) awards:

	SAR Awards		
	Shares	Weighted Average Grant Date Fair Value	Weighted Average Exercise Price
Balance at December 31, 2020	—	\$ —	\$ —
Shares acquired concurrent with acquisition	3,379	2.94	2.95
Granted	1,598	2.39	8.13
Forfeited	(84)	1.35	6.60
Balance at December 31, 2021	4,893	\$ 2.79	\$ 4.58
Granted	—	—	—
Forfeited	—	—	—
Exercised	(48)	3.66	6.00
Balance at December 31, 2022	4,845	\$ 2.78	\$ 4.57

We use the Black-Scholes option-pricing model to estimate the fair value of SAR awards.

The grant date fair value of the SARs granted in 2021 ranged from \$2.20 to \$3.66. SARs granted in 2021 vest in 1 to 3 years. The vesting period of these awards is generally commensurate with the requisite service period. The assumptions used to value these awards were as follows: expected life ranging from 2.8 to 4 years, risk free interest rate of approximately 1.0%, expected volatility ranging from 35.5% to 38.1%, and dividend yield of 0.0%. The term of these awards is 5 years.

Certain of the Company’s SAR awards are settled in cash. These awards are liability classified and remeasured at each reporting period. As of December 31, 2022, the assumptions for the Black-Scholes model for these awards were as follows: expected life ranging from 2 to 3 years, risk free interest rate of approximately 4%, expected volatility ranging from 37.0% to 41.4%, and dividend yield of 0.0%. The remaining term of these awards as of December 31, 2022, is approximately 4 years.

For the years ended December 31, 2022 and 2021, the number of SAR awards that vested were 1,943 and 1,950, respectively. As of December 31, 2022 and 2021, 3,845 and 1,950 SAR awards had vested and were exercisable, respectively.

The aggregate intrinsic value of the SAR awards outstanding as of December 31, 2022 and 2021 was \$11,063 and \$19,677 respectively. At December 31, 2022 and 2021, the weighted average remaining contractual life for the SAR awards was 1.45 years and 1.15 years, respectively.

At December 31, 2022 and 2021, the unrecognized compensation expense for these awards was \$1,175 and \$4,639, respectively, to be recognized over a weighted average period of 1.45 and 1.15 years, respectively.

For the years ended December 31, 2022 and 2021, the total recognized in stock-based compensation related to all stock compensation awards was \$36,663 and \$75,032, respectively. The related income tax benefit for the years ended December 31, 2022 and 2021 was \$4,106 and \$5,289, respectively.

Subsidiary Awards

Certain of the Company’s subsidiaries grant awards to their employees providing them with an equity interest in the respective subsidiary (the “profits interests awards”). The profits interests awards generally provide the employee the right, but not the obligation, to sell its profits interest in the subsidiary to the Company based on a performance-based formula and, in certain cases, receive a profit share distribution. The profits interests awards are settled in cash and the corresponding liability was \$20,961 and \$36,418 at December 31, 2022 and 2021, respectively and is included as a component of Accruals and other liabilities and Other liabilities on the Consolidated Balance Sheets. The change in the profits interest liabilities for the years ended December 31, 2022 and 2021 was a decrease of \$4,179 and an increase of \$536, respectively and was recorded as stock-based compensation in Office and general expenses within the Statements of Operations.

16. Changes in Accumulated Other Comprehensive Income (Loss)

The changes in accumulated other comprehensive income (loss) for the years ended December 31 were:

	Defined Benefit Pension	Foreign Currency Translation	Total
Balance December 31, 2020	\$ —	\$ —	\$ —
Other comprehensive loss before reclassifications	—	(6,000)	(6,000)
Amounts reclassified from accumulated other comprehensive income	722	—	722
Other comprehensive loss	722	(6,000)	(5,278)
Balance December 31, 2021	722	(6,000)	(5,278)
Other comprehensive loss before reclassifications	4,088	(37,751)	(33,663)
Other comprehensive loss	4,088	(37,751)	(33,663)
Balance December 31, 2022	\$ 4,810	\$ (43,751)	\$ (38,941)

17. Income Taxes

The components of the Company’s income before income taxes and equity in earnings of non-consolidated affiliates by taxing jurisdiction for the years ended December 31, were:

	2022	2021	2020
Income (Loss):			
U.S.	\$ 29,597	\$ 38,717	\$ 95,939
Non-U.S.	43,904	20,841	(18,599)
	\$ 73,501	\$ 59,558	\$ 77,340

The provision (benefit) for income taxes by taxing jurisdiction for the years ended December 31, were:

	2022	2021	2020
Current tax provision			
U.S. federal	\$ 3,913	\$ 7,259	\$ 5,812
U.S. state and local	5,588	7,459	3,242
Non-U.S.	16,398	12,498	2,346
	25,899	27,216	11,400
Deferred tax provision (benefit):			
U.S. federal	(8,049)	(143)	(1,951)
U.S. state and local	(6,439)	(2,521)	389
Non-U.S.	(3,831)	(1,154)	(3,901)
	(18,319)	(3,818)	(5,463)
Income tax expense	\$ 7,580	\$ 23,398	\$ 5,937

A reconciliation of income tax expense (benefit) using the U.S. federal income tax rate compared with actual income tax expense for the years ended December 31, is as follows:

	2022	2021	2020
Income before income taxes, equity in non-consolidated affiliates and noncontrolling interest	\$ 73,501	\$ 59,558	\$ 77,340
Statutory income tax rate	21.0 %	21.0 %	21.0 %
Tax expense using U.S. statutory income tax rate	\$ 15,435	\$ 12,507	\$ 16,241
Impact of disregarded entity structure	(3,355)	(6,954)	(16,049)
Foreign, net	2,111	5,995	752
State taxes, net	(850)	4,327	1,980
Stock compensation	(1,342)	4,009	—
Valuation allowance	2,760	(15)	1,286
Revaluation of TRA step up	(6,952)	—	—
Return to provision adjustments	(16,159)	—	—
Goodwill impairments	14,645	—	—
Other, net	1,287	3,529	1,727
Income tax expense	\$ 7,580	\$ 23,398	\$ 5,937
Effective income tax rate	10.3 %	39.3 %	7.7 %

Prior to merger, the Company was a limited liability company classified as a disregarded entity for U.S. federal income tax purposes, and as such was not subject to taxes from a U.S. federal income tax perspective. After the merger, the Company is a corporation with an investment in a limited liability company classified as a partnership for U.S. federal income tax purposes, and as such a portion of the consolidated income is not subject to taxes from a U.S. federal income tax perspective. The tax rate of 21.0% has been used to capture the U.S. federal taxes of the Company and the corporations owned by the Company and recorded in the Consolidated Statements of Operations and Comprehensive Income.

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security (“CARES”) Act was signed into law. The CARES Act includes provisions relating to delaying certain payroll tax payments, refundable payroll tax credits, net operating loss carryback periods, modifications to the net interest deduction limitations and technical corrections to the tax depreciation methods for qualified improvement property. The tax law changes in the CARES Act did not have a material impact on the Company’s income tax provision.

In August 2022, the United States enacted the Inflation Reduction Act of 2022 (“IRA”), which creates a new book minimum tax of at least 15% of consolidated GAAP pre-tax income for corporations with average book income in excess of \$1 billion. We do not expect an increase in our tax liability from this new book minimum tax in 2023.

Income taxes receivable were \$15,191 and \$790 at December 31, 2022 and 2021, respectively, and were included in other current assets on the balance sheet. Income taxes payable were \$6,850 and \$24,643 at December 31, 2022 and 2021, respectively, and were included in accrued and other liabilities on the balance sheet.

The tax effects of significant temporary differences representing deferred tax assets and liabilities at December 31, were as follows:

	2022	2021	2020
Deferred tax assets:			
Net operating losses	\$ 38,871	\$ 33,112	\$ 10,229
Tax credits	7,104	6,644	583
Operating lease liability	52,442	48,173	4,141
Interest deductions	29,530	30,760	—
Accruals and other liabilities	2,794	3,720	—
TRA and related step-up, net of amortization	32,890	—	—
Other	14,557	15,160	3,344
Gross deferred tax asset	178,188	137,569	18,297
Less: valuation allowance	(12,223)	(5,825)	(5,551)
Net deferred tax assets	\$ 165,965	\$ 131,744	\$ 12,746
Deferred tax liabilities:			
Right-of-use lease asset - operating leases	40,012	37,001	3,577
Property and equipment, net	6,839	4,212	463
Goodwill and intangibles	90,599	83,607	21,959
Residual basis differences	—	102,297	—
Other	940	6,854	2,639
Total deferred tax liabilities	138,390	233,971	28,638
Net deferred tax asset (liability)	\$ 27,575	\$ (102,227)	\$ (15,892)
Deferred tax assets			
	\$ 67,684	\$ 866	\$ 158
Deferred tax liabilities			
	(40,109)	(103,093)	(16,050)
	\$ 27,575	\$ (102,227)	\$ (15,892)

The preliminary deferred tax liability for the Company’s residual basis difference in OpCo of \$102,297 reflected in the table above as of December 31, 2021 was adjusted to zero as of December 31, 2022 to reflect the finalization of the Company’s book and tax basis in OpCo. This deferred tax liability had a balance of \$119,470 as of September 30, 2022 that should have been zero. In addition, a deferred tax liability of \$16,700, and the associated reduction to additional paid-in-capital was not recorded when the exchanges of Paired Units for Class A Common Stock occurred in February 2022. The correction has been reflected as of December 31, 2022.

Tax Receivables Agreement

In connection with the closing of the Transaction, we entered into the Tax Receivables Agreement (“TRA”) with OpCo and Stagwell Media, pursuant to which we are required to make cash payments to Stagwell Media equal to 85% of certain U.S. federal, state and local income tax or franchise tax savings, if any, that we actually realize, or in certain circumstances are deemed to realize, as a result of (i) increases in the tax basis of OpCo’s assets resulting from exchanges of Paired Units (defined in Note 11) for shares of Class A Common Stock or cash, as applicable, and (ii) certain other tax benefits related to us making payments under the TRA.

The Company accounts for amounts payable under the TRA in accordance with ASC 450-Contingencies. We will evaluate the likelihood that we will realize the benefit represented by the deferred tax asset and, to the extent that we estimate that it is more likely than not that we will not realize the benefit, we will reduce the carrying amount of the deferred tax asset with a valuation allowance and a corresponding reduction to the TRA liability. The amounts to be recorded for both the deferred tax assets and the liability under the TRA will be estimated at the time of any purchase or exchange as a reduction to shareholders’ equity, and the effects of changes in any of our estimates after this date will be included in net income or loss. Similarly, the effect of subsequent changes in the enacted tax rates will be included in net income or loss.

In the first quarter of 2022, the Company had its first exchange of Paired Units for shares of Class A Common Stock and recorded its initial TRA liability. Further exchanges have been made in the subsequent quarters. As of December 31, 2022 the Company has recorded a TRA liability of \$28,694 and a deferred tax asset, net of amortization of \$32,890 in connection with the exchanges of the Paired Units and the projected obligations under the TRA.

Stagwell Inc. itself has net operating loss carryforwards of \$57,553 relating to U.S. states which expire years 2024 through 2042. Stagwell Inc. also had indefinite net operating loss carryforwards which consist of \$44,048 relating to U.S. federal, and \$140,608 relating to states. Stagwell Inc. also has foreign tax credit and general business carryovers of \$7,104 which expire between 2024 and 2031.

Stagwell Inc.'s consolidated corporate subsidiaries also have net operating loss carryforwards which expire in years 2022 through 2044. These definite lived net operating loss carryforwards consist of \$18,730 relating to U.S. federal, \$21,403 relating to states and \$20,099 relating to non-U.S. The corporate subsidiaries also have indefinite net operating loss carryforwards which consist of \$10,555 relating to U.S. federal, and \$15,363 relating to non-U.S. The majority of the consolidated corporate subsidiaries' U.S. tax attributes are subject to an annual limitation as a result of historic acquisitions which constituted a change of ownership as defined under Internal Revenue Code 382.

The Company records a valuation allowance against deferred income tax assets when management believes it is more likely than not that some portion or all of the deferred income tax assets will not be realized. Management evaluates all positive and negative evidence and considers factors such as the reversal of taxable temporary differences, taxable income in eligible carryback years, future taxable income, and tax planning strategies. A change to these factors could impact the estimated valuation allowance and income tax expense.

The Company maintained a valuation allowance of \$12,223 as of December 31, 2022 relating to both U.S. and foreign deferred tax assets, and \$5,825 as of December 31, 2021 relating to U.S. and foreign deferred tax assets.

The Company is permanently reinvested with respect to its foreign earnings in certain jurisdictions, and no deferred taxes have been recorded related to such earnings as the determination of the amount is not practicable. The Company currently does not intend to distribute previously taxed income. Upon distribution in the future, the Company may incur state and foreign withholding taxes on such income, the amount of which is not practicable to compute.

As of December 31, 2022 and 2021, the Company recorded a liability for unrecognized tax benefits as well as applicable penalties and interest in the amount of \$2,159 and \$1,120, respectively. It is the Company's policy to classify interest and penalties arising in connection with unrecognized tax benefits as a component of income tax expense. As of December 31, 2022 and 2021, accrued penalties and interest included in unrecognized tax benefits were approximately \$23 and \$82, respectively. If these unrecognized tax benefits were to be recognized, it would affect the Company's effective tax rate.

	2022	2021
A reconciliation of the change in unrecognized tax benefits is as follows:		
Unrecognized tax benefit - Beginning Balance	\$ 1,038	\$ —
Current year positions	—	—
Prior period positions	1,850	1,038
Settlements	(477)	—
Lapse of statute of limitations	(275)	—
Unrecognized tax benefits - Ending Balance	<u>\$ 2,136</u>	<u>\$ 1,038</u>

It is reasonably possible that the amount of unrecognized tax benefits could decrease by a range of \$104 to \$286 in the next twelve months as a result of expiration of certain statute of limitations.

The Company is subject to taxation and files income tax returns in the U.S. federal jurisdiction and in many state and foreign jurisdictions. The statute of limitations for tax years prior to 2019 are closed for U.S. federal purposes. The statute of limitations for tax years prior to 2016 have also expired in non-U.S. jurisdictions.

18. Fair Value Measurements

A fair value measurement assumes a transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability.

In determining fair value, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value. The hierarchy for observable and unobservable inputs used to measure fair value into three broad levels are described below:

- Level 1 - Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.
- Level 2 - Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.
- Level 3 - Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

Financial Instruments that are not Measured at Fair Value on a Recurring Basis

The following table presents certain information for our financial liability that is not measured at fair value on a recurring basis at December 31:

	December 31, 2022		December 31, 2021	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
5.625% Notes	\$ 1,100,000	\$ 902,000	\$ 1,100,000	\$ 1,120,900

The fair value of this instrument is based on quoted market prices in markets that are not active. Therefore, this debt is classified as Level 2 within the fair value hierarchy.

Financial Instruments Measured at Fair Value on a Recurring Basis

Contingent deferred acquisition consideration (Level 3 fair value measurement) is initially recorded at the acquisition date fair value and adjusted at each reporting period. The estimated liability is determined in accordance with models of each business' future performance, including revenue growth and free cash flows. These models are dependent upon significant assumptions, such as the growth rate of the earnings of the relevant subsidiary during the contractual period and the discount rate. These growth rates are consistent with the Company's long-term forecasts. As of December 31, 2022, the discount rate used to measure these liabilities ranged from 5.2% to 5.4%.

As these estimates require the use of assumptions about future performance, which are uncertain at the time of estimation, the fair value measurements presented on the Consolidated Balance Sheets are subject to material uncertainty.

See Note 9 of the Notes included herein for additional information regarding contingent deferred acquisition consideration.

At December 31, 2022 and December 31, 2021, the carrying amount of the Company's financial instruments, including cash, cash equivalents, accounts receivable and accounts payable, approximated fair value because of their short-term maturity.

Non-financial Assets and Liabilities that are Measured at Fair Value on a Nonrecurring Basis

Certain non-financial assets are measured at fair value on a nonrecurring basis, primarily goodwill, intangible assets (Level 3 fair value measurements) and right-of-use lease assets (Level 2 fair value measurement). Accordingly, these assets are not measured and adjusted to fair value on an ongoing basis but are subject to periodic evaluations for potential impairment.

See Note 10 of the Notes included herein for additional information regarding the impairment of right-of-use lease assets and Note 8 of the Notes included herein for additional information regarding the impairment of goodwill and intangible assets.

19. Related Party Transactions

In the ordinary course of business, the Company enters into transactions with related parties, including its affiliates. The transactions may range in the nature and value of services underlying the arrangements. The following table presents significant related party transactions where a third party receives services from the Company:

Services	Total Transaction Value	Revenues			Due From Related Party	
		Year Ended December 31,			December 31, 2022	December 31, 2021
		2022	2021	2020

⁽¹⁾ Family member of one of the Brand's partners holds an executive leadership position in the third party.

⁽²⁾ Chief Executive Officer of the Brand is a shareholder of the affiliate providing the services.

⁽³⁾ A family member of the Company's President holds a key leadership position in the client.

⁽⁴⁾ This arrangement was entered into for an indefinite term and is invoiced as services are provided.

⁽⁵⁾ A member of the Company's board of directors holds an executive leadership position or are on the board of directors of the client.

In 2019, a Brand of the Company, entered into a loan agreement with a third party who holds a minority interest in the Brand. The loan receivable of \$3,611 and \$3,784 due from the third party is included within Other current assets in the Company's Consolidated Balance Sheets as of December 31, 2022 and December 31, 2021, respectively. The Company recognized \$464, \$307, and \$249 for the years ended December 31, 2022, 2021, and 2020, respectively, of interest income within Interest expense, net on its Consolidated Statements of Operations.

The Company made loans to three employees of a subsidiary each in the amount of approximately \$889, together with interest on the unpaid principal balance at a fixed interest rate equal to 3.5% per annum, compounding quarterly. The cash from the loan was used by the employees to purchase the noncontrolling interest of 13.3% in TMA Direct.

Prior Period Transactions

In October 2020, a Brand entered into an arrangement to provide marketing services to a client in which one of the Brand's partners holds a key leadership position. During the years ended December 31, 2021 and 2020, the Company recognized \$5,146 and \$4,866, respectively, in revenue related to this transaction. As of December 31, 2022 and 2021, there were no balances due from the client related to this arrangement. This transaction was fully recognized in 2021.

During the years ended December 31, 2021 and 2020, Stagwell Media made additional non-cash investments in the Company of \$12,400, and \$93,900 respectively. Additionally, during the years ended December 31, 2021 and 2020, the Company made cash investments of \$1,600 and \$1,500, respectively. In March 2021, the Company made a non-cash distribution to Stagwell Media of \$13,000. Additionally, the Company made cash distributions to Stagwell Media of \$191,900 and \$108,500 for the years ended December 31, 2021 and 2020, respectively.

20. Segment Information

The Company determines an operating segment if a component (i) engages in business activities from which it earns revenues and incurs expenses, (ii) has discrete financial information, and is (iii) regularly reviewed by the Chief Operating Decision Maker ("CODM"), who is Mark Penn, Chief Executive Officer and Chairman, to make decisions regarding resource allocation for the segment and assess its performance. Once operating segments are identified, the Company performs an analysis to determine if aggregation of operating segments is applicable. This determination is based upon a quantitative analysis of the expected and historic average long-term profitability for each operating segment, together with a qualitative assessment to determine if operating segments have similar operating characteristics.

The CODM uses Adjusted EBITDA (defined below) as a key metric, to evaluate the operating and financial performance of a segment, identify trends affecting the segments, develop projections and make strategic business decisions. Adjusted EBITDA is defined as Net income excluding non-operating income or expense to achieve operating income, plus depreciation and amortization, stock-based compensation, deferred acquisition consideration adjustments, and other items. Other items include restructuring costs, acquisition-related expenses, and non-recurring items.

Due to changes in the Company's internal management and reporting structure in the second quarter of 2022, reportable segment results for periods presented prior to the second quarter of 2022 have been recast to reflect the reclassification of certain reporting units (Brands) between operating segments. The changes in reportable segments were that the Forsman & Bodenfors, Observatory, Crispin Porter Bogusky, Bruce Mau and Vitro Brands, previously within the Integrated Agencies Network, are now within the Brand Performance Network.

The Company has three reportable segments as follows: "Integrated Agencies Network," "Brand Performance Network" and the "Communications Network." In addition, the Company combines and discloses operating segments that do not meet the aggregation criteria as "All Other." The Company also reports corporate expenses, as further detailed below, as "Corporate." All segments follow the same basis of presentation and accounting policies as those described throughout the Notes included herein.

- The **Integrated Agencies Network** includes five operating segments: the Anomaly Alliance, Constellation, the Doner Partner Network, Code and Theory, and National Research Group. The operating segments offer an array of complementary services spanning our core capabilities of Digital Transformation, Performance Media & Data, Consumer Insights & Strategy, and Creativity & Communications. The Brands included in the operating segments that comprise the Integrated Agencies Network reportable segment are as follows: Anomaly Alliance (Anomaly, Concentric, Hunter, Mono, YML and Scout (Brands), Constellation (72andSunny, Colle McVoy, Instrument, Redscout, Hello Design, Team Enterprises, and Harris Insights), the Doner Partner Network (Doner, KWT Global, Harris X, Veritas, Doner North, Northstar, which is currently sunseting, and Yamamoto (Brands)), Code and Theory and National Research Group.

These operating segments share similar characteristics related to (i) the nature of their services; (ii) the type of clients and the methods used to provide services; and (iii) the extent to which they may be impacted by global economic and geopolitical risks. In addition, these operating segments may occasionally compete with each other for new business or have business move between them.

- The **Brand Performance Network** (“BPN”), previously referred to as the “Media Network” reportable segment, is comprised of a single operating segment. BPN includes a unified media and data management structure with omnichannel media placement, creative media consulting, influencer and business-to-business marketing capabilities. Our Brands in this segment aim to provide scaled creative performance through developing and executing sophisticated omnichannel campaign strategies leveraging significant amounts of consumer data. BPN’s Brands provide media solutions such as audience analysis, media planning, and buying across a range of digital and traditional platforms (out-of-home, paid search, social media, lead generation, programmatic, television, broadcast, among others) and includes multichannel Brands Assembly, Brand New Galaxy, Crispin Porter Bogusky, Forsman & Bodenfors, Bruce Mau Design, Goodstuff, MMI Agency, digital creative & transformation consultancy Gale, B2B specialist Multiview, Observatory, Vitro, CX specialists Kenna, and travel media experts Ink.
- The **Communications Network** reportable segment is comprised of a single operating segment, our specialist network that provides advocacy, strategic corporate communications, investor relations, public relations, online fundraising and other services to both corporations and political and advocacy organizations and consists of our Allison & Partners SKDK (including Sloane & Company), and Targeted Victory brands.
- All Other** consists of the Company’s digital innovation group and Stagwell Marketing Cloud, including Maru and Epicenter, and products such as PProphet, ARound and Reputation Defender (which was sold in September 2021).
- Corporate** consists of corporate office expenses incurred in connection with the strategic resources provided to the operating segments, as well as certain other centrally managed expenses that are not fully allocated to the operating segments. These office and general expenses include (i) salaries and related expenses for corporate office employees, including employees dedicated to supporting the operating segments, (ii) occupancy expenses relating to properties occupied by all corporate office employees, (iii) other office and general expenses including professional fees for the financial statement audits and other public company costs, and (iv) certain other professional fees managed by the corporate office. Additional expenses managed by the corporate office that are directly related to the operating segments are allocated to the appropriate reportable segment and the All Other category.

The Company recognized a severance charge of approximately \$10,600 in 2022, the majority of which was at the Brand Performance Network.

The Company's CODM does not use segment assets to allocate resources or to assess performance of the segments and therefore, total segment assets have not been disclosed.

See Note 5 of the Notes included herein for a summary of the Company's revenue by geographic region for the years ended December 31, 2022, 2021, and 2020.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosures

Not Applicable.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be included in our SEC reports is recorded, processed, summarized and reported within the applicable time periods specified by the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer ("CEO"), who is our principal executive officer, and Chief Financial Officer ("CFO"), who is our principal financial officer, as appropriate, to allow timely decisions regarding required disclosures.

We conducted an evaluation, under the supervision and with the participation of our management, including our CEO, CFO and management Disclosure Committee, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based on that evaluation, and in light of the material weaknesses identified in our internal control over financial reporting described below, our CEO and CFO concluded that, as of December 31, 2022, our disclosure controls and procedures were not effective at a reasonable assurance level.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) and Rule 15d-15(f) of the Exchange Act. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP and includes those policies and procedures that: (1) pertain to the maintenance of records that accurately and fairly reflect our transactions and the dispositions of our assets; (2) provide reasonable assurance that our transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP and that our receipts and expenditures are being made only in accordance with appropriate authorizations; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Our management, under the supervision of and with the participation of the CEO and CFO, assessed the effectiveness of our internal control over financial reporting based on the criteria set forth in Internal Control-Integrated Framework issued in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission.

Based on this assessment, our management concluded that our internal control over financial reporting was not effective as of December 31, 2022, as described below. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

As outlined in Item 8—Financial Statements and Supplementary Data, Note 4—Acquisitions, throughout 2022, we acquired several companies in a series of purchase business combinations including Brand New Galaxy, Maru Group Limited, TMA Direct, Inc, Wolfgang, LLC, Epicenter Experience LLC and other less significant acquisitions. The Securities and Exchange Commission permits companies to exclude acquisitions from their assessment of internal control over financial reporting during the first year of an acquisition, and our management has elected to exclude these from our assessment as of December 31, 2022. Combined total assets and total revenues of the acquired businesses represent approximately 4% and 2%, respectively, of the related consolidated financial statement amounts as of and for the year ended December 31, 2022.

Material Weaknesses in Internal Control over Financial Reporting

The following material weaknesses were disclosed in our Form 10-K for the fiscal year ended December 31, 2021 and the remediation has not been completed as of December 31, 2022.

We did not effectively select and develop certain information technology ("IT") general controls related to access and change management controls that led to deficiencies in the design and operation of control activities, including segregation of duties deficiencies. We also had deficiencies in the design and operation of account reconciliations. These deficiencies and a lack of sufficient resources contributed to the potential for there to have been material errors in our financial statements and therefore resulted in the following additional material weaknesses:

- Risk Assessment—control deficiencies constituting material weaknesses, either individually or in the aggregate, relating to: (i) identifying, assessing, and communicating appropriate objectives, (ii) identifying and analyzing risks to achieve

these objectives, and (iii) identifying and assessing changes in the business that could impact the system of internal controls;

- Control Activities—control deficiencies constituting material weaknesses, either individually or in the aggregate, relating to: (i) addressing relevant risks, (ii) providing evidence of performance, (iii) providing appropriate segregation of duties, or (iv) operation at a level of precision to identify all potentially material errors;
- Information and Communication—control deficiencies constituting material weaknesses, either individually or in the aggregate, relating to communicating accurate information internally and externally, including providing information pursuant to objectives, responsibilities, and functions of internal control; and
- Monitoring—control deficiencies constituting material weaknesses, either individually or in the aggregate, relating to monitoring activities to ascertain whether the components of internal control are present and functioning.

Notwithstanding the conclusion by our CEO and CFO that our internal control over financial reporting as of December 31, 2022 was not effective, management has concluded that the consolidated financial statements and related financial information included in this Annual Report on Form 10-K fairly present in all material respects our financial condition, results of operations and cash flows as of the dates presented, and for the periods ended on such dates, in conformity with GAAP.

The effectiveness of our internal control over financial reporting as of December 31, 2022 has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report which is included in this Item 9A.

Remediation Plan and Status

Although the material weaknesses described above have not yet been fully remediated as of December 31, 2022, our management remains committed to remediating identified control deficiencies (including both those that rise to the level of a material weakness and those that do not), fostering continuous improvement in our internal controls and enhancing our overall internal control environment.

The Company made progress with the remediation of these material weaknesses and continued to execute on the following remediation activities through December 31, 2022:

- Continued to emphasize at the executive management level, the importance of internal control over financial reporting, as well as the integrity of our financial statements throughout the Company.
- Hired a Senior Vice President of Sarbanes-Oxley Act (“SOX”) reporting directly to the CFO with the appropriate level of knowledge and experience to lead the development and execution of the remediation plan.
- Established a SOX Steering Committee, that monitors and advises with respect to the remediation plan and progress.
- Enhanced communications with the Audit Committee of the Board of Directors for increased oversight. The Company also continues to formally report quarterly to the Audit Committee regarding progress against the remediation plan.
- Assessed the current state of the system of internal control, including information technology systems and controls, at the consolidated and brand levels. The results of this assessment allowed management to enhance existing business processes and control activities and assess the adequacy of its resources.
- Implemented new controls across our information technology environment to address the identified material weaknesses. To assess the effectiveness of the controls, management retained a consultant to test the design and implementation across select significant IT applications and remediation is in progress.
- Redesigned and strengthened control activities over reconciliations including enhanced review and approval controls.
- Conducted a detailed qualitative, quantitative, and fraud risk assessment and enhanced the linkage between risks and internal controls associated with the risk of material misstatement.
- Formalized internal control policies and procedures and conducted multiple in-depth trainings with control owners throughout the Company.

The Company has also continued to roll out its finance transformation initiative, which involves a phased deployment of new enterprise resource planning and human resource information systems and a shared service platform.

Management’s actions are expected to continue into 2023, with the goal of having the system of internal controls substantially designed and implemented in the second quarter of 2023. We will consider the above material weaknesses to be fully remediated once the applicable controls operate for a sufficient period of time and our management has concluded, through testing, that these controls are operating effectively. In addition, as we continue to monitor the effectiveness of our internal control over financial reporting, we may perform additional internal control changes as necessary.

Changes in Internal Control Over Financial Reporting

Other than the changes discussed above in connection with our implementation of the remediation plan, there were no other changes in our internal control over financial reporting (as such term is defined in Rules 13a–15(f) and 15d–15(f) under the Exchange Act) that occurred during our most recent quarter, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Management recognizes that a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud or error, if any, have been detected. These inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving our stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Report of Independent Registered Public Accounting Firm

To the shareholders and the Board of Directors of Stagwell Inc.

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of Stagwell Inc. and subsidiaries (the “Company”) as of December 31, 2022, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, because of the effect of the material weaknesses identified below on the achievement of the objectives of the control criteria, the Company has not maintained effective internal control over financial reporting as of December 31, 2022, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by COSO. We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended December 31, 2022, of the Company and our report dated March 6, 2023, expressed an unqualified opinion on those financial statements.

As described in Management’s Report on Internal Control over Financial Reporting appearing under Item 9A, the Company acquired several companies in a series of business combinations during the year ended December 31, 2022, including Brand New Galaxy, Maru Group Limited, TMA Direct, Inc., Wolfgang, LLC, Epicenter Experience LLC and other less significant acquisitions. Management excluded these companies from its assessment of internal control over financial reporting. The combined total assets and total revenues of the acquired businesses represent approximately 4% and 2%, respectively, of the related consolidated financial statement amounts as of and for the year ended December 31, 2022. Accordingly, our audit did not include the internal control over financial reporting for these acquired businesses.

Basis for Opinion

The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Material Weaknesses

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company’s annual or interim financial statements will not be prevented or detected on a timely basis. The following material weaknesses have been identified and included in management’s assessment:

The Company did not effectively select and develop certain information technology (“IT”) general controls related to access and change management controls that led to deficiencies in the design and operation of control activities, including segregation of duties deficiencies. The Company also had deficiencies in the design and operation of account reconciliations. These deficiencies and a lack of sufficient resources contributed to the potential for there to have been material errors in the Company’s financial statements. Therefore, such deficiencies resulted in the following material weaknesses:

Risk Assessment - control deficiencies constituting material weaknesses, either individually or in the aggregate, relating to: (i) identifying, assessing, and communicating appropriate objectives, (ii) identifying and analyzing risks to achieve these objectives, and (iii) identifying and assessing changes in the business that could impact the system of internal controls.

Control Activities - control deficiencies constituting material weaknesses, either individually or in the aggregate, relating to: (i) addressing relevant risks, (ii) providing evidence of performance, (iii) providing appropriate segregation of duties, and (iv) operation at a level of precision to identify all potentially material errors.

Information and Communication - control deficiencies constituting material weaknesses, either individually or in the aggregate, relating to communicating accurate information internally and externally, including providing information pursuant to objectives, responsibilities, and functions of internal control.

Monitoring - control deficiencies constituting material weaknesses, either individually or in the aggregate, relating to monitoring activities to ascertain whether the components of internal control are present and functioning.

These material weaknesses were considered in determining the nature, timing, and extent of audit tests applied in our audit of the consolidated financial statements as of and for the year ended December 31, 2022, of the Company, and this report does not affect our report on such financial statements.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this item, and not set forth below, will be included in the Company’s Proxy Statement for the 2023 Annual General Meeting of Stockholders (the “2023 Proxy Statement”), to be filed with the SEC no later than 120 days after December 31, 2022, and is incorporated herein by reference.

Executive Officers of Stagwell Inc.

The executive officers of Stagwell Inc. as of March 6, 2023 are:

Name	Age	Office
Mark Penn	69	Chairman of the Board, Chief Executive Officer
Jay Leveton	46	President
Frank Lanuto	60	Chief Financial Officer
Ryan Greene	45	Chief Operating Officer
Peter McElligott	38	General Counsel
Vincenzo DiMaggio	48	Senior Vice President, Chief Accounting Officer

There is no family relationship among any of the executive officers or directors.

Mr. Penn joined MDC in March 2019 and currently serves as Chairman of the Board and Chief Executive Officer. Mr. Penn has also been the Managing Partner and President of The Stagwell Group, a private equity fund that invests in digital marketing services companies, since its formation in 2015. Previously, Mr. Penn served as Microsoft's Executive Vice President and Chief Strategy Officer and held Chief Executive Officer position in multiple strategic public relation firms.

Mr. Leveton joined the Company in August 2021 as President. Prior to joining Stagwell Inc., Mr. Leveton served as a Partner of The Stagwell Group, where he was responsible for sourcing, integrating and scaling Stagwell's portfolio of companies, since July 2015. Previously, Mr. Leveton served as the Executive Vice President, Worldwide at Burson-Marsteller, a global public relations firm, from November 2010 to July 2015. Mr. Leveton has more than 20 years of leadership experience in marketing communications services and extensive experience in high-level political and corporate market research.

Mr. Lanuto joined MDC in June 2019 as Chief Financial Officer. Prior to joining Stagwell Inc., Mr. Lanuto served as Vice President, Corporate Controller at Movado Group, Inc. since August 2015. Before Movado Group, he spent over 17 years overseeing global financial functions and operations activities in the advertising, marketing and media services industries.

Mr. Greene joined the Company in August 2021 as Chief Operating Officer. Prior to joining Stagwell Inc., Mr. Greene served as Chief Financial Officer of The Stagwell Group since September 2015. Previously, Mr. Greene served as a Financial Management Consultant at MorganFranklin Consulting from October 2013 to September 2015, where he serviced clients across a variety of industries, including advertising technology, healthcare, financial services, and defense contractors, in connection with initial public offerings, mergers and acquisitions and business process reengineering. Prior to MorganFranklin, Mr. Greene worked in various financial leadership roles for several agencies of Omnicom Group Inc.'s Diversified Agency Services network. Earlier in his career, Mr. Greene held corporate finance and operations roles with Ernst & Young LLP, B|Com3 (acquired by Publicis Groupe), and Arthur Andersen, where he was employed in the Technology, Media and Telecom group.

Mr. McElligott joined Stagwell Inc. in March 2021 and became our General Counsel in February 2022. Prior to joining Stagwell Inc., Mr. McElligott served as General Counsel of RapidSOS, Inc. from October 2019 to March 2021 and General Counsel of Spruce Holdings Inc. from January 2017 to October 2019. Previously, Mr. McElligott held positions as senior legal counsel at Citrix Systems Inc., a member of the corporate strategy team at Microsoft, and with a Washington, D.C. based law firm. Mr. McElligott started his legal career as a clerk for Judge James Loken on the 8th Circuit Court of Appeals.

Mr. DiMaggio joined MDC in 2018 as Chief Accounting Officer. Prior to joining Stagwell Inc., he served as the Senior Vice President, Global Controller & Chief Accounting Officer at Endeavor, from 2017 to 2018. Prior thereto, he worked at Viacom Inc. from 2012 to 2017 as Senior Vice President, Deputy Controller and at the New York Times Company from 1999 to 2012 ultimately serving as its Vice President, Assistant Corporate Controller.

Code of Conduct

The Company has adopted a Code of Conduct, which applies to all directors, officers (including the Company's Chief Executive Officer and Chief Financial Officer) and employees of the Company and its subsidiaries. The Company's policy is to not permit any waiver of the Code of Conduct for any director or executive officer, except in extremely limited circumstances. Any waiver of this Code of Conduct for directors or officers of the Company must be approved by the Board. Amendments to and waivers of the Code of Conduct will be publicly disclosed as required by applicable laws, rules and regulations. The Code of Conduct is available free of charge on the Company's website at <https://www.stagwellglobal.com>, or by writing to Stagwell Inc., One World Trade Center, Floor 65, New York, New York 10007, Attention: Investor Relations. The Company intends to satisfy the disclosure requirements under Item 5.05 of Form 8-K regarding amendments to, or waivers from, certain provisions of the Code of Conduct that apply to its principal executive officer, principal financial officer and principal accounting officer by posting such information on its website, at the address and location specified above.

Item 11. Executive Compensation
